*Teenage - The base of adulthood* Siji Thomas,2018-08-09 This book is a wake up call for parents and the society to realise that our teenagers are losing the ability to decide what is good or bad for them Recent disturbing incidents clearly show that teenagers do not repent for their activities They live in a virtual world of fantasy and expectations The author s experience as the mother of a teenager and interaction with her friends helped her realise that teenagers need guidance in certain aspects Schools churches and religious institutions try helping them with direction but teenagers need frequent reminders especially when they are in their late teens 16 to 19 years when they deal with several new emotions realisations and get a taste of much awaited freedom as they venture out to college Most parents want their children to have the best At the same time they worry about a lot of things such as choice of friends atmosphere style changes and loss of interest in studies As parents we understand our children s needs but convincing them of the whys and the whats is a big task Teenage The Base of Adulthood is a simple guide for parents and teenagers It defines their roles and offers practical help to both *How to live a victorious teens life... **Teenage Suicide Notes** Terry Williams, 2017-02-21 Picturing myself dying in a way I choose myself seems so comforting healing and heroic I'd look at my wrists watch the blood seeping and be a spectator in my last act of self determination By having lost all my self respect it seems like the last pride I own determining the time I die Kyra V seventeen Reading the confessions of a teenager contemplating suicide is uncomfortable but we must do so to understand why self harm has become epidemic especially in the United States What drives teenagers to self harm What makes death so attractive so liberating and so inevitable for so many In **Teenage Suicide Notes** sociologist Terry Williams pores over the writings of a diverse group of troubled youths to better grasp the motivations behind teenage suicide and to humanize those at risk of taking their own lives Williams evaluates young people in rural and urban contexts and across lines of race class gender and sexual orientation His approach which combines sensitive portrayals with sociological analysis adds a clarifying dimension to the fickle and often frustrating behavior of adolescents Williams reads between the lines of his subjects seemingly straightforward reflections on alienation agency euphoria and loss and investigates how this cocktail of emotions can lead to suicide or not Rather than treating these notes as exceptional examples of self expression Williams situates them at the center of teenage life linking them to abuse violence depression anxiety religion peer pressure sexual identity and family dynamics He captures the currents that turn self destruction into an act of self determination and proposes more effective solutions to resolving the suicide crisis
