The Eye of Heaven JoAnne Soper-Cook, 2011-03-18

When Dante di Salvatore, former prostitute and adopted son of one of Florence's reigning nobles, is bitten by the ancient vampire goddess Lillith, his mortal life is over. Once enslaved by the vampire queen's malign influence, Dante allies himself with Rouen, a young man of dazzling beauty and great influence who is enamored with Dante. But they cannot truly be together unless Dante changes Rouen into a vampire, and for Rouen accepting the dark gift may ultimately cost him his immortal soul. Soon the great city of Florence will be taken to account for her sins, as the streets are scourged of everything the fanatical preacher Serenola deems unnatural. But many silent, mostly unseen creatures of the night are coming together from the disparate corners of the earth to do battle one last time against Serenola, evil disguised as good. What Dante does not realize is that he, above all others, holds the key to not only his own salvation but the preservation of all of vampire kind and perhaps even the human race.

Mycelial Memories Lisa Mosswood, 2024-11-21

In 2145, beneath the concrete shroud suffocating Earth's forests, a silent network pulses with life: the mycorrhizal web, a sentient fungal colony whispering tales of millennia. Dr. Lisa Mosswood, a brilliant mycologist, unlocks the fungi's secrets, revealing a chilling premonition of ecological collapse and a glimmer of hope encoded within their intricate symphony. Her lab, nestled amidst urban decay, transforms into a sanctuary where the past murmurs its wisdom, a beacon of hope in a world teetering on the brink. But BioGenesis, led by the avaricious William O'Donnell, sees only profit in the fungal network. Their relentless exploitation hastens the very disaster the fungi could avert. Caught in the crossfire is Laura Horn, BioGenesis's lead scientist, torn between scientific ambition and the ethical ramifications of her work. Lisa's quest becomes a desperate race against time, pursued by O'Donnell's ruthless head of security, Tyler Lambert. A rare species of luminescent insects, symbiotically bound to the fungi, offers a potent amplifier for the network's restorative abilities. Joined by a conscience-stricken Laura who defects from BioGenesis with vital data, Lisa must reach the hidden heart of the last ancient fungal colony, a vibrant oasis amidst the

desolation Their journey is fraught with peril traversing decaying cityscapes where nature reclaims its dominion They find fleeting sanctuary amongst pockets of resistance disillusioned citizens yearning for a return to the natural world The fungal network itself seems to guide their steps offering cryptic warnings and hidden pathways through the ruins At the ancient colony a breathtaking spectacle of bioluminescence Lisa uncovers the intricate interplay between fungi and insects a biological symphony capable of rejuvenating the planet But time is running out As the cataclysm manifests in violent storms and seismic upheavals Odonnell prepares a final devastating assault The climax erupts in a confrontation that transcends conventional warfare Lisa now deeply connected to the mycelial consciousness orchestrates a biological counter offensive harnessing the fungi and their luminescent allies to unleash a wave of restorative energy Laura exposes Odonnell s crimes triggering his downfall and a global awakening to the interconnectedness of all life Mycelial Memories is not just a thrilling eco thriller it s a poignant exploration of humanity s relationship with nature It s a story of loss and hope of greed and redemption of the silent guardians beneath our feet and the extraordinary power they hold Enter a world where fungi whisper secrets where nature fights back and where the fate of humanity rests on the delicate threads of the mycelial web Join Lisa Mosswood on a journey that will forever change your perspective on the world beneath your feet *Blackwood's Edinburgh Magazine* ,1897
