Defining Russia Musically Richard Taruskin, 2000-09-25 with an air of alterity sensed exploited bemoaned reveled in traded on and defended against both from within and from without. The author's goal is to explore this assumption of otherness in an all encompassing work that re creates the cultural contexts of the folksong anthologies of the 1700s the operas symphonies and ballets of the 1800s the modernist masterpieces of the 1900s and the hugely fraught but ambiguous products of the Soviet period. Taruskin begins by showing how enlightened aristocrats reactionary romantics and the theorists and victims of totalitarianism have variously fashioned their vision of Russian society in musical terms. He then examines how Russia as a whole shaped its identity in contrast to an East during the age of its imperialist expansion and in contrast to two different musical Wests Germany and

Italy during the formative years of its national consciousness
