Battered Without Bruises:

The Juvenile Skeleton in Forensic Abuse Investigations Ann H. Ross, Suzanne M. Abel, 2011-07-26 Juvenile homicide and fatal maltreatment remain serious and pervasive problems in the developed world and especially in the United States where in 2005 some 1 500 children died from neglect and physical abuse Alarming statistics such as this as well as an upsurge in the media attention paid to all things forensic underscore the pressing need for the utmost rigor in the scientific investigation of child abuse cases This well timed volume is a response to the climate of public and press interest in such inquiries where the forensic aspects of the casework generate an enormous amount of attention The contributions cover a wide range of topics and explore many of the finer details of investigations into juvenile fatalities suspected of being abuse related The chapters reflect both the multi disciplinary nature of such investigations and also the need for law enforcement professionals to take a rounded holistic approach to the casework involved The motivational factors that lead many professionals enter this arena of investigation are of course personal and individual However at the core of their commitment and their work is a shared need for justice plain and simple Victim advocacy and protecting the rights of children both living and deceased remains a key impetus for those professionals who specialize in child abuse research At the heart of this book is the aim of providing both a vital resource for investigators and a purposeful voice for the young victims of abuse unable as they are to stand up and speak for themselves The Battered Child Mary Edna Helfer, Ruth S. Kempe, Richard D. Krugman, 1997 Previous editions of this book have been greeted with great acclaim This edition reflects the past decade s advances in research and techniques and includes contributions from experts on every aspect of child abuse *Life Drawing* Gordon C.F. Sheehy, 2013-12-15 In the landmark Lavallee decision of 1990 the Supreme Court of Canada ruled that evidence of battered woman syndrome was admissible in establishing self defence for women accused of killing their abusive partners This book looks at the legal response to battered women who killed their partners in the fifteen years since Lavallee Elizabeth Sheehy uses trial transcripts and a case study approach to tell the stories of eleven women ten of whom killed their partners She looks at the barriers women face to just leaving the various ways in which self defence was argued in these cases and which form of expert testimony was used to frame women s experience of battering Drawing upon a rich expanse of research from many disciplines she highlights the limitations of the law of self defence and the costs to women undergoing a murder trial In a final chapter she proposes numerous reforms In Canada a woman is killed every six days by her male partner and about twelve women per year kill their male partners By illuminating the cases of eleven women this book highlights the barriers to leaving violent men and the practical and legal dilemmas that face battered women on trial for murder **Empowering and Healing the Battered Woman** Mary Ann Dutton, 2000-09-05 Print

Bonpasse,2011-08-17 Chad Emery Evans was wrongfully convicted in December 2001 in New Hampshire of the murder of Kassidy Bortner the 21 month old daughter of his girlfriend Amanda Bortner The causes of her death and her injuries are mysterious and disputed but Chad was convicted of second degree murder On June 2 2000 Chad met Amanda and their relationship grew rapidly By early July Amanda and Chad were living together Chad s three year old son Kyle also lived in the home several days a week through shared custody with Chad s former wife On the morning of November 9 2000 Amanda took Kassidy to the Kittery Maine home of her sister Jennifer Bortner and her sister s boyfriend Jefferey Marshall for babysitting for the day Kassidy had a new bruise on one eye due to an accident the previous night when Chad was giving Kyle some batting practice with a brown plastic bat in Kyle s bedroom just before bedtime While wiffle balls were usually used for such fun the ball that Kyle hit into Kassidy s eye was a Tee ball The resulting bruise to Kassidy s left eye was the latest of a series of bruises which had been observed by many people during the fall of 2000 In a time of growing sensitivity to child abuse most of the responsible adults close to Kassidy chose to believe that the bruises and injuries were unfortunate accidents and that they didn t require medical care right away The life threatening severity of the injuries was not known or suspected by anyone Tragically those adults including Chad Evans were unaware that there was something very wrong with Kassidy because of the accidents or perhaps because of a chronic condition disease or toxin Chad Evans never spanked nor hit Kassidy Bortner He loved and cared for her Shortly after Noon on the 9th Jeff Marshall checked on Kassidy and recognized that she was in trouble and seemingly lifeless and he made several phone calls for help The EMT s and Kittery Police arrived quickly but Kassidy was dead when they arrived As the man living with Kassidy s mother Amanda Bortner Chad Evans was an initial suspect By the time of Chad s 7 10 p m interview with the police and within about seven hours of Kassidy s death the police were focused entirely on Chad and worked thereafter to build the case against him At his December 2001 trial Chad took his attorneys advice not to testify and his attorneys decided to call only one defense witness They called the nationally renowned forensic pathologist Dr Michael Baden as they thought his testimony was sufficient to establish the reasonable doubt needed for a not guilty verdict However their assessment was wrong and the jury found Chad guilty of most of the charges In November 2002 Amanda Bortner was tried and found guilty of two counts of child endangerment and sentenced to two years in jail In 2011 Chad Evans began his tenth year in the New Hampshire State Prison for crimes he didn t commit He passed a lie detector test given in July 2010 In September 2010 a report was discovered of a DNA test conducted by the Maine State police in March 2001 The test on blood found underneath all ten of Kassidy Bortner s fingernails showed that the blood belonged to Kassidy The DNA test on the substance on a paper towel found where Kassidy was sitting on the day she died showed saliva that belonged to a male Prior to Chad s trial the existence

of the blood was in a report available to his defense lawyers but it was not mentioned by anyone on either side at the trial The DNA test and report was never disclosed to the defense Also not disclosed was information about Kassidy s medical appointments in August and September 2000 The jury also did not know about a family gathering four days before Kassidy died where only one bruise was seen on her right cheek Eye Contact tells the story of the wrongful convictions of Chad and Amanda and the campaign for exoneration **78 Battered Children** Angela E.
