The Promise of Welfare in the Postwar British and Anglophone Novel Kelly M. Rich, 2023-07-13 The Promise of Welfare in the Postwar British Novel offers a new literary history of the Second World War and its aftermath by focusing on wartime visions of rebuilding Britain Shifting attention from the People's War to the People's Peace this book shows that literature returns to the historic transition from warfare to welfare to narrate its transformative social potential and darker failures The welfare state envisioned that managing individuals private lives would result in a more coherent and equitable community a promise encapsulated in the 1942 Beveridge Report's promise of care from the cradle to the grave The postwar novel reveals the intimate effects that follow when infrastructures of collective living seek to organize social interaction tracing these effects through quasi administrated home spaces such as girls hostels makeshift sanatoria and

experimental schools Mid century writers including Elizabeth Bowen Muriel Spark and Samuel Selvon used the militarized Home Front to present postwar Britain as a zone of lost privacy and new collective logics As the century progressed and as the unrealized dreams of welfare came to be dismantled authors including Alan Hollinghurst Michael Ondaatje and Kazuo Ishiguro registered an unfulfilled nostalgia for a Britain that never was situating British domestic policies within trajectories of historic and social violence Contemporary fiction continues to reanimate the transition from a warfare state to a welfare state preserving its transformative potential while redefining its possible futures With this long view of postwar fiction this volume demonstrates the holding power of welfare s promises of repair and Britain s mid century on the British cultural imagination

More than seventy years after its publication in 1936 Margaret Mitchell's *Gone with the Wind* has never been out of print An icon of American culture it has had similar success abroad popular in Japan Russia and post World War II Europe among other places and times This work analyzes the continuations of Mitchell's novel the authorized sequels *Scarlett* by Alexandra Ripley and *Rhett Butler's People* by Donald McCaig the unauthorized parody *The Wind Done Gone* by Alice Randall and a politically correct parody and the many fan fiction stories posted online The book also explores *Gone with the Wind*'s ambiguous ending the perceived need to publish an authorized sequel and the legal battle to determine who may re write *Gone with the Wind* **Faulkner and War** Noel Polk, Ann J. Abadie, 2004 A critical exploration of the effects and influence of America's wars upon the works of the Nobel Prize laureate [How to Revise a True War Story](#) John K. Young, 2017-01-15

You can tell a true war story if you just keep on telling it Tim O'Brien writes in *The Things They Carried* Widely regarded as the most important novelist to come out of the American war in Viet Nam O'Brien has kept on telling true war stories not only in narratives that cycle through multiple fictional and non fictional versions of the war's defining experiences but also by rewriting those stories again and again Key moments of revision extend from early drafts to the initial appearance of selected chapters in magazines across typescripts and page proofs for first editions and through continuing post publication variants in reprints *How to Revise a True War Story* is the first book length study of O'Brien's archival papers at the University of Texas's Harry Ransom Center Drawing on extensive study of drafts and other prepublication materials as well as the multiple published versions of O'Brien's works John K Young tells the untold stories behind the production of such key texts as *Going After Cacciato* *The Things They Carried* and *In the Lake of the Woods* By reading not just the texts that have been published

but also the versions they could have been Young demonstrates the important choices O'Brien and his editors have made about how to represent the traumas of the war in Vietnam. The result is a series of texts that refuse to settle into a finished or stable form just as the stories they present insist on being told and retold in new and changing ways. In their lack of textual stability these variants across different versions enact for O'Brien's readers the kinds of narrative volatility that is key to the American literature emerging from the war in Vietnam. Perhaps in this case you can tell a true war story if you just keep on revising it.

Writing after War John Limon, 1994-07-07 In *Writing After War* John Limon develops a theory of the relationship of war in general to literature in general in order to make sense of American literary history in particular. Applying the work of war theorists Carl von Clausewitz and Elaine Scarry, John Limon argues that *The Iliad* inaugurates Western literature on the failure of war to be as beautiful as it is necessary. War's failure is literature's justification. American literary history is demarcated by wars as if literary epochs like the history of literature itself required bloodshed to commence. But in chapters on periods of literary history from realism generally taken to be a product of the Civil War through modernism usually assumed to be a prediction or result of the Great War up to postmodernism which followed World War II and spanned Vietnam, Limon argues that despite the looming presence of war in American history the techniques that define these periods are essentially ways of not writing war. From James and Twain through Fitzgerald, Faulkner, and even Hemingway to Pynchon, our national literary history is not hopelessly masculinist. Limon argues. Instead, it arrives naturally at Bobbie Ann Mason and Maxine Hong Kingston. Kingston brings the discussion full circle. *The Woman Warrior* like *The Iliad* appears to condemn the fall from duel to war that is literature's endless opening.

Bulletin of the Atomic Scientists, 1989-11 The *Bulletin of the Atomic Scientists* is the premier public resource on scientific and technological developments that impact global security. Founded by Manhattan Project Scientists, the *Bulletin's* iconic Doomsday Clock stimulates solutions for a safer world.
