Coulibaly,2016-09-12 Cote d'Ivoire seeks a development strategy to reach middle income status a challenge that would require annual growth rates averaging 10 percent over the next 13 years Global experience of both developed and emerging economies shows that GDP per capita rises with increased urbanization However Cote d'Ivoire's economy is underperforming relative to its level of urbanization The country's urbanization has been negatively correlated with income per capita since the late 1970s and poverty has been increasing Rather than consider development of cities individually successful urbanization plans in Cote d'Ivoire should consider the country's cities as a portfolio of assets each differentiated by characteristics that include size location and density of settlements The authors of Diversified Urbanization The Case of Cote d'Ivoire identify three types of cities on the basis of their contribution to growth and job creation Global Connectors Regional Connectors along major corridors for regional transport and trade and Domestic Connectors of localization economies for agribusiness Stakeholders from the national government local governments and the private sector have a shared vision for urbanization in the country cities that are planned structured competitive attractive inclusive and organized around development poles To achieve this vision and the goal of middle income status Ivorian policy makers need to act urgently to support diversified urbanization across all city types This book identifies important constraints and opportunities along four dimensions planning connecting greening and financing cities **HIV and East Africa** Janet Seeley,2015-03-24 By tracing

the shadow of the epidemic over the last 30 years in Uganda and more broadly in the region HIV and East Africa investigates the impact of the epidemic on people's lives and livelihoods placing the epidemic within the context of the social political and economic changes that have occurred over the last three decades Whilst it inevitably touches on loss and suffering the message is also about managing the impact of an epidemic which has had a profound impact on many lives When one looks for traces in southern Uganda once thought to be the epicentre of the epidemic it is hard to see any lasting impact at a community wide level Delve deeper and there are scars to be found among families and patterns of change which are a direct result of the epidemic The book goes on to explore the effect of improved treatment and care on perceptions of the epidemic and concludes by putting HIV into the context of other disease outbreaks reflecting on what we can learn from the history of other epidemics as well as the last 30 years of the HIV epidemic Yearbook of International Organizations 2005/2006
