Battle Against Anarchist Terrorism International:

The Battle against Anarchist Terrorism Richard Bach Jensen, 2014 The first global history of the secret diplomatic and police campaign against anarchist terrorism from 1880 to the 1920s The Battle Against Anarchist Terrorism Richard Bach Jensen, 2014 This is the first global history of the secret diplomatic and police campaign that was waged against anarchist terrorism from 1878 to the 1920s Anarchist terrorism was at that time the dominant form of terrorism and for many continued to be synonymous with terrorism as late as the 1930s Ranging from Europe and the Americas to the Middle East and Asia Richard Bach Jensen explores how anarchist terrorism emerged as a global phenomenon during the first great era of economic and social globalization at the end of the nineteenth and beginning of the twentieth centuries and reveals why some nations were so much more successful in combating this new threat than others He shows how the challenge of dealing with this new form of terrorism led to the fundamental modernization of policing in many countries and also discusses its impact on criminology and international law *Transatlantic Radicalism* Frank Jacob, Mario Keßler, 2021 Radical individuals like anarchists and socialists in the late 19th and early 20th centuries were quite active when it came to crossing borders creating radical networks especially across the Atlantic Ocean The creation the functioning and the impact of these networks will be analysed in detail in the present book *The Invention of Terrorism in France, 1904-1939* Chris Millington, 2023-09-26 The Invention of Terrorism in France 1904 1939 investigates the political and social imaginaries of terrorism in the early twentieth century Chris Millington traces the development of how the French conceived of terrorism from the late nineteenth century notion that terrorism was the deed of the mad anarchist bomber to the fraught political clashes of the 1930s when terrorism came to be understood as a political act perpetrated against French interests by organized international movements Through a close analysis of a series of terrorist incidents and representations thereof in public discourse and the press the book argues that contemporary ideas of terrorism in France as unFrench that is contrary to the ideas and values however defined that make up Frenchness emerged in the interwar years and subsequently took root long before the terrorist campaigns of Algerian nationalists during the 1950s and 1960s Millington conceptualizes terrorism not only as the act itself but also as a political and cultural construction of violence composed from a variety of discourses and deployed in particular circumstances by commentators witnesses and perpetrators In doing so he argues that the political and cultural battles inherent to perceptions of terrorism lay bare numerous concerns not least anxieties over immigration antiparliamentarianism representations of gender and the future of European peace *Histories of Transnational Criminal Law* Neil Boister, Sabine Gless, Florian Jeßberger, 2021 This book provides an account of the origins of transnational criminal law The volume examines a range of topics beginning with normative intellectual and institutional histories It discusses specific transnational crimes ranging from piracy to cybercrime and scrutinises jurisdiction modes of liability and the place of the individual Revolution, Counterrevolution and Assassination Through World War II Robert C.

Cottrell,2024-12-06 Since the French Revolution the quest for revolutionary transformation and the fear of such change became deeply ingrained in the global landscape through World War II Modern revolutions inspired counterrevolutions that strove to turn back time to an allegedly purer finer more moral period than the upheaval and anarchy linked to a revolutionary epoch Revolutions often occurred through violence and entailed a disruption of existing social economic and political orders Counterrevolutions were equally guilty and frequently more so of horrific bloodletting in the name of restoring law and order often by shredding legal and ethical norms Drawing from a vast array of sources both primary and secondary this first of a two volume set presents a highly detailed narrative of an unholy trinity revolution counterrevolution and assassination Combining intellectual political social and cultural history this book highlights international protagonists movements and ideas supporting the radical or reactionary upheaval of society and the means that have been used to do so

A Devilish Kind of Courage Andrew Whitehead,2024-06-05 A thrilling account of the 1911 Siege of Sidney Street when a young Winston Churchill allowed two immigrant revolutionaries to burn to death in London s East End On January 3 1911 police discovered Latvian revolutionaries on the lam in London s East End A six hour gunfight ensued until fire consumed the building where the radicals had taken refuge When a not yet prime minister Winston Churchill arrived at the scene he ordered officials to let the fire run its course At least two people burned to death in the blaze but the Latvian ringleader Peter the Painter remained at large Known as the Siege of Sidney Street the event was a nationwide sensation and ignited fierce debates about immigration extremism and law enforcement This book unravels the full story of the siege the Latvian expatriates and London s vibrant anarchist movement in the early twentieth century

Infrastructural Brutalism Michael Truscello,2020-09-01 How drowned town literature road movies energy landscape photography and death train narratives represent the brutality of industrial infrastructures In this book Michael Truscello looks at the industrial infrastructure not as an invisible system of connectivity and mobility that keeps capitalism humming in the background but as a manufactured miasma of despair toxicity and death Truscello terms this infrastructural brutality a formulation that not only alludes to the historical nexus of infrastructure and the concrete aesthetic of Brutalist architecture but also describes the ecological political and psychological brutality of industrial infrastructures Truscello explores the necropolitics of infrastructure how infrastructure determines who may live and who must die through the lens of artistic media He examines the white settler nostalgia of drowned town fiction written after the Tennessee Valley Authority flooded rural areas for hydroelectric projects argues that the road movie represents a struggle with liberal governmentality considers the ruins of oil capitalism as seen in photographic landscapes of postindustrial waste and offers an account of death train narratives ranging from the history of the Holocaust to postapocalyptic fiction Finally he calls for brisantic politics a culture of unmaking that is capable of slowing the advance of capitalist suicide Brisance refers to the shattering effect of an explosive but Truscello uses the term to signal a variety of practices for defeating infrastructural power Brisantic politics he warns would require a reorientation of radical

politics toward infrastructure sabotage and cascading destruction in an interconnected world **Slow Burning Fuse** John Quail, 2019-06-01 In the accounts of the radical movements that have shaped our history anarchism has received a raw deal Its visions and aims have been distorted and misunderstood its achievements forgotten The British anarchist movement during the years 1880 1930 while borrowing from Europe was self actuated and independent with a vibrant tale all its own In *The Slow Burning Fuse* John Quail shows a history largely obscured and rewritten following 1919 and the triumph of Leninist communism The time has arrived to resurrect the works of the early anarchist clubs their unsung heroes tumultuous political activities and searing manifestos so that a truer image of radical dissent and history can be formed Quail s story of the anarchists is one of utopias created in imagination and half realised in practice of individual fights and movements for freedom and self expression a story still being written today *The Routledge Hispanic Studies Companion to Nineteenth-Century Latin America* Agnes Lugo-Ortiz, Graciela Montaldo, 2024-10-29 The Routledge Hispanic Studies Companion to Nineteenth Century Latin America provides a unique comprehensive and critical overview of Latin American studies in the nineteenth century including the major regions and subfields The essays in this collection offer a complex yet accessible transdisciplinary overview of the heterogeneous and asynchronous historical political and cultural processes that account for the becoming of Latin America in the nineteenth century from Mexico and the Caribbean Basin to the Southern Cone The thematic division of the book into six parts allows for a better understanding of the ways in which different themes are interrelated and affords readers the opportunity to draw their own connections among subfields The volume assembles a robust sample of recent and innovative scholarship on the subject reformulating from fresh perspectives commonly held views on the issues that characterized the era Additionally it provides an overarching analysis of the field and introduces cutting edge concepts all within one expansive volume opening the dialogue about topics that share common denominators and modeling how those topics can be approached from a variety of perspectives The innovative volume will be of interest to students and scholars of Latin American studies and Spanish studies Readers unfamiliar with the period will acquire a comprehensive view of its complexities while specialists will discover new interpretations and archives Counterterrorism Between the Wars Mary S.
