South African Urban Change Three Decades After Apartheid Anthony Lemon, Ronnie Donaldson, Gustav Visser, 2021-06-10 This book provides an analysis of South African urban change over the past three decades It draws on a seminal text *Homes Apart* and revisits conclusions drawn in that collection that marked the final phases of urban apartheid It highlights changes in demography social as well as economic structure and their differential spatial expression across a range of urban sites in South Africa The evidence presented in this book points to a very complex set of narratives in urban South Africa and one that cannot be reduced to a singular statement so the conclusions of the various investigations are in many ways open As urban apartheid represented one clear outcome its post apartheid urban legacies varies greatly from city to city As such this book is a great resource to students and academics focused on urban change in South African cities since the demise of apartheid and scholars of urban policy making in South Africa and Southern urbanists generally Ambivalent Patricia Hayes, Gary Minkley, 2019-11-12 Going beyond photography as an isolated medium to engage larger questions and interlocking forms of expression and historical analysis *Ambivalent* gathers a new generation of scholars based on the continent to offer an expansive frame for thinking about questions of photography and visibility in Africa The volume presents African relationships with photography and with visibility more generally in ways that engage and disrupt the easy categories and genres that have characterized the field to date Contributors pose new questions concerning the instability of the identity photograph in South Africa ethnographic photographs as potential history humanitarian discourse from the perspective of photographic survivors of atrocity photojournalism the nuanced passage from studio to screen in postcolonial digital portraiture and the burgeoning visual activism in West Africa As the contributors show photography is itself a historical subject it involves arrangement financing posture positioning and other kinds of work that are otherwise invisible By moving us outside the frame of the photograph itself by refusing to accept the photograph as the last word this book makes photography an engaging and important subject of historical investigation *Ambivalent*'s contributors bring photography into conversation with orality travel writing ritual psychoanalysis and politics with new approaches to questions of race time and postcolonial and decolonial histories Contributors George Emeka Agbo Isabelle de Rezende Jung Ran Forte Ingrid Masondo Phindi Mnyaka Okechukwu Nwafor Vilho Shigwedha Napandulwe Shiweda Drew Thompson **Governor's Houses and State Houses of British Colonial America, 1607-1783** Hoke P.
