Evan H. Offstein, 2011-07-12 The traditional workforce using the model of the 9 to 5 employee is a thing of the past. Companies and their employees are utilizing flex time and work from home arrangements. Modern telework solutions counter problems of escalating real estate costs, traffic and commuting, and employee turnover, and promote carbon footprint reduction and higher employee productivity and satisfaction. Telework has taken center stage as a means to generating productive business. Making Telework Work is a call to action helping organizations gain competitive advantage in a technology rich world. Leaders of teleworkers must grasp the big picture while still accounting for the details. To do so means developing capabilities that mark extraordinary leadership, not just run of the mill management.
