William Beckford Perry Gauci, 2013-05-21 DIV This first ever biography of William Beckford provides a unique look at eighteenth century British history from the perspective of the colonies Even in his own time Beckford was seen as a metaphor for the dramatic changes occurring during this era He was born in 1709 into a family of wealthy sugar planters living in Jamaica when the colonies were still peripheral to Britain By the time he died in 1770 the colonies loomed large and were considered the source of Britain's growing global power Beckford grew his fortune in Jamaica but he spent most of his adult life in London where he was elected Lord Mayor twice He was one of the few politicians to have experienced imperial growing pains on both sides of the Atlantic and his life offers a riveting look at how the expanding empire challenged existing political social and cultural norms div

Calunga and the Legacy of an African Language in Brazil Steven Byrd, 2012-11-15 Although millions of slaves were forcibly transported from Africa to Brazil the languages the slaves brought with them remain little known Most studies have focused on African contributions to Brazilian Portuguese rather than on the African languages themselves This book is unusual in focusing on an African descended language The author describes and analyzes the Afro Brazilian speech community of Calunga in Minas Gerais Linguistically descended from West African Bantu Calunga is an endangered Afro Brazilian language spoken by a few hundred older Afro Brazilian men who use it only for specific secret communications Unlike most creole languages which are based largely on the vocabulary of the colonial language Calunga has a large

proportion of African vocabulary items embedded in an essentially Portuguese grammar A hybrid language its formation can be seen as a form of cultural resistance Steven Byrd's study provides a comprehensive linguistic description of Calunga based on two years of interviews with speakers of the language He examines its history and historical context as well as its linguistic context its sociolinguistic profile and its lexical and grammatical outlines *The Elements in the Medieval World*, 2024-08-19 The thirteen essays and the final poem contained in this volume reflect the fundamental importance of water across the whole breadth of medieval endeavour and understanding as both source of life and object of scholarly fascination whose manifestations were the source of rich symbolism and imaginings Ranging geographically from Ireland to the Arab world and from Iceland to Byzantium and chronologically from the fourth century CE to the sixteenth the essays explore perceptions and theories of water through a wide range of approaches Contributors are Michael Bintley Tom Birkett Laura Borghetti Rafa Borysowski Marilina Cesario Marusca Francini Kelly Grovier Deborah Hayden Simon Karstens Andreas Lammer David Livingstone Luca Loschiavo Hugh Magennis Colin Fitzpatrick Murtha François Quiviger Elisa Ramazzina and Karl Whittington **African Islands** Toyin Falola, R. A Post-Exceptionalist Perspective on Early American History Carroll P. Kakel III, 2019-08-16 This book argues that early American history is best understood as the story of a settler colonial supplanting society a society intent on a vast land grab of American Indian space and driven by a logic of elimination and a genocidal imperative to rid the new white settler living space of its existing

Indigenous inhabitants Challenging the still strongly held notion of American history as somehow exceptional or unique it locates the history of the United States and its colonial antecedents as a central part of rather than an exception to the emerging global histories of imperialism colonialism and genocide It also explores early American history in an imperial transnational and global frame showing how the precedent of the North American West and its colonial trope of Indian wars were used by like minded American and European expansionists to inspire and legitimate other imperial colonial adventures from the late nineteenth through the mid twentieth centuries

The Ashgate Research Companion to Modern Imperial Histories John Marriott, 2016-03-23 Written by leading scholars this collection provides a comprehensive and authoritative overview of modern empires Spanning the era of modern imperial history from the early sixteenth century to the present it challenges both the rather insular focuses on specific experiences and gives due attention to imperial formations outside the West including the Russian Japanese Mughal Ottoman and Chinese The companion is divided into three broad sections Part I Times surveys the three main eras of modern imperialism The first was that dominated by the settlement impulse with migrants many voluntarily and many more by force making new lives in the colonies This impulse gave way most especially in the nineteenth century to a period of busy and rapid expansion which was less likely to promote new settlement and in which colonists more frequently saw their sojourn in colonial lands as temporary and related to the business mostly of governance and trade Lastly in the twentieth century in particular empires began to fail and to fall Part II Spaces studies the principal imperial formations of the modern world Each chapter charts the experience of a specific empire while at the same time placing it within the complex patterns of wider imperial constellations The individual chapters thus survey the broad dynamics of change within the empires themselves and their relationships with other imperial formations and reflect critically on the ways in which these topics have been approached in the literature In Part III Themes scholars think critically about some of the key features of imperial expansion and decline These chapters are brief and many are provocative They reflect the current state of the field and suggest new lines of inquiry which may follow from more comparative perspectives on empire The broad range of themes captures the vitality and diversity of contemporary scholarship on questions of empire and colonialism encompassing political economic and cultural processes central to the formation and maintenance of empires as well as institutions ideologies and social categories that shaped the lives both of those implementing and those experiencing the force of empire In these pages the reader will find the slave and the criminal the merchant and the maid the scientist and the artist alongside the structures which sustained their lives and their livelihoods Overall the companion emphasises the diversity of imperial experience and process Comprehensive in its scope it draws attention to the particularities of individual empires rather than over generalising as if all empires at all times and in all places behaved in a similar manner It is this contingent and historical specificity that enables us to explore in expansive ways precisely what constituted the modern empire
