Shades of Blue F lix Krawatzek, Friedemann Pestel, Rieke Trimcev, Gregor Feindt, 2025-02-15 In Shades of Blue

Felix Krawatzek, Friedemann Peßel, Rieke Trimpe and Gregor Feindt investigate the political project of Europe as it oscillates between the extremes of expectations of an ever wider integration and fear of disintegration. The authors interrogate and chart the space between these polarities by tracking the many competing conceptions of Europe in European public discourse and relate these meanings to national, regional and ideological divisions. Based on qualitative discourse analyses of newspaper articles from six European Union member states between 2004 and 2023, *Shades of Blue* shifts how we think about Europe's integration and disintegration and offers a new perspective on Europeanization. With twelve debates chronicling Europe's past and discussing the implications for Europe's future, these authors uncover how politicians, intellectuals and journalists negotiate European senses of belonging. *Shades of Blue* moves beyond the binaries of hope and despair to uncover a more nuanced picture of Europe.

The Social and Political Psychology of Violent Radicalism Serge Guimond, Armelle Nugier, 2023-11-27 This book provides a unique perspective on the perpetrators and victims of political violence using original evidence from the deadly attacks perpetrated in Paris in 2015. Much of the current literature focuses on the perpetrators of such violence. This volume however offers a deeper analysis by focusing not only on the terrorists themselves but on understanding the reactions of the general population affected by such lethal acts. It provides a more detailed view of the opponents of terrorism namely us and explains how our own reactions can increase or decrease the potential for political violence. Part I introduces the most relevant theories within social psychology and political psychology that are used to understand terrorism. Part II examines empirical evidence from a French context and Part III discusses policy implications with the prevention of political violence as a long term goal. Finally the volume offers a blueprint for a more appropriate conceptualization of terrorism as arising out of intergroup conflict suggesting ways to build a resilient society. This book will be of interest to researchers, teachers and students across social psychology, sociology, political psychology and political science.

Criminal Law and Precrime Richard Jochelson, James Gacek, Lauren Menzie, Kirsten Kramar, Mark Doerksen, 2017-07-06 In *Minority Report*, Precrime imprisons people for crimes they would have committed had they not been prevented. With Philip K. Dick as inspiration, the authors posit that developments in Canadian law indicate a trend toward imposing punishments at earlier stages of the prosecutorial process. As risk management logics shift to precautionary ones, the law has responded by developing criminal regulation techniques in light of the war on terror, the need to ensure security, the proliferation of digital

data and the design of drones social networking and cloud storage to gather data The book is a provocative read for scholars and students in criminal law policing and surveillance

Going There Richard J. Powell, 2020-10-02 A kaleidoscopic survey of black satire in 20th and 21st century American art In this groundbreaking study Richard J Powell investigates the visual forms of satire produced by black artists in 20th and 21st century America Underscoring the historical use of visual satire as antiracist dissent and introspective critique Powell argues that it has a distinctly African American lineage Taking on some of the most controversial works of the past century in all their complexity humor and provocation Powell raises important questions about the social power of art Expansive in both historical reach and breadth of media presented Going There interweaves discussions of such works as the midcentury cartoons of Ollie Harrington the installations of Kara Walker the paintings of Robert Colescott and the movies of Spike Lee Other artists featured in the book include David Hammons

