Body Remember: A Memoir

Fries, Kenny (2003)

Ann Arbor: University of Wisconsin Press.

"I am the freak in the centre of all three rings, as well as the star of the sideshow, in a travelling circus that should have closed down a very long time ago (p175)". This sentence succinctly describes Kenny Fries' view of himself in relation to the world in which he lives and yet is not truly part of. He dreams of a world where "connotations of disability are not pejorative" and labels of disability become the names of constellations. He is uniquely qualified to write on the social construct of disability as in the lotto of life he drew three aces, disabled, Jewish and homosexual; in a world that marginalises minorities he is truly looking from the outside in. However in the *Body Remember* he instead looks at the issue of disability from a more personal viewpoint, his own experience.

Body Remember is a memoir. It is an extension of a true autobiography because Fries does not just relate his story instead he explores the events in his life that are lodged in his memory and seeks to explain why those moments are significant while others are not. A memoir generally centres on a conflict or a quest and attempts to resolve it. Fries' quest is one of understanding, how his love for his childhood doctor relates to the pain his body remembers, how his love for his family relates to the abuse he received from his father and brother and finally how his concept of self equates to how others perceive him.

Fries' story differs from many other autobiographical stories. Fries is not looking for a way to "be normal" he is instead looking for a sense of belonging within himself. A "home" where he feels connected to himself, his disability, his sexuality, his religion and his past. "I think home is not necessarily land, land not necessarily home. To have an identity one must have a home", and this ultimately is the conflict that exists at the heart of the story. "Who am I" and "Why am I the way that I am". The role of antagonist is played by Fries' own failure to find a home and therefore denying him an identity.

Fries' journey is hard to travel in some parts, but his childhood recollections are truly memorable taking the reader into the spontaneous, accepting mind of a child whose ambivalence at the base of every relationship follows him into adulthood. It is important to remember that a memoir struggles with the truth as few people can truly remember clear details of their life. This is even more apt in Fries' case as he admits that he has very little memory of his childhood and is forced to rely on obscure medical files that explain nothing
