Asian American Politics:

Asian American Politics Andrew Aoki, Okiyoshi Takeda, 2008 An introduction to the study of Asian American participation in US politics It covers historical and cultural context political behaviour and attitudes interest groups and parties elected officials and public policies that have an important impact on Asian Americans

Asian Americans and Politics Gordon H. Chang, 2001 This volume is the first to take a broad ranging look at the engagement of Asian Americans with American politics Its contributors come from a variety of disciplines history political science sociology and urban studies and from the practical political realm

Asian American Political Participation Janelle S. Wong, S. Karthick Ramakrishnan, Taeku Lee, Jane Junn, Janelle Wong, 2011-10-01 Asian Americans are a small percentage of the U S population but their numbers are steadily rising from less than a million in 1960 to more than 15 million today They are also a remarkably diverse population representing several ethnicities religions and languages and they enjoy higher levels of education and income than any other U S racial group Historically socioeconomic status has been a reliable predictor of political behavior So why has this fast growing American population which is doing so well economically been so little engaged in the U S political system

Asian American Political Participation is the most comprehensive study to date of Asian American political behavior including such key measures as voting political donations community organizing and political protests The book examines why some groups participate while others do not why certain civic activities are deemed preferable to others and why Asian socioeconomic advantage has so far not led to increased political clout

Asian American Political Participation is based on data from the authors groundbreaking 2008 National Asian American Survey of more than 5 000 Chinese Indian Vietnamese Korean Filipino and Japanese Americans The book shows that the motivations for and impediments to political participation are as diverse as the Asian American population For example native born Asians have higher rates of political participation than their immigrant counterparts particularly recent adult arrivals who were socialized outside of the United States Protest activity is the exception which tends to be higher among immigrants who maintain connections abroad and who engaged in such activity in their country of origin Surprisingly factors such as living in a new immigrant destination or in a city with an Asian American elected official do not seem to motivate political behavior neither does ethnic group solidarity Instead hate crimes and racial victimization are the factors that most motivate Asian Americans to participate politically Involvement in non political activities such as civic and religious groups also bolsters political participation Even among Asian groups socioeconomic advantage does not necessarily translate into high levels of political participation Chinese Americans for example have significantly higher levels of educational attainment than Japanese Americans but Japanese Americans are far more likely to vote and make political contributions And Vietnamese Americans with the lowest levels of education and income vote and engage in protest politics more than any other group Lawmakers tend to favor the interests of groups who actively engage the political system and groups who do not participate at high

levels are likely to suffer political consequences in the future Asian American Political Participation demonstrates that understanding Asian political behavior today can have significant repercussions for Asian American political influence tomorrow

Asian Americans and Politics Gordon H. Chang, 2001 Asian Americans have quite recently emerged as an increasingly important force in American politics In 1996 more than 300 Asian and Pacific Americans were elected to federal state and local offices today more than 2 000 hold appointive positions in government Asian American voices have been prominent in policy debates over such matters as education race relations and immigration reform On a more discordant note a national controversy with racial overtones erupted in 1996 97 over alleged illegal Asian and Asian American campaign contributions and illicit foreign influences on American politics and in 1999 another controversy arose over allegations that a Chinese American physicist had passed nuclear secrets to the Chinese government Yet little scholarly attention has been devoted to understanding the engagement of Asian Americans with American politics This volume of fifteen essays is the first to take a broad ranging look at the phenomenon Its contributors are drawn from a variety of disciplines history political science sociology and urban studies and from the practical political realm They discuss such topics as the historical relationship of Asians to American politics the position of Asian Americans in America s legal and racial landscape recent Asian American voting behavior and political opinion politics and the evolving demographics of the Asian American population current national controversies involving Asian Americans conclusions drawn from regional and local case studies and the future of Asian Americans in American politics

Asian American Politics Don T. Nakanishi, James S. Lai, James Siu-Fong Lai, 2003 Asian Americans are emerging as a political force and yet their politics have not been systematically studied by either social scientists or politicians Asian American politics transcend simple questions of voting behavior and elective office going all the way back to early immigration laws and all the way forward to ethnic targeting For the first time this book brings together original sources on key topics influencing Asian American politics knit together by expert scholars who introduce each subject and place it in context with political events and the greater emerging literature Court cases legislation demographics and key pieces on topics ranging from gender to Japanese American redress to the Los Angeles riots to Wen Ho Lee round out this innovative reader on a politically active group likely to grow in number and electoral impact

