Gods of Atlantis David Gibbins,2012-01-05 A thrilling standalone sequel to ATLANTIS David Gibbins international bestseller of high action adventure marine archaeology and the exploration of one of history s most fascinating and enduring mysteries A lost Nazi bunker in a forest in Germany contains a dreadful secret But is there a horrifying new dimension another ingredient in the Nazi s rule of terror Marine archaeologist Jack Howard returns to the lost island of Atlantis in the Black Sea to answer questions about the Atlantis priests that have plagued him Then by tracking down the 1930s expeditions of Himmler s Ahnenerbe the Nazi s Department of Cultural Heritage and its link with Atlantis Jack realises he is not just on the trail of the greatest lost relics from the past Could there possibly be a terrifying new version of Atlantis a priesthood of evil Jack must uncover the truth before it is too late **Gospel Thrillers** Andrew S. Jacobs,2023-11-30 Conspiratorial fears and

desires about biblical discoveries are amplified and contained within the covers of a formulaic fiction genre **Secret Scrolls** Robert M. Price,2010-12-27 Secret Scrolls is the very first examination of some forty novels in which someone discovers a new gospel Sometimes it turns out to be a hoax will it be debunked before it can work its mischief If it proves genuine will it be brought to light Or will corrupt church officials manage to prevent it The book evaluates what each author has to say about historical Jesus scholarship or New Testament research in general Sometimes the authors have done their homework other times they haven t bothered and they wind up dishing up crazy rewrites of history and outlandish theories These novels deal with abiding issues of faith even without some new discovery As soon as one engages in biblical apologetics one has stepped onto the marshy ground of probabilistic arguments an entirely different epistemology that automatically replaces simple faith And so one comes to hold one s religious convictions more tentatively having become genuinely vulnerable to new evidence One may not remain a believer for long On the other hand one invites fanaticism if one s faith is dangerously predicated on the assurance that no new discovery will send one back to the drawing board Secret Scrolls assesses what each author imagines it would take to derail and debunk Christianity How mighty a blow must be dealt before the religion would fall Dan Brown s notion that a married Jesus would debunk the Nicene Creed is laughable As

Wilbert Francis Howard once argued in his brief and fascinating history of New Testament research there is a genuine romance of New Testament scholarship and many of us are delighted to have the adventure continue in the speculative imaginations of capable novelists These books can both entertain and educate and so will Secret Scrolls **The Atlantis Collection: Atlantis, Crusader Gold, The Last Gospel** David Gibbins,2014-09-11 THE ATLANTIS COLLECTION brings together bestseller David Gibbins unputdownable first three novels featuring underwater archaeologist Jack Howard Fans of Dan Brown and Clive Cussler will thrill to this stunning collection In ATLANTIS Jack Howard uncovers what could be the key to the lost island during a dive in the Mediterranean This astounding discovering is beyond Jack s wildest dreams but it has devastating consequences Jack finds himself in a terrifying game of life and death that could destroy thousands of lives In CRUSADER GOLD a dive for a lost Crusade treasure in Istanbul and an unearthed medieval map in an English cathedral library together have the power to alter history A thrilling but lethal quest takes Jack Howard back to the greatest of Viking Conquerors to the fall of the Nazis and the darkest secrets of the modern Vatican In THE LAST GOSPEL Jack Howard is on the hunt to unravel the story of one last Gospel left behind in the age of the New Testament This extraordinary secret has the power to shatter the foundations of the Western World and endangers Jack like never before The Rise and Fall of American Science Fiction, from the 1920s to the 1960s Gary Westfahl,2019-10-04 By examining important aspects of science fiction in the twentieth century this book explains how the genre evolved to its current state Close critical attention is given to topics including the art that has accompanied science fiction the subgenres of space opera and hard science fiction the rise of SF anthologies and the burgeoning impact of the marketplace on authors Included are in depth studies of key texts that contributed to science fiction s growth including Philip Francis Nowlan s first Buck Rogers story the first published stories of A E van Vogt and the early juveniles of Isaac Asimov Arthur C Clarke and Robert Heinlein **Atlantis** David Gibbins,2010-03-04 Archaeologist Jack Howard is a brave but cautious man When he embarked on a new search for buried treasure in the Mediterranean he knew it was a long shot But when Jack Howard and his intrepid crew finally got close to uncovering the secrets the sea had held for thousands of years nothing could have prepared them for what they would find
