

THE KEY

STUDY GUIDE

THE KEY

THE KEY series of student study guides is specifically designed to assist students in preparing for unit tests, final exams, and provincial examinations. Each **KEY** includes questions, answers, detailed solutions, and practice tests. The complete solutions show problem-solving methods, explain key concepts, and highlight potential errors.

TABLE OF CORRELATIONS

Castle Rock Research has designed **THE KEY** by correlating every question and its solution to British Columbia Ministry of Education's curriculum outcomes. Each review unit begins with a Table of Correlations that lists the General and Specific Outcomes from the British Columbia curriculum along with Related Questions that correspond to the outcomes. Usually the emphasis placed on outcomes, concepts, and skills within each unit varies. Students and teachers can quickly identify the relevant importance of each outcome and concept in the unit as determined by the number of related questions provided in **THE KEY**.

For grades 4, 7, 10, and 12, the weighting of each unit and concept is determined by analyzing the blueprint for the respective foundation skills assessment and provincial examinations. Based on this analysis, the Related Questions for outcomes and concepts are organized on a proportionate basis. For grades other than 4, 7, 10, and 12, the breakdown of each course is determined by consulting with experienced teachers and by reviewing curriculum guides and textbooks.

The Table of Correlations is a critical component of **THE KEY**. For students, it offers a visual cue for effectively organizing study time. For teachers, the Table of Correlations indicates the instructional focus for each content strand, serves as a curriculum checklist, and focuses on the outcomes and concepts that are the most important in the unit and the particular course of study. Students become "test wise" by becoming familiar with exam and question formats used most often in provincial examinations.
