Economics March Common Test Question Paper And Memorandum 24:

International Finance Dilip Das, 2003-09-02 In this updated fourth edition author Maurice Levi successfully integrates both the micro and macro aspects of international finance. He successfully explores managerial issues and focuses on problems arising from financial trading relations between nations whilst covering key topics such as organization of foreign exchange markets, determination of exchange rates, the fundamental principles of international finance, foreign exchange risk and exposure, fixed and flexible exchange rates. This impressive new edition builds and improves upon the popular style and structure of the original. With new data, improved pedagogy and coverage of all of the main developments in international finance over the last few years, this book will prove essential reading for students of economics and business. **Economics**

Working Papers John Fletcher, 1978 *International Finance*, *Strategic Approaches to Energy Management* Serhat Yüksel, Hasan Dinçer, 2021-08-23 This book introduces current managerial approaches to energy production and energy use. The volume analyses how to manage technological developments that contribute to lowering the price of energy production and also focuses on the impact of renewable energy sources that provide continuity in energy production and how to manage it. The book presents studies on the effectiveness of wind, solar, biomass, geothermal and hydroelectric energies and discusses current technological approaches to prevent environmental pollution such as carbon capture and storage. Furthermore, the book includes sustainable economic and financial strategies to use energy more effectively and efficiently. It thus appeals not only to an academic readership but also to energy management professionals working in this field.
