Question Paper 18march2014

Filippo Celata, Raffaella Coletti

Question Paper 18march2014:

Financial Regulation in the European Union Rainer Kattel, Jan Kregel, Mario Tonveronachi, 2015-10-08 This collection offers a comparative overview of how financial regulations have evolved in various European countries since the introduction of the single European market in 1986 It includes a number of country studies which provides a narrative of the domestic financial regulatory structure at the beginning of the period as well the means by which the EU Directives have been introduced into domestic legislation and the impact on the financial structure of the economy In particular studies highlight how the discretion allowed by the Directives has been used to meet the then existing domestic conditions and financial structure as well as how they have modified that structure Countries covered are France Germany Italy Spain Estonia Hungary and Slovenia The book also contains an overview of regulatory changes in the UK and Nordic countries and in post crisis USA This comparative approach raises questions about whether past and more recent regulatory changes have in fact contributed to increase financial stability in the EU The comparative analysis provided in this book raises questions on whether the past and more recent changes are contributing to increase the financial stability and efficiency of individual banks and national financial systems The crisis has demonstrated the drawbacks of formulating the regulatory framework on standards borrowed from the best industry practices from the large developed countries originally designed exclusively for large global banks but now applied to all financial institutions

Neighbourhood Policy and the Construction of the European External Borders Filippo Celata, Raffaella Coletti, 2015-06-11 This book looks both backward and forward with regard to the European Union's political strategies towards its neighbouring countries By bringing together the perspectives of critical geopolitics policy studies and border studies it presents a comprehensive review of the European Neighbourhood Policy and how it impacts the ongoing construction of the EU's external frontiers Is the EU committed to promoting integration in a wider European space or is a fortress Europe emerging where the strengthening of internal cohesion is coupled with the militarisation of its external borders The book aims to problematize this question by showing how the EU's external policies are based on a mixture of openness and closure inclusion and exclusion cooperation and securitisation The European Neighbourhood Policy is a controversial strategy where regionalization and bordering homogenisations and differentiations centrifugal and centripetal forces proceed side by side in an explicit attempt to construct a selective mobile and fragmented border A specific focus is devoted to the diversity of geo strategies the EU is pursuing in its neighbouring countries and regions macro regional strategies and cross border cooperation initiatives as new scales of cooperation and the role of other global players

Building Military Science for the Benefit of Society Wolfgang Peischel, Christoph Bilban, 2020-08-03 The present book not only illustrates the ISMS Conference's objectives and presents the contents of the lectures but also expands on them through further in depth contributions the results of academic research carried out on the Conference topic both across disciplines and ISMS member states are thus further illuminated The book intends to provide

teachers with a guide to possible developments in the field of military science and students with greater insights into its objectives and principles The key question is what added value what kind of USP military science could furnish for society what specific support not already covered by other scientific disciplines or organizations If it were only the science of organizing structuring and commanding armed forces it would not be necessary to define and establish an independent scientific discipline the military itself could accomplish all that in the required quality by itself What would give legitimacy to an independent discipline called Military Science is a comprehensive i e not only military strategic organic collection of primarily intellectual capabilities safeguarding the secure long term survival of the state and its people thus contributing to the benefit of society In order to increase the publication s academic value and to provide authors with an additional incentive to contribute in future the book was subjected to a peer review process

Value Chains in Sub-Saharan Africa Sören Scholvin,Anthony Black,Javier Revilla Diez,Ivan Turok,2019-05-09 Development largely depends on how given places participate in global economic processes The contributions to this book address various features of the integration of sub Saharan Africa into the world economy via value chains so as to explain corresponding challenges and opportunities The book deals with five issues that have not been covered adequately in scientific debates first policies are essential to promote value chains and increase their impact on development second value chains are diverse and the variance between them has major economic and political implications third regional value chains appear to constitute a viable alternative to global ones or at least are complementary to them promising better developmental outcomes for the Global South fourth political and socio economic factors are important considerations for a complete assessment of value chains fifth cities and city regions are also crucial objects of study in seeking to achieve a comprehensive assessment of value chains

Tainted Democracy Zsuzsanna Szelényi,2022-11-21 Hungary once the poster child of liberal democracy is fast becoming an autocracy under Viktor Orb n After winning an absolute majority in 2010 Orb n launched a series of reforms fundamentally undermining the country s twenty year post Cold War liberal consensus For supporters and foes alike the rise and rise of Hungary s prime minister is a vivid example of how democracy can be subverted from within Zsuzsanna Szel nyi a leading member of Orb n s Fidesz in its early years has witnessed first hand the party s shift from liberalism to populist nationalism Offering an insider s account of Fidesz s

evolution since its creation she explains how the party rose to leadership of the country under Orb n and made sweeping legal political and economic changes to solidify its grip on power from reining in the public media to slashing the number of parliamentary seats She answers a key question why has Orb n been so successful winning widespread support within Hungary and wielding considerable influence in European politics And how can Hungary s opposition party Together which she co founded in 2014 work to turn the country around Underpinned by Szel nyi s own experiences at the heart of Hungarian politics Tainted Democracy offers accessible nuanced insights into the global rise of populist autocracy and how it can be challenged **The Internet and European Integration** Asimina Michailidou, Pieter de Wilde, Hans Jörg

