Monthly Catalog of United States Government Publications, 2004 **The Integration of Immigrants into American Society** National Academies of Sciences, Engineering, and Medicine, Division of Behavioral and Social Sciences and Education, Committee on Population, Panel on the Integration of Immigrants into American Society, 2016-04-17 The United States prides itself on being a nation of immigrants and the country has a long history of successfully absorbing people from across the globe The integration of immigrants and their children contributes to our economic vitality and our vibrant and ever changing culture We have offered opportunities to immigrants and their children to better themselves and to be fully incorporated into our society and in exchange immigrants have become Americans embracing an American identity and citizenship protecting our country through service in our military fostering technological innovation harvesting its crops and enriching everything from the nation's cuisine to its universities music and art Today the 41 million immigrants in the United States represent 13.1 percent of the U.S. population The U.S. born children of immigrants the second generation represent another 37.1 million people or 12 percent of the population Thus together the first and second generations account for one out of four members of the U.S. population Whether they are successfully integrating is therefore a pressing and important question Are new immigrants and their children being well integrated into American society within and across generations Do current policies and practices facilitate their integration How is American society being transformed by the millions of immigrants who have arrived in recent decades To answer these questions this new report from the National Academies of Sciences Engineering and Medicine summarizes what we know about how immigrants and their descendants are integrating into American society in a range of areas such as education occupations health and language **Human Rights and Non-discrimination in the 'War on Terror'** Daniel Moeckli, 2008-01-24 In the post September 11th era liberal democracies face the question of whether and if so to what extent they should change the relationship between liberty and security This book explores how three major liberal democratic states the United States the United Kingdom and Germany have approached this challenge by analysing the human rights impacts of their anti terrorism laws and practices The analysis reveals that the most far reaching restrictions of liberty have been imposed on minorities foreign nationals and certain racial ethnic and religious groups This Disparate treatment raises complex issues concerning the human right to non discrimination Differential treatment on the basis of nationality national origin race or religion is only compatible with the right to non discrimination if there are objective and reasonable grounds for it The author evaluates contemporary anti terrorism efforts for their compliance with this requirement Is there in the context of the current war on terror sufficient justification for applying powers of preventive detention or trial by special tribunal only to foreign nationals Are law enforcement methods or immigration policies that single out people for special scrutiny based on their national origin or their ethnic or religious appearance a suitable and proportionate means of countering terrorism The concluding part of the book argues that in the
