*Digital Geographies—Theory, Space, and Communities* Abdul Shaban, 2025-01-02 This machine generated volume with chapter introductions by the human expert showcases how digital technologies are having deep transformative impacts on geographies and temporalities of social political economic and personal lives They are altering perceptions and physicality of space and time They are giving birth to digital communities and societies where distance remains of little significance Virtual spaces and ICT have disrupted state sovereignties often liquidating their physical national boundaries The rise of the digital economy shows that new important raw materials for the future are information rather than coal oil and minerals

Digitalisation is also leading to several contradictory processes of democratisation rising welfare of the citizens as well as surveillance peripheralisation and exclusion States are taking pride in digitalising their services to the citizens with massive consequences on the welfare of those facing digital divides As a departure to and in addition to the usual understanding of digitalisation society and space the present volume engages with some of the critical questions while reviewing existing literature What are the space relations of digital technologies What are the forms and consequences of changing physical space human relations to digital space human relations How is the sense of time and space changing with pervasive performatives of in real time and virtual realities or with perceptible or portable spaces In what ways does digitalisation relate to knowledge and power Why and how must we theorise the digitalisation led transformative processes of sociality materiality and their spatialities The book will be useful for teachers researchers and students engaged in this new area of digital geography especially in social science and its subfields of sociology economics political sciences anthropology psychology development studies policy studies social work urban studies and planning For the full picture the volume can be read in combination with its companion volume on Digital Geographies Urbanisation Economy and Modelling *Teaching and Teacher Education in International Contexts* Cheryl J. Craig, Juanjo Mena, Ruth G. Kane, 2023-08-10 The ISATT 40th Anniversary Yearbook presented over three volumes celebrates the contributions of ISATT members over time and offers current scholarly research to inform current and future teacher education and teaching Impact of Global University

Ranking Systems on Developing Countries Onyancha, Omwoyo Bosire, Tella, Adeyinka, 2023-06-01 The emotive discourses on the subject of university rankings are directly linked to the effect of such rankings on the performance of universities throughout the world It has been observed that the top ranked universities attract major financial commitments from the industry the best students quality researchers and a wide range of other quality endowments such as equipment libraries and laboratories It is not surprising that the ranking of universities has gained popularity and become a significant factor shaping not only the reputation of universities but also the performance of said institutions around the world including the developing countries *Impact of Global University Ranking Systems on Developing Countries* presents a collection of perspectives from scholars and other stakeholders on the impact of the global ranking systems on developing countries The book is an

additional resource for discussion and discourse as far as the global university ranking systems are concerned and opens new frontiers for further research Covering key topics such as assessment ethics and academic freedom this premier reference source is ideal for administrators policymakers researchers scholars academicians practitioners instructors and students
