The Aid Lab Naomi Hossain, 2017 From an unpromising start as the basket case to present day plaudits for its human development achievements Bangladesh plays an ideological role in the contemporary world order offering proof that the neo liberal development model works under the most testing conditions How were such rapid gains possible in a context of chronically weak governance The Aid Lab subjects this so called Bangladesh paradox to close scrutiny evaluating public policies and their outcomes for poverty and development since Bangladesh's independence in 1971 Countering received wisdom that its gains owe to an early shift to market oriented economic reform it argues that a binding political settlement a social contract to protect against the crises of subsistence and survival united the elite the masses and their aid donors in the wake of the devastating famine of 1974 This laid resilient foundations for human development fostering a focus on the poorest and most precarious and in particular on the concerns of women In chapters examining the environmental political and socioeconomic crisis of the 1970s the book shows how the lessons of the famine led to a robustly pro poor growth and social policy agenda empowering the Bangladeshi state and its non governmental organizations to protect and enable its population to thrive in its engagements in the global economy Now a middle income country Bangladesh's role as the world's laboratory for aided development has generated lessons well beyond its borders and Bangladesh continues to carve a pioneering pathway through the risks of global economic integration and climate change Bridging Theory and Practice in Education Dr. Nyagwegwe C. Wango, Monique Mannetti, Lawrence Ntam Nchia, Dr. Adan Maalim Hussein, Paul Huka Kalla, 2025-06-04 TOPICS IN THE BOOK Beyond Collaboration How Partnerships Strengthen Teacher Education Systems in East Africa Students Perception of Teaching and Learning During Pandemics A Case Study An Examination of Cameroonian Preservice Biology Teachers Conceptualisation of Living Organisms from philosophical and Epistemological Perspectives Educational Marginalization in Northern Kenya Teacher Retooling for Competence Based Education in Kenya **Media Capitalism** Thomas Klikauer, 2022-01-01 This book argues that media and capitalism no longer exist as separated entities and posits three reasons why one can no longer exist without the other Firstly mass media have become indispensable to capitalism due to the media's ability to sell the commodities of mass consumerism Media capitalism also creates pro capital attitudes among a target population and establishes an ideological hegemony Thirdly media capitalism provides mass deception to hide the pathologies of capitalism which include mass poverty rising inequalities and the acceleration of global warming To illuminate this the book's historical chapter traces the emergence of media capitalism Its subsequent chapters show how media capitalism has infiltrated the public sphere society schools universities the world of work and finally democracy The book concludes by outlining how societies can transition from media capitalism to a post media capitalist society *What They Do with Your Money* Stephen M. Davis, Jon Lukomnik, David Pitt-Watson, 2016-01-01 Introduction we the capitalists Incentives gone wild The return of ownership Not with my money The new geometry of regulation The queen's

question People's pensions commonsense banks Capitalism a brief owner's manual Urban Flood Mitigation Strategies Using Geo Spatial Tools Narendar Kumar,2023-09-20 The disastrous effects of floods in urban areas of various Indian cities have been increasing in severity and extent over the past decade This book explores flood disasters their impact in world and Indian contexts assessing vulnerability and risks involved and systematic use of GIS enabled platforms to map mitigation measures sustainably with special reference to the metropolitan flood mitigation endeavors This book balances the theoretical with empirical approaches to form a unique standpoint on the various challenges and possible solutions to urban flooding in India Through a study of major urban flood incidents this book analyzes the factors which contribute to the rising risk of flooding with increasing urbanization population dynamics growth and urban sprawl with particular focus on the cities of Chennai Mumbai and Hyderabad in India It also examines disaster governance on urban floods and legislative prospects of flood disasters through discussions on standing acts United Nations UN directives and internationally adopted practices and actions which are applicable in the Indian context An interdisciplinary study this book brings together tools and research from various disciplines including geography urban and regional planning and GIS It will be an invaluable resource for researchers scholars engineers students planners academicians and professionals of cross disciplines to help them resolve the problem of urban flooding It will also be of interest to the general reader seeking to learn more about disasters urban flooding engineering and GIS Commerce Business Daily ,2001-10 Strikes Around the World, 1968-2005 ,2007 Are strikes going out of fashion or are they an inevitable feature of working life This is a longstanding debate The much proclaimed withering away of the strike in the 1950s was quickly overturned by the resurgence of class conflict in the late 1960s and 1970s The period since then has been characterized as one of labor quiescence Commentators again predict the strikes demise at least in the former heartlands of capitalism Patterns of employment are constantly changing and strike activity reflects this The continuing decline of manufacturing in mature industrialized economies is of major importance here though the global relocation of manufacturing may lead to some relocation of strikes Simultaneously we see the growth of disputes in the service sector the tertiarization of strikes This is evident particularly in public services including health care social care and education and is accompanied by a feminization of strikes given the prevalence of women working there This unique study draws on the experience of fifteen countries around the world South Africa Argentina Canada Mexico United States Korea Australia New Zealand Belgium Denmark France Germany the Netherlands Sweden and the United Kingdom Covering the high and low points of strike activity over the period 1968 2005 the study shows continuing evidence of the durability adaptability and necessity of the strike **Sustainable and Resilient Food Systems in Times of Crises** Tarek Ben Hassen,Bassel Daher,Stefan Burkart,Hamid El Bilali,2025-08-18 The global food system is facing multiple and multifaceted challenges and crises increasing population climate change pandemics conflicts economic shocks and natural disasters These challenges have highlighted the fragility of the current food system and the need for a transition toward

sustainable and resilient food production distribution and consumption practices Sustainable food systems aim to provide healthy and nutritious food for all while minimizing environmental impacts ensuring social equity and economic viability and enhancing resilience to shocks and stresses In times of crisis such as the COVID 19 pandemic and the ongoing war in Ukraine a sustainable and resilient food system can be crucial in ensuring food and nutrition security reducing food waste and supporting sustainable local production

AMSTAT News American Statistical Association,1998 Disrupting Corporate Culture David G. White, Jr,2020-08-17 Research in cognitive science over the last 30 years shows much of what we know about culture in the business world is based on myth wishful thinking outdated science or is just plain wrong This is why culture shaping and change programs in organizations often amount to little more than sloganeering with minimal impact on the lived experience of employees This book bridges the gap between the latest research on cognitive science and culture providing a valuable guide for change leaders CEOs and practitioners on how to sustainably work with and change this important resource It answers many of the major questions that have plagued culture work such as Why so many CEOs and management consultants preach culture change when so few culture interventions actually succeed Why CEOs persist in believing culture starts at the top when virtually no research in anthropology supports that claim Why most culture shaping approaches have no answer for how to affect culture in global companies Why culture doesn't cause us to do anything yet we persist in believing that somehow it does Why so many culture shaping projects focus on corporate values despite the fact modern science shows why changing personal values is exceedingly difficult What we are learning about culture from the last 30 years of cognitive science gives us the foundation for far more impactful and sustainable interventions than have been possible to date This book explains why showing how everyday business practices well beyond HR are key to culture change Why Because the brain's synaptic plasticity can only be altered through new sustained and widespread organizational habits and routines This groundbreaking practical guide will show you finally how to realize the full power of culture as a transformational empowering and competitive resource
