Adrian Mario Gellel University of Malta Malta **Secular Spirituality** Harald Walach, 2014-09-18 This book discusses spirituality as an emerging scientific topic from a historical perspective with extensive discussion of the mind body problem and of scientific concepts of consciousness While the book focuses on the Western tradition of Enlightenment it also implicitly addresses the double meaning of the term with the Eastern tradition describing it as a state of true knowledge which is an important goal on an individual's spiritual path and the Western tradition seeing it as the collective process of getting rid of narrow minded dogmas and concepts The book is based on a simple yet challenging premise Science has not gone far enough in the scientific process of going from a collective mind tied up in dogmatic teachings to a truly free mind that seemingly freed itself from bondage and restrictions The book shows that science and with it our whole Western culture has to incorporate spirituality if it is to realize this goal of enlightenment If that is done and it can only be done by many individuals actually practicing spirituality this will also lead to the individual type of enlightenment Mild Altered States of Consciousness Eileen Sheppard, 2024-04-17 This book draws on transpersonal anthropology and psychology in order to explore mild altered states of consciousness ASCs experienced in everyday life While research into consciousness and particularly ASCs is growing this book focuses on a neglected area everyday experiences of ASCs Opening with an up to date overview of the development of the study of ASCs the author presents an in depth empirical exploration and mapping of mild ASCs Dr Sheppard examines original research conducted in a range of religious and secular contexts with participants who were engaged in activities including prayer sport nature conservation music and musical instrument making and TV viewing The author takes a novel phenomenological approach to the analysis of ASCs emphasising the subjective experience The book explores the healing potential of such mild ASCs the everyday fantasy reality of the interior landscape and discusses the problem of validity and belief in the study of ASCs It will appeal to students and scholars of transpersonal psychology consciousness studies social anthropology and the philosophy of mind *Mysticism and Meaning: Multidisciplinary Perspectives* Alex S. Kohav, 2019 The volume investigates the question of meaning of mystical phenomena and conversely queries the concept of meaning itself via insights afforded by mystical experiences The collection brings together researchers from such disparate fields as philosophy psychology history of religion cognitive poetics and semiotics in an effort to ascertain the question of mysticism's meaning through pertinent up to date multidisciplinary The discussion commences with Editor's Introduction that probes persistent questions of complexity as well as perplexity of mysticism and the reasons why problematizing mysticism leads to even greater enigmas One thread within the volume provides the contextual framework for continuing fascination of mysticism that includes a consideration of several historical traditions as well as personal accounts of mystical experiences Two contributions showcase ancient Egyptian and ancient Israelite involvements with mystical alterations of consciousness and Christianity's origins being steeped in mystical praxis and four essays highlight mysticism's formative presence in Chinese traditions and Tibetan Buddhism as well as medieval Judaism and

Kabbalah mysticism A second more overarching strand within the volume is concerned with multidisciplinary investigations of the phenomenon of mysticism including philosophical psychological cognitive and semiotic analyses To this effect the volume explores the question of philosophy's relation to mysticism and vice versa together with a Wittgensteinian nexus between mysticism facticity and truth language mysticism and supernormal meaning engendered by certain mystical states cognitive poetic analysis of mystical poetry and a semiotic scrutiny of some mystical experiences and their ineffability Finally the volume includes an assessment of the so called New Age authors contention of the convergence of scientific and mystical claims about reality The above two tracks are appended with personal contemporary accounts of mystical experiences in the Prologue and a futuristic envisioning as a fictitious chronicle from the time to come of life without things mystical in the Postscript The volume contains fourteen chapters its international contributors are based in Canada Israel United Kingdom and the United States

Swami Vivekananda's Vedāntic Cosmopolitanism Swami Medhananda, 2022 Swami Vivekananda the nineteenth century Hindu monk who introduced Vedanta to the West is undoubtedly one of modern India's most influential philosophers Unfortunately his philosophy has too often been interpreted through reductive hermeneutic lenses Typically scholars have viewed him either as a modern day exponent of Sankara's Advaita Vedanta or as a Neo Vedantin influenced more by Western ideas than indigenous Indian traditions In Swami Vivekananda's Vedāntic Cosmopolitanism Swami Medhananda rejects these prevailing approaches to offer a new interpretation of Vivekananda's philosophy highlighting its originality contemporary relevance and cross cultural significance Vivekananda the book argues is best understood as a cosmopolitan Vedantin who developed novel philosophical positions through creative dialectical engagement with both Indian and Western thinkers Inspired by his guru Sri

Ramakrishna Vivekananda reconceived Advaita Vedanta as a nonsectarian life affirming philosophy that provides an ontological basis for religious cosmopolitanism and a spiritual ethics of social service He defended the scientific credentials of religion while criticizing the climate of scientism beginning to develop in the late nineteenth century He was also one of the first philosophers to defend the evidential value of supersensuous perception on the basis of general epistemic principles Finally he adopted innovative cosmopolitan approaches to long standing philosophical problems Bringing him into dialogue with numerous philosophers past and present Medhananda demonstrates the sophistication and enduring value of Vivekananda's views on the limits of reason the dynamics of religious faith and the hard problem of consciousness

Philosophy of Mysticism Richard H. Jones, 2016-03-23. This work is a comprehensive study of the philosophical issues raised by mysticism. Mystics claim to experience reality in a way not available in normal life, a claim which makes this phenomenon interesting from a philosophical perspective. Richard H. Jones's inquiry focuses on the skeleton of beliefs and values of mysticism, knowledge claims made about the nature of reality and of human beings, value claims about what is significant and what is ethical, and mystical goals and ways of life. Jones engages language, epistemology, metaphysics, science and the philosophy of mind. Methodological issues in the study of mysticism are also addressed. Examples of mystical experience are drawn chiefly from Buddhism and Advaita Vedanta but also from Christianity, Judaism, Islam and Daoism.

Early Israel Alex Shalom Kohav, 2022-11-29. Early Israel offers the most sweeping reinterpretation of the Pentateuch since the nineteenth century. Documentary Hypothesis, Engaging a dozen plus modern academic disciplines from anthropology, biblical studies, Egyptology and semiotics to linguistics, cognitive poetics and consciousness studies from religious studies, Jewish studies, psychoanalysis and literary criticism to mysticism studies, cognitive psychology, phenomenology and philosophy of mind, it wrests from the Pentateuch an outline of the heretofore undiscovered ancient Israelite mystical initiatory tradition of the First Temple priests. The book effectively launches a new research area, Pentateuchal esoteric mysticism, akin to a center or organizing principle discussed in biblical theology. The recovered priestly system is discordant vis-à-vis the much later rabbinical project. This volume appeals to a diverse academic community from Biblical and Jewish studies to literary studies, religious studies, anthropology and consciousness studies.

British Literature and Spirituality Franz Karl Wöhrer, John S. Bak, 2013. This book reflects the current state of research in the field of the spiritual in British literature where spirituality is understood as a culturally determined universal phenomenon or a factuality of humanity consisting of the living apprehension of the Sacred during rare gratuitous moments of illumination. With critical essays by scholars working in various disciplines, English studies, music, the arts, psychology, theology, etc., the book explores a corpus of encoded narratives of as well as reflections on the Sacred in British literature from the Late Middle Ages to the present. Multi-disciplinary in nature and interdisciplinary in method, *British Literature and Spirituality* illustrates the hermeneutic potential of readings that transcend the disciplinary boundaries of spiritual writings.
