Behold The Beauty Art Curriculum For Grades 4 6:

Behold The Beauty Connie L. Meyer, 2014-05-13 This third volume in the three volume art curriculum set Behold the Beauty is designed to be used by teachers or homeschooling parents for kindergarten 6th grade The ultimate objective of every lesson is exactly as the title implies to behold the beauty of creation and to praise God in doing that As students learn to more closely observe creation while rendering what they see in pencil paint or other artistic media they will be trained to meet that objective In serving that goal the lessons teach how to use the elements of art such as line shape and color while introducing the principles of design such as unity variety and focal point Not only do students learn to behold the evidence of God s glory all around them by these means they also learn to make objects of beauty in order to communicate that glory to others The curriculum is based on the infallible Scriptures and the twelve lessons of each grade level comprise a thorough biblical and systematic art education Behold the Beauty was also written with practical considerations in mind to assist instructors who have had little or no training in art The lessons are clear and easy to use requiring minimal supplies without compromising objectives **Whitaker's Books in Print** ,1998 *Catholic Music Educators Bulletin* ,1954 **Behold**

The Beauty Connie L. Meyer, 2007-01-02 This book is part of an art curriculum written from a Reformed Christian perspective The arts are a definitive part of this education Even as math science and history show us the power and wisdom of God in creation so the arts provide the opportunity for close observation of all his works But the arts contain an added dimension as well They provide a studied manner in which to respond in praise of God s works whether by music poem picture or appreciation of such works by others To respond in this way is the joy of the child of God The lessons in Behold the Beauty are written with a view toward equipping the student to see the glory of God especially in creation and to praise him for it The objective of each lesson focuses on specific aspects of the elements of art and the principles of design The elements of art are the building blocks of composition They include line shape texture color form and value The principles of design guide how the elements are to be used They include unity focal point variety contrast balance movement rhythm pattern proportion and perspective Because the child of God desires to see the glory of his Maker in creation the lessons also place a strong emphasis on observation Expression or how art communicates is treated as well along with some art history
