Theology for the US-Mexico Borderlands Bryan M. Ellrod, 2025-03-13 Since 1994 over 4 000 human remains have been recovered from the Sonoran Desert Victims of a border enforcement strategy that weaponizes the landscape against migrants the ever growing ledger of the dead counts the human cost at which the present political paradigm is secured Through a series of readings of biblical texts informed by philosophical theological and legal theory this book facilitates a reckoning between the self determining polity and the excluded outsider s ethical demand Finding in their demand the motivation for novel forms of legal interpretation and political agency Ellrod sketches a hopeful life affirming alternative to Realist Political Theologies of Migration *(Re)mapping the Latina/o Literary Landscape* Cristina Herrera, Larissa M.

Mercado-López, 2016-08-10 This book broadens the scope of Latina o criticism to include both widely read and understudied nineteenth through twenty first century fictional works that engage in critical discussions of gender race sexuality and identity The essays in this collection do not simply seek inclusion for the texts they critically discuss but suggest that we more thoughtfully consider the utility of mapping whether we are mapping land borders time migration or connections and disconnections across time and space Using new and rigorous methodological approaches to reading Latina o literature contributors reveal a varied and textured landscape challenging us to reconsider the process and influence of literary production across borders The Silent War Wayne Patrick, 2011-09-16 Charlie McShanes world has just collapsed His

parents John and Mary are killed in a head on collision with a drunk driver Worse the driver is an illegal alien from Mexico To keep himself from destitution Charlie moves back into his parents home in Arizona And it is then that the silent war begins Already suffering from mental illness Charlie is pushed to the brink his parents death His passive racism suddenly roars to full blown hatred engulfing friends neighborhood strays and the unfortunate Mexican population As schizophrenia seizes Charlies mind virtually no one is safe from Charlies wrath He is now in an undeclared and very personal war of perverted justice and revenge Charlie embarks on a random killing spree and especially targets the Mexican population Fear and terrorism grip Arizona and despite the efforts of law enforcement there is no end in sight until one valiant man determines to stop Charlie no matter the cost Gripping and timely The Silent War mixes current political issues with the horrors of mental illness to paint a disturbing picture of misguided vengeance and racism **Encyclopedia of Hispanic-American**

Borderlands Media David Toohey, 2012-03-15 David E Toohey's *Borderlands Media Cinema and Literature as Opposition to the Oppression of Immigrants* is an in depth analysis which explores the immigrant experience using a mixture of cinema literary and other artistic media spanning from 1958 onward Toohey begins with Orson Welles's 1958 *Touch of Evil* which triggered a wave of protest resulting in Chicana/o filmmakers acting out against the racism against immigrant and diaspora communities The study then adds policy documents and social science scholarship to the mix both to clarify and oppose undesirable elements in these forms of thought Through extensive analysis and explication Toohey uncovers a history of power ranging from lingual and visual to more widely recognized class and racial divisions These divisions are analyzed both with an emphasis on how they oppress but also how cinematic political thought can challenge them with special attention to the philosophy of Gilles Deleuze David E Toohey's *Borderlands Media* is an essential text for scholars and students engaged in questions regarding the effect of media on the oppression of immigrants and diaspora communities

William Hanson and the Texas-Mexico Border John Weber, 2024-05-14 In his introduction to this manuscript John Weber describes how throughout his years of research on his earlier book on South Texas he kept coming across the figure of William Hanson 1866-1931 Hanson appeared in reports of efforts to eliminate Mexican American voting in South Texas in accusations of wrongdoing by Texas Rangers and elsewhere It wasn't until Weber completed his first book that he was able to go back into the archives start pulling on threads and begin to piece together a

fuller picture of Hanson's life and activities. This project contains the fruits of his investigation. This is not a full biography of Hanson; the existing records do not really allow that, but rather a study of his activities in the 1920s and how they help us better understand the history and politics of the Texas-Mexico border. As Weber explains, Hanson was a close witness to history during these years as well as an active agent of it. He was a captain in the Texas Rangers, an associate of Albert Bacon Fall, and the top official in the Immigration Service at the time of the creation of the Border Patrol. From these various positions and with the help of his powerful patrons, Hanson helped shape the ways that U.S. policymakers understood the border, its residents, and the movement of goods and people across the international boundary.

Politics, Identity, and Mobility in Travel Writing Miguel A. Cabañas, Jeanne Dubino, Veronica Salles-Reese, Gary Totten, 2015-06-26. This collection examines the intersections between the personal and the political in travel writing and the dialectic between mobility and stasis through an analysis of specific cases across geographical and historical boundaries. The authors explore the various ways in which travel texts represent actual political conditions and thus engage in discussions about national, transnational, and global citizenship; how they propose real-world political interventions in the places where the traveler goes; what tone they take toward political or socio-political violence; and how they intersect with political debates. Travel writing can be viewed as political in a purely instrumental sense, but as this volume also demonstrates, travel writing's reception and ideological interventions also transform personal and cultural realities. This book thus examines the ways in which politics, material effects, inform and intersect with personal experience in travel texts and engage with travel's dialectic of mobility and stasis. In spite of globalization and efforts to eradicate the colonial vision in travel writing and in travel writing criticism, this vision persists in various and complex ways. While the travelogue can be a space of discursive and direct oppression, these essays suggest that the travelogue is also a narrative space in which the traveler employs the genre to assert authority over his or her experiences of mobility. This book will be an important contribution for interdisciplinary scholars with interests in travel writing studies, global and transnational studies, women's studies, multicultural studies, the social sciences, and history.

