The Sacred Book of the Werewolf Viktor Pelevin, 2009-06-04 High class Moscow hooker A Huli is foxy in more ways than one And when a client goes inexplicably and fatally berserk at the sight of her in his luxury suite she has to employ all of her cunning to escape But it's not until she places an ad on the internet that trouble really begins to kick off as the journey she takes catapults her into a world of perverts former KGB agents oil tycoons and amorous werewolves

Companion to Victor Pelevin Sofya Khagi, 2022-01-18 Companion to Victor Pelevin a collaborative undertaking by a group of emerging Russianist scholars focuses on the work of one of the most important and hotly debated post Soviet writers It provides a valuable resource to scholars teachers and students including how best to teach Pelevin to university level students and which critical debates invite further investigation The contributors offer new readings of Pelevin texts that cover a broad time span and pay due attention to the philosophical and aesthetic complexities of Pelevin's oeuvre in its development from the early post Soviet years to the second decade of the present millennium Examining all of Pelevin's major works and all Peleviniana currently available in English the Companion aims to prompt further inquiry into this author's intellectually stimulating and socially prescient work

Putin's Dark Ages Dina Khapaeva, 2023-10-26 Two decades before the war against Ukraine a special operation was launched against Russian historical memory aggressively reshaping the nation's understanding of its history and identity The Kremlin's militarization of Russia through World War II propaganda is well documented but the glorification of Russian medieval society and its warlords as a source of support for Putinism has yet to be explored This book offers the first comparison of Putin's political neomedievalism and re Stalinization and introduces the concept of mobmemory to the study of right wing populism It argues that the celebration of the oprichnina Ivan the Terrible's regime of state terror 1565 1572 has been fused with the rehabilitation of Stalinism to reconstruct the Russian Empire The post Soviet case suggests that the global obsession with the Middle Ages is not purely an aesthetic movement but a potential weapon against democracy The book is intended for students scholars and non specialists interested in understanding Russia's anti modern politics and the Russians support for the terror unleashed against Ukraine

Fear Before the Fall Alexander Herbert, 2023-01-27 Alienation generational tensions rampant nationalism and the pervasiveness of atomic danger are all topics that haunted late Soviet citizens and those fears are reflected in the films

meant to represent their horror genre In the late 1970s and throughout the 1980s production of horror movies from independent filmmakers and Hollywood skyrocketed It was a time of intense Cold War conflict and a resurgence of conservative ideals It s not difficult to imagine that the ascent of horror occurred in conjunction with an increasingly scary and alienated world and horror reflected those freights in the form of nuclear holocausts toxic waste pollution alien clown invaders and undead houseguests Everyone was at risk teenagers especially because their present and future remained most uncertain If we can agree that such feelings underpinned American viewers in the age of Reagan and neo liberalism then what about late socialism How did film makers depict Soviet society s fears A Sacred Book of Werewolf Viktor Pelvin,2010 **Eurasia's Regional Powers Compared - China, India, Russia** Shinichiro Tabata,2014-12-17 Taking a long view and a wide perspective this book by Japan s leading scholars on Asia and Eurasia provides a comprehensive and systematic comparison of the three greatest powers in the region and assesses how far the recent growth trajectories of these countries are sustainable in the long run The book demonstrates the huge impact on the region of these countries It examines the population resource and economic basis for the countries rise considers political social and cultural factors and sets recent developments in a long historical context Throughout the different development paths of the three countries are compared and contrasted and the new models for the future of the world order which they represent are analysed New Statesman ,2008 Short Stories in Russian Brian James Baer,2017-08-01 A dual language edition of Russian stories many appearing in English for the first time This new volume of ten short stories offers students at all levels the opportunity to enjoy a wide range of contemporary literature without constantly having to refer to a dictionary The stories many of which appear here in English for the first time are by well established writers like Vladimir Sorokin Ludmila Ulitskaya Sergey Lukyanenko and Ludmilla Petrushevskaya as well as emerging voices like Alexander Ilichevsky Evgeny Grishkovets and Yulya Kisina Drawn from the last two decades of the Soviet Union and the two decades following its collapse they chart a period of dramatic social change often using metaphors of the body and represent a range of literary styles that highlight the dynamism of contemporary Russian fiction Complete with notes the stories make excellent reading in either language Note For each short story in this eBook edition the full English translation is followed by its original Russian text **Gothic Topographies** Matti Savolainen,2016-04-22 In demonstrating the global reach of Gothic literatures this collection takes up the influence of the Gothic mode in literatures that may be geographically remote from one another but still share related issues of minor languages nation building place and race Suggesting that there is a parallel between certain motifs and themes found in the Gothic of the North Scandinavia Northern Europe and Canada and South Australia South Africa and the US South the essays explore the transgressions and confusion of borders and limits whether they be linguistic literary generic class based gendered or sexual The volume includes essays on a wide diversity of authors and topics Jan Potocki Gustav Meyrink William Godwin Alan Hollinghurst Marlene van Niekerk John Richardson antislavery discourse and the

