Preventing Eating-Related and

Weight-Related Disorders Gail L. McVey, Michael P. Levine, Niva Piran, H. Bruce Ferguson, 2013-01-24 This book presents a collection of writings by expert researchers from Canada the United States and Australia who are committed to finding common cause and common ground in the prevention of eating disorders and obesity The ten chapters in this book seek to create a new public health approach to the prevention of weight related disorders one that counters the confusion and frustration from public policies messages and programs that recipients of prevention efforts often experience The first section looks at prevention from a public health perspective and the second section highlights theories from risk and resilience research that can inform the prevention of weight related disorders The contributions are varied in their theories and models but woven throughout is the theme of collaboration in changing public institutions and social systems that promotes universal prevention and fosters mental health and resilience Unique methods of linking systems and fostering partnerships across sectors and disciplines are highlighted and readers are exposed to innovative ideas of how to move the field of prevention science forward to reduce the onset of negative body image unhealthy weight management eating disorders and disordered eating Preventing Eating Related and Weight Related Disorders is the second in a series of titles from The Community Health Systems Resource Group at The Hospital for Sick Children This series will educate researchers policy makers students practitioners and interested stakeholders on such topics as early intervention in psychosis aggressive behaviour problems eating related disorders and marginalized youth in educational contexts Encyclopedia of Adolescence Roger J.R. Levesque, 2011-09-05 The Encyclopedia of Adolescence breaks new ground as an important central resource for the study of adolescence Comprehensive in breadth and textbook in depth the Encyclopedia of Adolescence with entries presented in easy to access A to Z format serves as a reference repository of knowledge in the field as well as a frequently updated conduit of new knowledge long before such information trickles down from research to standard textbooks By making full use of Springer's print and online flexibility the Encyclopedia is at the forefront of efforts to advance the field by pushing and creating new boundaries and areas of study that further our understanding of adolescents and their place in society Substantively the Encyclopedia draws from four major areas of research relating to adolescence The first broad area includes research relating to Self Identity and Development in Adolescence This area covers research relating to identity from early adolescence through emerging adulthood basic aspects of development e.g biological cognitive social and foundational developmental theories In addition this area focuses on various types of identity gender sexual civic moral political racial spiritual religious and so forth The second broad area centers on Adolescents Social and Personal Relationships This area of research examines the nature and influence of a variety of important relationships including family peer friends sexual and romantic as well as significant nonparental adults The third area examines Adolescents in Social Institutions This area of research centers on the influence and nature of important institutions that serve as the socializing

contexts for adolescents These major institutions include schools religious groups justice systems medical fields cultural contexts media legal systems economic structures and youth organizations Adolescent Mental Health constitutes the last major area of research This broad area of research focuses on the wide variety of human thoughts actions and behaviors relating to mental health from psychopathology to thriving Major topic examples include deviance violence crime pathology DSM normalcy risk victimization disabilities flow and positive youth development *Women's Lives* Claire A. Etaugh, Judith S. Bridges, 2015-07-14 *Women's Lives* A Psychological Exploration 3rd Edition draws on a wealth of the literature to present a rich range of experiences and issues of relevance to girls and women This text offers the unique combination of a chronological approach to gender that is embedded within topical chapters Cutting edge and comprehensive each chapter integrates current material on women differing in age ethnicity social class nationality sexual orientation and ableness The third edition reflects substantial changes in the field while maintaining its empirical focus through engaging writing student activities and critical thinking exercises With over 2 100 new references emphasizing the latest research and theories the authors continue to pique interests in psychology of women *Body Image* Marlene V. Kindes, 2006 Western culture has increasingly valued physical appearance and in particular slenderness in the last 20 years Unrealistic targets of thinness and excessive weight loss have led to eating disorders the idea of obligatory exercise and other mental health problems The concept of dissatisfaction with one's body image is driven home by images of ultra thin models appearing in newspapers magazines and television This book brings together leading international research in this alarming and growing field **The Active Female** Jacalyn J. McComb, Reid Norman, Mimi Zumwalt, 2007-12-26 This book investigates the growing and ever changing health issues for girls and women who lead an active lifestyle and participate in sports and exercise Easy to read the volume provides an educational foundation for understanding how disordered eating amenorrhea and osteoporosis can be interrelated while also looking at image disorders and reproductive health It contains thorough analysis of common prevention and management techniques and provides useful links to resources on the internet for additional screening tools

Body Image Sarah Grogan, 2016-09-29 *Body Image* provides a comprehensive summary of research on body image in men women and children drawing together research findings from the fields of psychology sociology clothing and gender studies This third edition has been thoroughly revised and updated to reflect the significant increase in research on body image since the previous edition as well as the significant cultural changes in how men's and women's bodies are viewed Data are also included from interviews and focus groups with men women and children who have spoken about their experiences of body image and body dissatisfaction producing a comprehensive understanding of how men and women construct and understand their bodies in the twenty first century The only sole authored text to provide a comprehensive view of body image research focusing on men women and children *Body Image* will be invaluable to students and researchers as well as practitioners with an interest in body image and how to reduce body dissatisfaction Leading Psychoeducational

Groups for Children and Adolescents Janice L. DeLucia-Waack, 2006-05-03 This book provides readers with direction on how to organize psychoeducational groups while also helping them enhance skills for effectively leading such groups all in one comprehensive volume Offering an applied pragmatic approach author Janice L DeLucia Waack uniquely integrates research and practice to suggest valuable leadership strategies while addressing special issues such as children of divorce anger management bullying behaviors and much more **Body Work** Sylvia K. Blood, 2004-03 Reassessing Experimental Psychology from a critical perspective Sylvia Blood demonstrates how its research into Body Image can be misused and prone to misuse
