satisfy her In the end she has the chance to enter a new world and a relationship defined by equality The way Angela Carter represents the female characters in *The Magic Toyshop* is indicative of the turbulence of the times In order to properly assess analyse and interpret these representations it is necessary to take account of the historical cultural and political circumstances of the late 1960s and the theorists who have written about Carter Combined they allow the modern reader to properly contextualise and understand *The Magic Toyshop* Remarkably Carter seemed to be ahead of her time analysing and criticising the traditional representations of femininity that society imposed on women It was a time when they still belonged to the private sphere embodying the roles of mothers or housewives even though many women already were active in the work force Men continued to prevail in the public sphere enforcing patriarchal structures These socially cons

Once Upon a Time in Angela Carter's Magic Toyshop Alina Elisabeta Bughesiu,2012-04 The present research tries to draw a parallel between Carter s second novel *The Magic Toyshop* and the world of fairy tales their narrative patterns as defined by Vladimir Propp common characters the imaginary worlds they describe the aesthetical issues they display and the effects they trigger By using fairy tales as subversive tools the novel presents certain peculiarities in its portrayal of the heroine a teenager as well as in its development of the narrative as a succession of functions Special attention is paid to the use of names in the novel as symbols and as markers of power relationships that exist between the characters in *The Magic Toyshop* While aiming to establish the coordinates of the magical realist manoeuvres employed and thereby to draw attention to the grotesque dimension of the novel along the line of M Bakhtin s carnivalesque grotesque I also deal with the issue of perspective from the viewpoint of phenomenology Edmund Husserl Maurice Merleau Ponty and of Michel Foucault s critique of the analytical discourse on knowledge in order to highlight Carter s demythologising creed
