Assessment Of Development Results Jamaica:

Assessment of Development Results United Nations Development Programme. Evaluation Office,2011 **Development Results in Middle-income Countries** ,2007-01-01 The World Bank s support in fostering growth and reducing poverty has contributed to the considerable economic success of MIC countries But to produce greater development benefits it has to become more agile and draw upon MICs own capacity much more systematically connecting such capabilities to help low income countries and to tackle global challenges The Bank s work has to more clearly demonstrate best practice to deliver impact beyond its limited direct role **GEF Country Portfolio Study Jamaica (1994-2010)** , *Evaluation of UNDP Contribution to Strengthening Local Governance* United Nations Development Programme. Evaluation Office,2010 Strengthening local governance with a view to promoting democratic representation establishing entitlements and improving the provision of goods and services can play a critical role in human development The evaluation concludes that UNDP has not fully capitalized on its comparative advantage in strengthening local governance and suggests that in part this relates to the absence within UNDP of a common understanding of and sufficient corporate guidance on strengthening local governance While there are numerous examples of support to local governance that have been innovative and effective other initiatives have had limited impact and some have tended to be ad hoc and isolated rather than systematic and strategic For UNDP to play a more effective role in strengthening local governance reforms the evaluation recommends that it should more explicitly and effectively mainstream local governance into all programmatic focus areas by developing a coherent framework that is firmly grounded in the practice of human development The evaluation also recommends that UNDP should strengthen its partnerships with its associated funds and programmes in order to enhance the effectiveness of its initiatives in local governance Publishers website Evaluation of UNDP Contribution to Strengthening National Capacities United Nations Development Programme. Evaluation Office,2010 As countries take ownership of the development agenda enhancing sustained abilities for countries to do things for themselves takes centre stage as a critical element of development effectiveness UNDP s support to this nationally driven process plays a critical role in enhancing its leadership role in capacity development For UNDP capacity development is the how of what it does and UNDP has put in extraordinary resources in its conceptualization and activities UNDP has received international recognition for its lead role in the area The model applied by UNDP is however largely a supply driven model which is not bolstered by adequate organizational learning and incentive systems The evaluation recommends that UNDP continue to enhance its lead role at the international level while developing and applying a model which is nationally driven and seek to develop increased conceptual and managerial integration within the organization consistent with the objectives of the strategic plan Of particular importance is rigor in engaging governments in all contexts in addressing the longer term requirements of capacity development Publisher s website

Assessment of Development Results, 2009 The Assessment of Development Results ADR covered the sub regional programme of the nine member countries of the Organisation of Eastern Caribbean States OECS and Barbados over the ongoing 2005-2009 and previous 2001-2004 programming cycles The ADR notes that UNDP is working in a challenging and multifaceted development context where relatively high levels of gross domestic product per capita and political stability occur side by side with considerable poverty underemployment gender and social inequities institutional capacity weaknesses and vulnerability to risk including extreme weather events The publication concluded that although UNDP has undertaken a subregional programme with a strong profile and reputation it has achieved only moderate progress towards longer term outcomes It also found that the UNDP subregional programme had many commendable features and is respected by stakeholders and partners due to its consistent focus on improving human and social development in the Eastern Caribbean

health projects World Health Organization, 2018-11-07 In many countries initiatives that aim to improve adolescent sexual and reproductive health ASRH implement projects without well thought out plans for evaluation As a result baselines and endlines may not exist there is no comparison of the project area to a non intervention area and implementation monitoring data may not provide much information on quality and other less easily counted impacts or results of implementation This lack of evaluation limits the ability to demonstrate what was achieved what approaches worked and what approaches did not work thus losing out on critical learnings Many ASRH projects encounter and address policy and programmatic challenges and in doing so learn valuable lessons Since careful documentation and rigorous evaluation are the exception rather than the norm though the lessons from these efforts are not extracted and placed in the public arena Post project evaluations thus have a role to complement prospective studies for new or follow on projects However there is a lack of guidance and literature on post project evaluations and that technical guidance from funding agencies for conducting post project evaluation is rare To begin to bridge this gap more formally the World Health Organization WHO developed this practical guide for conducting post project evaluations of ASRH projects State, Foreign Operations, and Related Programs Appropriations for 2012