Gothic imagination the Australian aboriginal Gothic vampires of Post Soviet Gothic society Danish Swedish and Finnish fiction and film and the Canadian female Gothic and the death drive What distinguishes this book from other collections on the Gothic is the coverage of themes and literatures that are either lacking in the mainstream research on the Gothic or are referred to only briefly in other book length studies Experts in the Gothic and those new to the field will appreciate the book's commitment to situating Gothic sensibilities in an international context *Nightmare* Dina Khapaeva, 2012-11-13 An analysis of the novels of Maturin Gogol Dostoevsky Mann Lovecraft and Pelevin through the prism of their interest in investigating the nature of the nightmare reveals the unstudied features of the nightmare as a mental state and traces the mosaic of coincidences leading from literary experiments to today's culture of nightmare consumption [Book Review Index - 2009 Cumulation](#) Dana Ferguson, 2009-08 Book Review Index provides quick access to reviews of books periodicals books on tape and electronic media representing a wide range of popular academic and professional interests The up to date coverage wide scope and inclusion of citations for both newly published and older materials make Book Review Index an exceptionally useful reference tool More than 600 publications are indexed including journals and national general interest publications and newspapers Book Review Index is available in a three issue subscription covering the current year or as an annual cumulation covering the past year *Geek Monthly*, 2009 *The Celebration of Death in Contemporary Culture* Dina Khapaeva, 2017-03-06 Popular culture has reimagined death as entertainment and monsters as heroes reflecting a profound contempt for the human race *Contemporary World Fiction* Juris Dilevko, Keren Dali, Glenda Garbutt, 2011-03-17 This much needed guide to translated literature offers readers the opportunity to hear from learn about and perhaps better understand our shrinking world from the perspective of insiders from many cultures and traditions In a globalized world knowledge about non North American societies and cultures is a must *Contemporary World Fiction A Guide to Literature in Translation* provides an overview of the tremendous range and scope of translated world fiction available in English In so doing it will help readers get a sense of the vast world beyond North America that is conveyed by fiction titles from dozens of countries and language traditions Within the guide approximately 1 000 contemporary non English language fiction titles are fully annotated and thousands of others are listed Organization is primarily by language as language often reflects cultural cohesion better than national borders or geographies but also by country and culture In addition to contemporary titles each chapter features a brief overview of earlier translated fiction from the group The guide also provides in depth bibliographic essays for each chapter that will enable librarians and library users to further explore the literature of numerous languages and cultural traditions [A History of European Literature](#) Walter Cohen, 2017 Walter Cohen argues that the history of European literature and each of its standard periods can be illuminated by comparative consideration of the different literary languages within Europe and by the ties of European literature to world literature World literature is marked by recurrent systematic features outcomes of the way that language and literature are at once the products of major change and its agents

Cohen tracks these features from ancient times to the present distinguishing five main overlapping stages Within that framework he shows that European literature s ongoing internal and external relationships are most visible at the level of form rather than of thematic statement or mimetic representation European literature emerges from world literature before the birth of Europe during antiquity whose Classical languages are the heirs to the complex heritage of Afro Eurasia This legacy is later transmitted by Latin to the various vernaculars The uniqueness of the process lies in the gradual displacement of the learned language by the vernacular long dominated by Romance literatures That development subsequently informs the second crucial differentiating dimension of European literature the multicontinental expansion of its languages and characteristic genres especially the novel beginning in the Renaissance This expansion ultimately results in the reintegration of European literature into world literature and thus in the creation of today s global literary system The distinctiveness of European literature is to be found in these interrelated trajectories *Novel: An Alternative History* Steven
