Women Beyond Belief Karen L. Garst, 2016-10-01 Women have made great strides toward equal rights over the past hundred years especially in the West But when considering the ongoing fight over reproductive rights and equal pay and the prevalence of sexual violence and domestic abuse it is clear that a significant gap still exists With scripture often cited as justification for the marginalization of women it is time to acknowledge that one of the final barriers to full equality for women is religion Much has been written about the great strides humankind has made in knocking down many long held religious beliefs whether related to the age of the earth or the origin of the species But religion's negative impact on women has been less studied and discussed This book is a step toward changing that Twenty two women from a variety of backgrounds and Judeo Christian traditions share their personal stories about how they came to abandon organized religion and how they discovered life after moving away from religious and supernatural beliefs Their words serve both as a celebration of all who have taken similar steps under the weight of thousands of years of religious history and as a source of inspiration for those individuals especially women who have deep doubts about their own belief traditions but who don't yet know how to embrace life without falling back on religion

The Promised Land Susan Sperling Brock, 2014-11-25 How do you persevere when life seems hopeless and you feel so helpless Where does faith fit in How do you find meaning and purpose in life when the most important people in your life are not there How do you overcome years of depression What can you do to be successful in marriage when only failure has been modeled before you These questions and their answers are the starting points to healing from past damaging relationships and entering into a life of emotional strength and spiritual boldness In the Old Testament God called His people to a land that was filled with milk and honey It was called the Promised Land Similarly He calls each believer today to a place of rest and abundant living This book made possible by combining decades of personal struggle

In 1950s Gassaway, West Virginia, Evelyn Parsons appeared to be the ideal housewife, cherished in her church community while her husband Frank, a deacon and state Department of Transportation supervisor, supported their comfortable life with an immaculate home and two daughters. Behind the facade, however, Frank ruled with an iron fist. He controlled Evelyn by threatening to have her institutionalized at Weston State Hospital and routinely violated her through marital rape. Small acts of defiance, such as voicing her desire to work outside the home, only triggered Frank's explosive anger. One night following yet another abuse, Evelyn mustered the courage to declare "No means no." In retaliation, Frank had her forcibly committed to Weston, ripping her away from her daughters under the pretext of treating her purported mental instability. There, in the cold confines of the institution, she endured inhumane punishments that eroded her dignity. Yet Evelyn's spirit endured. Among fellow inmates, she emerged as a beacon of resistance, and their collective defiance against the sadistic practices at Weston sparked public outrage and media scrutiny, eventually prompting reforms. After two grueling years, Evelyn reemerged not merely as a survivor but as a warrior, a relentless advocate for those oppressed by unjust systems, inspiring countless others to reclaim their voices. *Beyond Discontent* Eckart Goebel, 2012-04-26

According to Freud's later works, we do not really feel well or free within civilization. Our discontent never disappears, and we shall never become completely reliable members of society. Alcohol already suffices. Freud tells us to ruin the fragile architecture of sublimations. Since Beyond the Pleasure Principle, sublimation seems to be nothing more than a euphemism for suppressing the drives. We sublimate because we did not get or were not allowed to have what we actually wanted. Is sublimation a mere surrogate or perhaps even the name psychoanalysis found for theoria in the twentieth century? With Freud as its pivot, Goebel provides an intellectual history of sublimation, which also serves as an introduction to other key ideas associated with the authors discussed, such as Schopenhauer's philosophy of music, the will to power in Nietzsche, the structure of Freudian psychoanalysis, Adorno's concept of modern art, or Lacanian ethics. In examining both its prehistory and reception, Goebel argues that sublimation can be reconsidered as the road toward an individual and social life beyond discontent. *Behind Closed Doors* Joseph M.
