Kimble,2014-02-04 Use Frankl s insights and techniques to improve life for your aging clients or parishioners Viktor Frankl a holocaust survivor who experienced firsthand the horrors of Auschwitz saw man as a being who continuously decides what he is a being who equally harbors the potential to descend to the level of an animal or to ascend to the life of a saint Man is that being who after all invented the gas chambers but at the same time he is that being who entered into those same gas chambers with his head

held high and with the Our Father or the Jewish prayer of the dying on his lips Dr Frankl's insights led him to found the therapeutic system of logotherapy which views man as a spiritual being rather than simply as a biological construct. Logotherapy has come to be called the Third Viennese School of Psychotherapy after Freud's psychoanalysis and Adler's individual psychology. He left a rich legacy of theory and insights especially relevant to the search for meaning in later life. The tenets of logotherapy provide many clues and approaches to what an ever increasing body of evidence suggests regarding the crisis of aging as a crisis of meaning. Frankl's insightful work increased man's understanding of the spiritual dimension of humanity and the dignity and worth of every person in the face of what he called the tragic triad of human existence: pain, guilt, and death. Viktor Frankl's *Contribution to Spirituality and Aging* presents an essential overview of logotherapy and explores the search for and the will to meaning in later life, the connection between logotherapy and pastoral counseling, bringing psychology and theology together to effectively counsel the aging, the role of logotherapy in the treatment of adult major depression, aspects of meaning and personhood in dementia, the search for meaning in long term care settings. Viktor Frankl's *Contribution to Spirituality and Aging* represents varying professional perspectives on the application of Frankl's logotherapy for ministry with older adults. The chapter authors represent diverse professional backgrounds in medicine, pastoral theology, the behavioral sciences, and pastoral ministry. They address issues such as death and dying, dementia and depression, and the spiritual meaning of aging, as well as Frankl's conception of the nature of humanity. Everyone interested in the connection between theology and psychology in the context of the aging will want to own this book.