Asian America Rising Diane Wong, Mark Tseng-Putterman, 2025-09-16 A collection of movement flashpoints and insurgent visions for Asian American activism In the late 1960s Asian American political activism emerged to unite disparate Asian diasporic communities living in the United States behind a radical political identity shaped by the Black Power and anti imperialist movements of their times Today Asian Americans are more diverse and at times more politically divided than ever before In media and electoral politics Asian Americans are celebrated as the fastest growing racial demographic in the United States and claimed as evidence of racial progress Yet the rise of Asian America rarely centers the coordinated forms of grassroots political organizing that Asian Americans have used to shape their place in society In *Asian America Rising*

Diane Wong and Mark Tseng Putterman bring together an interdisciplinary group of established and emerging scholars of Asian American activism and politics community organizers artists archivists and others to highlight the diversity of twenty first century Asian American political movements across a number of critical areas Based on deep collaborations between scholars and frontline organizers contributors like Diane Fujino Vichet Chhuon Lakshmi Sridaran and Kim Compoc examine different facets of the Asian American political experience including the impact of immigrant detention and deportation the emergence of conservative Chinese American opposition to affirmative action in higher education abolitionist perspectives on the Stop Asian Hate movement and transnational resistance to U S economic and military dominance in Hawai i the Philippines and Okinawa Ultimately Wong and Tseng Putterman show important shifts and emergent directions for Asian American politics in the twenty first century Focusing on grassroots mobilization and bold interventions beyond the formal political sphere they shine a light on the diversity and power of Asian American political activism cultural work community building mutual aid and multiracial issue based organizing

Asian Pacific American Politics Andrew Aoki, Pei-te Lien, 2020-06-29 Asian Pacific American Politics presents some of the most recent research on

Asian American politics including both quantitative and qualitative examinations of the role of Asian and Pacific Islander Americans in some of today's major political controversies. In the highly polarized politics of the United States in the early 21st century, non-Black racial minorities such as Asian Americans and Pacific Islander Americans will increasingly find themselves swept into the epicenter of many of the divisive controversies. This timely volume presents the latest scholarly research on some of these issues, examining questions such as Asian American support for Black Lives Matter, responses to racially charged attacks, and the differences in the political socialization, politicization, and community-based activism within and across sectors of the Asian American population. In addition to examining political identity, voting participation, political mobilization, transnational politics, and partisan formation, the volume also investigates important but little-discussed issues such as the Native Hawaiian sovereignty movement, political incorporation of Filipino Americans, and the struggle to establish comfort women memorials in the United States. Contributors also examine through dialogues how Asian Americans fit into the larger world of American racial politics, the extent to which they are likely to build coalitions with other communities of color, and the boundaries and contours of Asian American political theory.

Exploring and Expanding the Political World
Pioneered by Don T. Nakanishi, *Asian Pacific American Politics* will be of great interest to scholars of race and ethnicity in American politics, immigration and minority incorporation, ethnic identity politics, and political participation and democratic inclusion of Asians. The chapters were originally published in *Politics, Groups, and Identities*.

East Asian Americans and Political Participation
Tsung Chi, 2005-04-25 This expert handbook explores the various means of political participation of East Asian Americans in the United States. Filling a gap in the literature on American minority politics, *East Asian Americans and Political Participation* offers the first systematic, thorough coverage of the impact of Chinese American, Korean American, and Japanese American individuals and groups on U.S. political process. Focusing on the post-World War II era when rapidly growing East Asian American communities became more politically involved, the book explores the full range of formal and informal political actions, including protest politics, social movements, and interest groups, electoral politics, and political office holding at every level. These general discussions are enhanced with evocative case studies on such important topics as Asian American participation in the civil rights movement, the campaign after the murder of Vincent Chin, the Redress movement, the Korean campaign following the Los Angeles riots, the promotion of the motherland, and more.
