Asian Firms History Institutions And Management:

Asian Firms Frank B. Tipton, 2008-01-01 This book appeals to a wide range of readers who might be interested in the historical development of Asian economies evolutionary trajectories of Asian firms institutional change and dynamics in Asia and management and organization of Asian firms For readers who are interested in specific Asian economies this book will also be useful because it provides a comparative perspective that examines different Asian economies and their forms in a single work Henry Wai chung Yeung National University of Singapore Tipton provides a fresh approach to understand how Asian firms differ from their western counterparts Paul Beamish University of Western Ontario Canada Frank Tipton s book is a comparative study of the management structures of Asian firms As Asian economies continue to expand the management of Asian firms becomes ever more important whether they are suppliers customers partners or rivals As the author argues Asian firms are very different from their Western counterparts and these differences reflect the variations in national history and institutions within which they operate Asian Firms compares Chinese Japanese Korean and Southeast Asian management structures and sets them in their historical and institutional context Based on a wide range of interviews and material drawn from a variety of disciplines the argument is framed by the sayings of the legendary strategist Sun Tzu and the renowned businessman Tao Zhu gong A series of case studies illustrate the strengths and weaknesses of the approaches of managers in each of the national traditions Asian Firms asks in each case what Western managers can learn from Asian firms and what Asian firms can learn from each other With a multidisciplinary approach and emphasis on practical lessons and tools the book will be of great use and interest for managers It will also appeal to students and researchers of international business postgraduate management students in courses with a comparative or Asian emphasis as well as academics and researchers of Asian studies

The Oxford Handbook of Asian Business Systems Michael A. Witt, Gordon Redding, 2014 The Handbook explores institutional variations across the political economies of different societies within Asia It includes empirical analysis of 13 major Asian business systems between India and Japan and examines these in a comparative historical and theoretical context Political Economy of Malaysia's Industrial Policy Firdausi Suffian, 2021-02-22 This book examines the national automotive policy in Malaysia to help readers gain an understanding of the country s industrial policy making processes Addressing a gap in analysis of the political economy of the national automotive policy the research presented combines the new institutional theory and the developmental state approach to provide new insights into elite policymakers measures to shield domestic automotive enterprises from pro market reforms The formation of the national car project marks a turning point for Malaysia s industrial development as a country which it envisions will lead to it becoming a major player in the global automotive market However the domestic institutional factors embedded in ethno economic interests and patronage constrain national car makers limiting their potential to grow and instead causing a slowdown in the industry Allowing readers to understand the background to Malaysia s heavy industrialisation programme and the birth of its

national car projects this book critically discusses the significance of institutional context in policy outcomes and highlights how institutions and policies have impact growth or decline It is a valuable resource relevant to analysts researchers and students who are interested in the political economy of the national industrial policy and automotive industry in Malaysia and beyond Global Production, National Institutions, and Skill Formation Merve Sancak,2022 Many middle income countries

face the danger of remaining in the middle income trap unless they shift to higher value added activities that require advanced skills This book examines the skill and training systems of auto parts producers in Mexico and Turkey and the implications of skilling practices for these nations development prospects **Governance in Pacific Asia** Peter

Making Environmental Markets Work Tabitha M. Benney, 2014-11-27 Perhaps the most defining characteristic of the global economy today is the rise of emerging market economies EMEs Many states have experienced rapid economic growth over the past two decades that has led to an increasing share of global wealth Such dramatic changes are highly relevant because they raise important issues about the distribution of global monetary and fiscal power As the EMEs have gained importance in the global economy their influence and significance have grown across a wide range of policy domains One particularly relevant example is the increasingly

critical role of EMEs in addressing climate change Contrary to the popular belief that the level of development determines a country's ability to produce positive environmental outcomes this book shows that the variation in environmental outcomes among the EMEs is due to differences in the types of economic institutions prevalent in their economies Since EMEs differ dramatically on a number of variables examining national variations in economic institutions helps explain why international climate policy has been more successful in some countries than in others To assess how variations in capitalism may influence important outcomes this book explores a representative sample of 31 EMEs and employs a mixed method research design that incorporates both conventional regression analysis and Qualitative Comparative Analysis QCA to explain these outcomes The analysis shows that although liberal market economies were expected to perform better than other types of capitalism their performance fell below expectations On the contrary economic institutions related to coordinated types of capitalism like those found in China and Brazil have led to greater Clean Development Mechanism CDM market participation Theoretically informed this book employs innovative ways of understanding a broad set of increasingly important but understudied states in an effort to highlight the interactions found in complex socio political and ecological systems With the growing importance of the EMEs a better understanding of how to design market based policies with them in mind will be required if future efforts across a range of policy issues are to be meaningful and effective

Competition Law, Regulation and SMEs in the Asia-Pacific Michael T Schaper, 2017-03-09 Small and medium sized enterprises SMEs account for more than 90 per cent of all businesses in the Asia Pacific region an area which is rapidly updating its competition laws and regulations to encourage greater entrepreneurship and open dynamic economies Yet SMEs are almost invisible when those competition policies and laws are developed and enforced SMEs are often quite different businesses than large multinational corporations but their nature significance and characteristics are often overlooked This book seeks to rectify the relative neglect in research and policy discussions on the role of the SME sector in competition policy and law Drawing on contributions from a wide range of competition regulators lawyers academics consultants and advisers to the SME sector it addresses such important issues as perceptions and views of small businesses about competition law regulator engagement and education of the SME sector the link between competition law and economic growth franchising SMEs and competition law issues in enforcing competition law against SMEs the role of Chinese family firms trade professional and industry associations country case studies from Vietnam Singapore Indonesia Malaysia China South Korea Hong Kong SAR Japan and the Pacific Islands
