Kisii University 2014 Intake

Godfrey K. Sang, Lois N. Ngenye

Kisii University 2014 Intake:

Modern Concepts and Practices of Climate Finance Rafay, Abdul, 2024-08-28 Climate finance is a complex and rapidly evolving field with practices and regulations varying widely across countries. This lack of standardization and understanding poses a significant challenge for stakeholders, hindering effective decision making and impeding progress toward climate goals. Additionally, the sheer breadth of topics within climate finance, from carbon pricing mechanisms to sustainable investments, can overwhelm researchers and practitioners alike, further complicating efforts to address climate change effectively. *Modern Concepts and Practices of Climate Finance* offers a comprehensive solution to these challenges. Written by distinguished experts in the field, the book thoroughly examines climate finance practices worldwide. It is a valuable resource for academics, researchers, and professionals, offering insights and lessons learned from theory and real world applications. Whether you are a researcher seeking to understand the latest trends or a practitioner looking for practical solutions, this book is an essential guide for anyone working in the field of climate finance.

The Oxford Handbook of Kenyan Politics Nic Cheeseman, Karuti Kanyinga, Gabrielle Lynch, 2020 The Oxford Handbook of Kenyan Politics provides a comprehensive and comparative overview of the Kenyan political system as well as an insightful account of Kenyan history from 1930 to the present day.

Country profile – Kenya: Gender, climate change, and nutrition linkages Mawia, Harriet, Ferguson, Nathaniel, Bryan, Elizabeth, Thomas, Timothy S., 2025-07-22 Agriculture is vital to Kenya's economy, accounting for 20% of the country's GDP in 2020. Yet the growth of the sector has slowed in recent years due to unfavorable weather conditions, leading to a reduction in crop and livestock performance. Central Bank of Kenya 2023. While employment in agriculture has been steadily declining to 32% in 2023, the sector still employs a large share of the rural population and is the main source of informal employment, rural income, and livelihoods. D'Alessandro et al 2015, ILO 2025. A majority of Kenyan farmers operate on a small scale and are solely dependent on rainfall. D'Alessandro et al 2015. However, since the 1970s, the country has experienced significant changes in rainfall patterns: average rainfall during the long season has decreased, while rainfall during other times of the year has increased, and the country has experienced more frequent climate extreme events. Kogo et al 2021. Increased climate variability has negative effects on agriculture and may exacerbate inequalities within the sector. Due to gender inequalities and gender differentiated roles in agrifood systems, men and women do not experience climate change and variability in the same ways. Balikoowa et al 2019, Lecoutere et al 2023. According to the World Economic Forum, women are more vulnerable than men to climate change due to lower education and exclusion from the political and domestic decision making processes that affect their lives. Gunawardena 2020.

Queer Objects to the Rescue George Paul Meiu, 2023-12-13 Examines forms of intimate citizenship that have emerged in relation to growing anti-homosexual violence in Kenya. Campaigns calling on police and citizens to purge their countries of homosexuality have taken hold across the world. But the homosexual threat they claim to be addressing is not always easy to identify. To make that threat visible, leaders

media and civil society groups have deployed certain objects as signifiers of queerness In Kenya for example bead necklaces plastics and even diapers have come to represent the danger posed by homosexual behavior to an essentially virile construction of national masculinity In *Queer Objects to the Rescue* George Paul Meiu explores objects that have played an important and surprising role in both state led and popular attempts to rid Kenya of various imagined threats to intimate life Meiu shows that their use in the political imaginary has been crucial to representing the homosexual body as a societal threat and as a target of outrage violence and exclusion while also crystallizing anxieties over wider political and economic instability To effectively understand and critique homophobia Meiu suggests we must take these objects seriously and recognize them as potential sources for new forms of citizenship intimacy resistance and belonging *Baraton @ 40*

Godfrey K. Sang, Lois N. Ngenye, 2017 [Between Feast and Famine](#) John Nott, 2025-03-18 Ghana's twentieth century was one of dramatic political economic and environmental change Sparked initially by the impositions of colonial rule these transformations had significant if rarely uniform repercussions for the determinants of good and bad nutrition All across this new and uneven polity food production domestic reproduction gender relations and food cultures underwent radical and rapid change This volatile national history was matched only by the scientific instability of nutritional medicine during these same years Moving between the dry Northern savannah the mineral rich and food secure Southern rainforest and the youthful ever expanding cities *Between Feast and Famine* is a comparative history of nutrition in Ghana since the end of the nineteenth century At the heart of this story is an analysis of how an uneven capitalist transformation variously affected the lives of women and children It traces the change from sporadic periods of hunger in the nineteenth and early twentieth centuries through epidemics of childhood malnutrition during the twentieth century and into emergent epidemics of diet related non communicable disease in the twenty first century Employing a novel critical approach to historical epidemiology John Nott argues that detailing the co production of science and its subjects in the past is essential for understanding and improving health in the present Praise for *Between Feast and Famine* This is a tour de force Ghana was an important site for the development of nutritional science in the colonial period as well as a site for its application It is therefore central to the history of a global nutritional science Not only has John Nott pieced together a complex history of that changing science and its application in Ghana in the twentieth century he has also provided a carefully constructed analysis of what was actually happening in terms of food supply health and nutrition in Ghana in this period Few other works manage to do both these things Megan Vaughan Professor of African History and Health Institute of Advanced Studies UCL [Selenium Research for Environment and Human Health: Perspectives, Technologies and Advancements](#) Gary Bañuelos, Zhi-Qing Lin, Dongli Liang, Xue-bin Yin, 2019-10-08 The biological importance of selenium has been firmly established by scientists for its intricate roles in various biochemical and physiological mechanisms related to animal and human health To evaluate different facets of selenium in today's complex environment and to provide a worldwide platform for multi disciplinary selenium researchers the

6th International Conference on Selenium in the Environment and Human Health was held from 27 to 30 October 2019 in Yangling Xi an China This proceedings volume brings together 103 extended abstracts prepared by contributors from academia industry and governmental agencies in 18 countries including some most recent research findings among different selenium research disciplines from cell molecular and plant biology geochemistry biofortification to environmental and health management Selenium researchers worldwide provide extraordinary new knowledge on selenium in the peer reviewed texts contained within this book
