decide on national SDG strategies and the need for locally disaggregated data systems on the one hand and effective SDG localization strategies on the other hand It is this aspect which the present publication explores in greater detail by using country examples and conceptual analyses The text will be of interest to policymakers scholars students and practitioners in public policy and public administration decentralization and sustainable development with a focus on the Asia and Pacific region The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivative License CC BY NC ND 3 0 IGO
