Successful Prevention and Youth Development Programs Laura Ferrer-Wreder,Håkan Stattin,Carolyn Cass Lorente,Jonathan G. Tubman,Lena Adamson,2012-02-02 From a European Perspective This book charts territory that is profoundly important and yet rarely fully understood The authors have attempted a task that has relevance to the widest possible range of professionals working with children and adolescents In describing and assessing the fields prevention and promotion they have performed an immense service to researchers in this field but also to practitioners across the spectrum from mental health nurses and doctors to teachers and psychologists from social work professionals to psychiatrists and youth counselors There are two other key elements that should be emphasized from the outset The first is that the approach in this book is truly multi disciplinary with the authors making a genuine attempt to draw upon knowledge and practice derived from all the relevant disciplines The second element which makes this book so important is that the authors have worked across countries to ensure that work in the field of intervention from both North America and from Europe should be included This is as welcome as it is refreshing There appear to be so many barriers to true collaboration between the two continents and so many examples of either North American to what is going on across the or European social scientists appearing blind border that the approach taken here should be wholeheartedly commended This book is essentially a review but a rather special review

Gil Clary, Jean E. Rhodes, 2006-09-24 Perhaps no other challenge is more pressing in creating developmentally tentative community and society the theme of this book series than mobilizing adultstoplayactive constructive roles in the lives of children and adolescents In a society that too easily defaults to designing programs as cure alls for meeting young people s needs particular attention must be paid to understanding and mobilizing the kind of positive relational energy that prepares each successive generation to assume its place in society Although programs and institutions certainly play important roles the key lies in the personal commitment involvement and investment of adults in young people s lives In *Mobilizing Adults for Positive Youth Development Strategies for Closing the Gap between Beliefs and Behaviors* E Gil Clary and Jean E Rhodes have assembled the insights of leading scholars from multiple disciplines and contexts for engaging a broad cadre of adults as allies for youth development As the editors write the question guiding the book is How can we most effectively encourage adults both individually and collectively to begin to behave differently with respect to the young people of a community to do so consistently and to do so in a variety of ways What is being proposed then is nothing less than a social movement that engages individuals small groups neighborhoods workplaces schools faith communities and broader social institutions in attending to the well being and healthy development of young people *Attorney General's Report on Federal Law Enforcement and Criminal Justice Assistance Activities* United States.
