The New Lao Tzu Ray Grigg, 1995 A new interpretation of the Tao Te Ching this book is a celebration of the Way of Harmony and Balance Ray Grigg transforms what has been traditionally called the Tao Te Ching what he calls the Lao Tzu from the mysterious to the meaningful He accomplishes this by abandoning the historical convention of a literal reading of the Chinese texts The result is a poetic expression of ancient wisdom in a language that readers can approach directly The wisdom of the Lao Tzu rests in its ability to tease confusion into insight that is beyond the confinement of intellectual understanding Beautifully illustrated with ink drawings by Bill Gaetz The New Lao Tzu demonstrates that living the wisdom of the Lao Tzu requires more instinct than reason more intuition than argument

several meanings including perhaps most relevantly virtue Jing in this context means something like canon or great book So the full title can be understood to mean The Book of the Way of Virtue The book comprises 81 chapters today but there is evidence that chapter division was a later development for the book If this is the case then the original text had a much more free flowing style As it stands now the book is poetic in form with allowances for broad interpretation of the text It is written with an interesting rhetorical style it features bold declarative statements that are immediately confronted with statements that seem to contradict them Some experts believe that the purpose of this style is to get the reader thinking to reconcile these contradictions