Trenz, 2014-11-19 This book offers a wealth of original empirical data on how online media shape EU contestation Taking a public sphere perspective the authors highlight the myths and truths about the nature of audience driven online media content and show how public demands for legitimacy are at the heart of the much analyzed politicization of European integration What EU citizens most intensely debate online are the fundamental questions of what the European institutions stand for and how they can be held accountable Drawing on innovative and rigorous analysis of online media ownership journalistic content and online readers inputs the authors piece together the components of the dynamic nature of EU contestation and the degree of convergence towards Euroscepticism across EU member states in the first years of the Eurocrisis There is no doubt that EU citizens have strong opinions about the EU and interactive online media allow these opinions to come to the fore to be challenged and amplified both within and beyond national public spheres Yet for all its potential to unite European publics online EU contestation remains firmly anchored in offline news media frames while citizens and journalists alike struggle to put forward a clear vision of the future EU polity Law, Territory and Conflict Resolution Matteo Nicolini, Francesco Palermo, Enrico Milano, 2016-05-02 Prompted by the de facto secession of Crimea in early 2014 Law Territory and Conflict Resolution explores the role of law in territorial disputes and therefore sheds light on the legal realities in territorial conflicts Seventeen scholars with backgrounds in comparative constitutional law and international law critically reflect on the well established assumption that law is part of the solution in territorial conflicts and ask whether the law cannot equally be part of the problem The volume examines theory practice legislation and jurisprudence from various case studies thus offering further insights on the following complex issue can law act as an effective instrument for the governance of territorial disputes and conflicts *Social Media and Mobile Marketing Strategy* Randi Priluck, 2016-08 Social Media and Mobile Marketing Strategy is the first digital media marketing textbook to combine social media and mobile technology with digital marketing strategy planning It provides a framework that guides students in setting objectives segmenting and researching potential markets examining consumer behavior in the digital market space and using measurement plans to evaluate success and failure Working from a strong foundation in marketing theory this text presents a clear set of processes for executing social media and mobile strategies in order to build brand value **Europe's**

the tertiary level This book will be of interest to researchers studying language planning teacher education and the sociology of education particularly within the Malaysian context **Torn between East and West** Iulian Chifu, Simona

Tutuianu, 2016-08-05 This book is a very timely account of the legal economic and political consequences for border states caught in the current tug of war between the West and Russia The Ukraine crisis of 2014 focused policy makers attention on a geographical area full of dangers that had gone relatively unnoticed since the breakup of the Soviet Union namely the security dynamics of the border states of Eastern Europe and the Black Sea Twenty five years after the collapse of the Soviet Union a strong Russia returns alternatively threatening and cajoling but at risk itself of suffering economic injury from western reprisals over its nostalgia for the map drawn at Yalta That conflict which hotted up over the Ukraine was soon being played out over and in the air space over Syria and Turkey while the border states themselves are likely to be drawn into the European refugee crisis and have the potential after the 2015 Paris atrocities to be breeding grounds for international terrorists This groundbreaking book contains prescient warnings that must be heeded by leaders and diplomats on both sides of the East West divide **Macprudential Banking Supervision & Monetary Policy** Luca Amorello, 2018-08-27 The

European experience suggests that the efforts made to achieve an efficient trade off between monetary policy and prudential supervision ultimately failed The severity of the global crisis have pushed central banks to explore innovative tools within or beyond their statutory constraints capable of restoring the smooth functioning of the financial cycle including setting macroprudential policy instruments in the regulatory toolkit But macroprudential and monetary policies by sharing multiple transmission channels may interact and conflict with each other Such conflicts may represent not only an economic challenge in the pursuit of price and financial stability but also a legal uncertainty characterizing the regulatory developments of the EU macroprudential and monetary frameworks In analyzing the legal interaction between the two frameworks in the EU this book seeks to provide evidence of the inconsistencies associated with the structural separation of macroprudential and monetary frameworks shedding light upon the legal instruments that could reconcile any potential policy inconsistency

Roles and mechanisms of parasitism in aquatic microbial communities Télesphore Sime-Ngando, Kevin D. Lafferty, David G. Biron, 2015-07-24 Next Generation Sequencing technologies are increasingly revealing that microbial taxa likely to be parasites or symbionts are probably much more prevalent and diverse than previously thought Every well studied free living species has parasites parasites themselves can be parasitized As a rule of thumb there is an estimated 4 parasitic species for any given host and the better a host is studied the more parasites are known to infect it Therefore parasites and other symbionts should represent a very large number of species and may far outnumber those with free living lifestyles Paradoxically free living hosts which form the bulk of our knowledge of biology may be a minority Microbial parasites typically are characterized by their small size short generation time and high rates of reproduction with simple life cycle occurring generally within a single host They are diverse and ubiquitous in the environment comprising viruses prokaryotes

and eukaryotes This Frontiers Research Topic sought to provide a broad overview but concise comprehensive well referenced and up to date state of the art for everyone involved with microbial parasites in aquatic microbial ecology The International Rule of Law Heike Krieger, Georg Nolte, Andreas Zimmermann, 2019 Introduction Historical perspectives Actor centred perspectives System oriented perspectives Justice and legitimacy **Insider Trading and Market Manipulation** Janet Austin, 2017-12-29 This book explores how the globalization of securities markets has affected market manipulation and insider trading It delves into the responses of securities regulators discussing new regulations designed to deter such misconduct as well as the ways in which detection investigation and prosecution techniques are adapting to tackle insider trading and market manipulation that crosses international boundaries