Spilling the Beans in Chicanolandia Frederick Luis Aldama, 2010-01-01. Since the 1980s, a prolific second wave of Chicano writers and artists has tremendously expanded the range of genres and subject matter in Chicano literature and art. Building on the pioneering work of their predecessors, whose artistic creations were often tied to political activism and the civil rights struggle, today's Chicano writers and artists feel free to focus as much on the aesthetic quality of their work as on its social content. They use novels, short stories, poetry, drama, documentary films, and comic books to shape the raw materials of life into art objects that cause us to participate empathetically in an increasingly complex Chicano identity and experience. This book presents far-ranging interviews with twenty-one second-wave Chicano poets, fiction writers, dramatists, documentary filmmakers, and playwrights. Some are mainstream, widely recognized creators, while others work from the margins because of their sexual orientations or their controversial positions. Frederick Luis Aldama draws out

the artists and authors on both the aesthetic and the sociopolitical concerns that animate their work Their conversations delve into such areas as how the artists or writers life experiences have molded their work why they choose to work in certain genres and how they have transformed them what it means to be Chicano a in today s pluralistic society and how Chicano a identity influences and is influenced by contact with ethnic and racial identities from around the world The Logics of Biopower and the War on Terror C. Masters,E. Dauphinee,2016-09-23 The contributors explores the intellectual cultural and political logics of the US led war on terror and its consequences on lived lives in a range of contexts The book interrogates the ways in which biopolitical practices hinge on political imaginaries and materialities of violence and death

Deportation Nation Daniel Kanstroom, 2010-03-15 This book is a chilling history of communal self idealization and self protection By illuminating the shadowy corners of American history Kanstroom shows that deportation has long been a legal tool to control immigrants lives and is being used with increasing crudeness in a globalized but xenophobic world **The Deportation Machine** Adam Goodman, 2020-06-23 By most accounts the United States has deported around five million

people since 1882 but this includes only what the federal government calls formal deportations Voluntary departures where undocumented immigrants who have been detained agree to leave within a specified time period and self deportations where undocumented immigrants leave because legal structures in the United States have made their lives too difficult and frightening together constitute 90% of the undocumented immigrants who have been expelled by the federal government This brings the number of deportees to fifty six million These forms of deportation rely on threats and coercion created at the federal state and local levels using large scale publicity campaigns the fear of immigration raids and detentions to cost effectively push people out of the country Here Adam Goodman traces a comprehensive history of American deportation policies from 1882 to the present and near future He shows that one of the country's largest deportation operations expelled hundreds of thousands of people almost exclusively through the use of voluntary departures and through carefully planned fear campaigns that terrified undocumented immigrants through newspaper radio and television publicity These deportation efforts have disproportionately targeted Mexican immigrants who make up half of non citizens but 90% of deportees Goodman examines the political economy of these deportation operations arguing that they run on private transportation companies corrupt public private relations and the creation of fear based internal borders for long term undocumented residents He grounds his conclusions in over four years of research in English and Spanish language archives and twenty five oral histories conducted with both immigration officials and immigrants revealing for the first time the true magnitude and deep historical roots of anti immigrant policy in the United States

Disinventions José Manuel Cortez, 2025-09-09 US immigration policy along the southwestern border is deadly Since 1994 the US Border Patrol has implemented a federal immigration strategy known as prevention through deterrence which closed off many urban entry points along the US Mexico border and militarized urban border crossings This policy forced undocumented migrants to cross through dangerous terrain like the Sonoran Desert often with tragic results Immigrant advocates highlight migrant disappearances and deaths to expose the policy's human toll In *Disinventions* Jos Manuel Cortez argues this approach is unlikely to bring an end to such oppressive immigration practices *Disinventions* examines the cultural political and rhetorical effects of US deterrence practices exploring how discourse on immigration overlooks subjects who have always been a part of the borderlands but are rarely included in migration narratives He highlights the failings of decolonial methods and discourse to fully capture and represent marginalized voices including Black Central American and queer subjects And he develops an ethics of unconditional hospitality embracing undocumented migrants By drawing on the concept of atopias and what he calls sites of disinvention to unearth new forms of politics Cortez suggests we can transcend the limits of decolonization discourse and humanize undocumented immigrants This challenging and engaging work should appeal to scholars and students of rhetorical studies Latinx studies and American studies

America in the World Frank Costigliola, Michael J. Hogan, 2013-12-23 This volume includes historiographical surveys of American foreign relations since

The Rhizomatic West Neil Campbell, 2008-12-01

Is the American West in Sergio Leone's spaghetti westerns the same American West we find in Douglas Coupland's *Generation X*? In Jim Jarmusch's movies? In Calexico's music? Or is the American West as this book tells us a constantly moving, mutating idea within a complex global culture? And what, precisely or better yet imprecisely, does it mean? Using Gilles Deleuze and Félix Guattari's concept of the rhizome, Neil Campbell shows how the West or westness continually breaks away from a mainstream notion of American rootedness and renews and transforms itself in various cultural forms. A region long traversed by various transient peoples from tribes and conquerors to immigrants, traders, and trappers, the West reflects a mythic quest for settlement, permanence, and synthesis, even notions of a national or global identity at odds with its rootless history, culture, and nature. Crossing the concept of roots with routes, this book shows how notions of the West in representations ranging from literature and film to photography, music, and architectural theory give expression to ideas about identity, nationhood, and belonging in a world increasingly defined by movement across time and borders. *The Rhizomatic West* offers a new vision of the American West as a hybrid, performative space, a staging place for myriad intersecting and constantly changing identities.
