Between Soft and Hard Law Frans Pennings, 2006-01-01 Whether or not we ever attain universal social justice there can be little doubt that the international community has set meaningful standards and that significant progress

has been made over the last century The leading standard setter throughout this period has been the International Labour Organisation ILO with its nearly 200 conventions on labour law and social security law Yet it is often asked how effective are these standards Do any ILO Member States actually offer to quote the Philadelphia Declaration of the ILO Conference of 1944 social security measures to provide a basic income to all in need of such protection and comprehensive medical care Perhaps not but some come close thanks to the application of ILO standards This much needed volume is the first detailed analysis of the legal meaning of ILO conventions within the ratifying Member States In unprecedented depth a panel of distinguished authorities explores the role of ILO conventions in preparing and amending national legislation in parliamentary debate and in national case law For comparative purposes five countries the United Kingdom France Germany Spain and the Netherlands are studied in depth Among the points of discussion that arise are the following the social dumping that results from distortion of competition the ILO s supervision procedures protection of international migrant workers temporary exceptions for developing countries and the possibility of modernising texts of older conventions A useful annex reprints the texts of the ILO Constitution and the so called up to date conventions pertaining to social security which are currently being promoted for ratification by the ILO At a time when the very meaning of such terms as work and social security is being challenged by prevailing economic and political forces this full scale reappraisal of a body of international law that although soft has had a pronounced positive effect on the progress of social justice is to be welcomed It is well worth the close attention of government policymakers and regulators company lawyers and interested academics everywhere

Legal aspects of abandoned, lost or otherwise discarded fishing gear Hodgson, S., 2022-01-05 The growing quantity of plastic waste in the marine environment including abandoned lost or otherwise discarded fishing gear ALDFG is a global problem A particular feature of ALDFG is the potential of some gears to carry on fishing for many months or even years The study examines legal responses to ALDFG in the context of marine fisheries After discussing the nature of the problem of ALDFG and some of the reasons why fishing gear is abandoned lost or otherwise discarded the study examines the response of the international community to ALDFG A key finding is that ALDFG is at the same time a fishing issue a navigation problem of vessel source pollution and an environmental problem with the resulting involvement of FAO IMO and UNEP as well as the UN General Assembly After examining potential legal approaches to the problem the study then describes the basic legal and institutional arrangements in four case study jurisdictions that have adopted legal measures to address ALDFG namely Australia the European Union and its Member States Norway and the USA finding once again the tripartite responsibility of fisheries navigation and environment ministries agencies The inter sectoral nature of ALDFG suggests the need for a collaborative and coordinated approach While not all of the case study jurisdictions make use of all ten of the individual legal measures identified the case studies also clearly show that ALDFG is a problem that is susceptible to a legal response at the national or regional level including through the use of extended producer responsibility schemes

various reporting requirements and gear standards Legal tools to address the problem of ALDFG clearly exist The extent to which some or all of them are necessary or appropriate in a given context at national regional or global level is not ultimately a legal question but a political one
