Confessions of the Pricing Man Hermann Simon, 2015-10-20 The world's foremost expert on pricing strategy shows how this mysterious process works and how to maximize value through pricing to company and customer In all walks of life we constantly make decisions about whether something is worth our money or our time or try to convince others to part with their money or their time Price is the place where value and money meet From the global release of the latest electronic gadget to the bewildering gyrations of oil futures to markdowns at the bargain store price is the most powerful and pervasive economic force in our day to day lives and one of the least understood The recipe for successful pricing often sounds like an exotic cocktail with equal parts psychology economics strategy tools and incentives stirred up together usually with just enough math to sour the taste That leads managers to water down the drink with hunches and rules of thumb or leave out the parts with which they don't feel comfortable While this makes for a sweeter drink it often lacks the punch to have an impact on the customer or on the business It doesn't have to be that way though as Hermann Simon illustrates through dozens of stories collected over four decades in the trenches and behind the scenes A world renowned speaker on pricing and a trusted advisor to Fortune 500 executives Simon's lifelong journey has taken him from rural farmers markets to a distinguished academic career to a long second career as an entrepreneur and management consultant to companies large and small throughout the world Along the way he has learned from Nobel Prize winners and leading management gurus and helped countless managers and executives use pricing as a way to create new markets grow their businesses and gain a sustained competitive advantage He also learned some tough personal lessons about value how people perceive it and how people profit from it In this engaging and practical narrative Simon leaves nothing out of the pricing cocktail but still makes it go down smoothly and leaves you wanting to learn more and do more as a consumer or as a business person You will never look at pricing the same way again

Lotus Europa - Colin Chapman's Mid-engined Masterpiece Matthew Vale, 2022 Explores the design development and production of the Lotus Europa Lotus's first mid-engined road car It covers the Renault powered Series 1 and 2 cars the Lotus Twin Cam engined versions and the Type 47 racing models

Lemon-Aid New Cars and Trucks 2013 Phil Edmonston, 2012-12-01 Canada's automotive Dr Phil says there's never been a better time to buy a new car or truck thanks to a stronger Canadian dollar a worldwide recession driving prices downward and a more competitive Japanese auto industry that's still reeling from a series of natural disasters

Life Cycle Design &

Engineering of Lightweight Multi-Material Automotive Body Parts Thomas Vietor, 2022-10-19 This book presents the final report of the collaborative research project MultiMaK2. MultiMaK2 contributed to the development of multi material component concepts in large scale automotive production. Within the project, new methods in conceptual design of lightweight components were developed at the example of roof cross member and transmission tunnels. A concurrent Life Cycle Design Engineering approach led to identifying eco and cost efficient component alternatives. This includes evaluation tools for the concepts full life cycle. Further methods to integrate that knowledge into automotive engineering processes have been established based on principles of visual analytics. That brings forward a tight integration of data engineering models and results visualization towards an informed knowledge building across disciplines. MultiMaK2 also compiled and structured design guidelines within a knowledge management system. All methods and tools have been embedded within the Life Cycle Design Engineering Lab in the Open Hybrid LabFactory.

German Supercars Paul Mason, 2018-07-15 Germany is often considered the birthplace of the automobile so it makes sense that some of the greatest supercars are produced there. This high interest volume introduces readers to these cars and presents them with fun facts and stats regarding each vehicle. This information is presented in a visually appealing way that allows readers to compare and contrast each featured car. Colorful photographs are paired with helpful captions and labels that provide deeper insight. Various graphic elements appeal to visual learners while exciting text and subject matter engages all readers.