Arthur Jafa Beverly McIver Howardena Pindell Betye Saar and Carrie Mae Weems Thoroughly researched and rich in context Going There is essential reading in the history of satire racial politics and contemporary art **Liberating Speech—Today** Raymond Kemp Anderson, 2015-10-14 In the wake of the furious demonstrations and debates evoked by terrorist attacks in Paris and elsewhere Dr Anderson's pithy essays unfold respectful moderating responses that take seriously the cultural and religious differences that breed resentment between peoples and convulse the media Written from a Reformed theological perspective his reflections unfold the dynamics of free and faithful self expression that promise happier human scaled interpersonal international and inter faith relations Whether your communications are across the back fence on the political stump from the pulpit writer's desk or TV stage whether you are a teacher corporate agent public servant or soldier you will find yourself reinforced and challenged to deepen the very roots of your calling and speak out in the fullest freedom *Spy Watching* Loch K. Johnson, 2018 All democracies have had to contend with the challenge of tolerating hidden spy services within otherwise relatively transparent governments Democracies pride themselves on privacy and liberty but intelligence organizations have secret budgets gather information surreptitiously around the world and plan covert action against foreign regimes Sometimes they have even targeted the very citizens they were established to protect as with the COINTELPRO operations in the 1960s and 1970s carried out by the Federal Bureau of Investigation FBI against civil rights and antiwar activists In this sense democracy and intelligence have always been a poor match Yet Americans live in an uncertain and threatening world filled with nuclear warheads chemical and biological weapons and terrorists intent on destruction Without an intelligence apparatus scanning the globe to alert the United States to these threats the planet would be an even more perilous place In *Spy Watching* Loch K Johnson explores the United States travails in its efforts to maintain effective accountability over its spy services Johnson explores the work of the famous Church Committee a Senate panel that investigated America's espionage organizations in 1975 and established new protocol for supervising the Central Intelligence Agency CIA and the nation's other sixteen secret services Johnson explores why partisanship has crept into once neutral intelligence operations the effect of the 9 11 attacks on the expansion of spying and the controversies related to CIA rendition and torture programs He also discusses both the Edward Snowden case and the ongoing investigations into the Russian hack of the 2016 US election Above all *Spy Watching* seeks to find a sensible balance between the twin imperatives in a democracy of liberty and security Johnson draws on scores of interviews with Directors of Central Intelligence and others in America's secret agencies making this a uniquely authoritative account From Multiculturalism to Democratic Discrimination Alberto Spektorowski, Daphna Elfersy, 2020-12-10 The effect of Islam on Western Europe has been profound Spektorowski and Elfersy argue that it has transformed European democratic values by inspiring an ultra liberalism that now faces an ultra conservative backlash Questions of what to do about Muslim immigration how to deal with burqas how to deal with gender politics have all been influenced by western democracies grappling with ideas of inclusion and most recently

exclusion This book examines those forces and ultimately sees not an unbridgeable gap but a future in which Islam and European democracies are compatible rich and evolving *Islamic Jurisprudence, Islamic Law, and Modernity* Mohammad H. Fadel, 2023-08-01 Mohammad Fadel's scholarship on Islamic law and legal history ranges from medieval institutions and the history of Islamic legal interpretation to urgent problems relating to the modern reception and re-assessment of Islamic legal doctrine Fadel's intellectual concerns focus primarily on the compatibility of the Islamic legal tradition with modern liberal political arrangements but in his research and writing he also delves into the realm of premodern Islamic legal thought and institutions His Rawlsian approach leads him to a political reading of the Islamic legal tradition which he accomplishes by teasing out jurists' assumptions about politics economics and the domestic sphere Fadel's readings of Islamic legal sources suggest that Islamic law remains relevant to a society in which legitimate disagreements over law and morality seem intractable At the same time from the Rawlsian perspective he adopts Fadel reminds us that premodern Muslim jurists formulated Islamic law also under conditions of substantial controversy over matters of law and morality as well as over questions of religion politics theology and metaphysics The studies gathered together in this volume adroitly illustrate Fadel's interest in Islamic law as a domain of Islamic political thought and as a framework that might be deployed in today's pluralistic and secularized societies Re-energizing Ideology Studies Michael Freeden, 2018-12-07 Ideology studies have undergone significant growth over the past couple of decades The scope of the discipline has been extensively broadened to include not only text and discourse but emotions imagination fantasy rhetoric and visual forms Its attention to detail and to the micro manifestations of ideology in the everyday have borne considerable fruit particularly at a time of ideological fragmentation and reassembly Its research methods have been refined embracing both conceptual innovation and empirical evidence drawn from many fields of social creativity During that period the *Journal of Political Ideologies* has been a major vehicle of the discipline's advance and coming of age The chapters in this book originally published as two special issues in the *Journal* The book assembles and investigates some of the latest approaches and domains in which cutting edge ideology research is now under way The multiple topics sources and interdisciplinary perspectives it contains illustrate the variety and depth that ideology studies have attained Its subjects range from historical and literary analyses through feminist studies and psycho-social interpretations It takes in the new means of dissemination that the digital age has introduced and offers fresh assessments of the many cross-fertilizations possible between ideology research political theory and international studies as traditional ideologies vie with new ideological articulations and forms
