Rockefeller Jacob Nordangård,2024-04-02 Why would the first family of oil so ardently support environmental climate research and activism Join author and researcher Jacob Nordang rd as he uncovers the whole sordid truth The Rockefeller family is one of the richest in the world Yet why would the family that made the world dependent on oil fund environmental and climate research since the 1950s help shape climate policy measures since the 1980s and supported climate activism since the 1990s Rockefeller Controlling the Game is the thrilling and paradoxical story of one of the world s most influential global players Through its top position in American business close contacts with the White House and with their immense financial power as one of the world s leading private research funders the Rockefellers have been able to anchor the climate issue both scientifically and politically Yet what is the reasoning behind doing so Author and researcher Jacob Nordang rd follows the family from the founding of Standard Oil and the Rockefeller Foundation up through the aftermath of the Paris Agreement with the declaration of the Fourth Industrial Revolution in January 2016 to the present day Nordang rd s in depth research includes the large quantities of new material recently made available on the Internet as well as the Rockefeller Foundation s own annual reports Nordang rd s main focus is the Rockefeller family s involvement in climate research and politics but the actions and motives of some of their allies are also explored as well as the family s influence on the development of modern medicine family planning agriculture art architecture behavioral science information technology and politics The Rockefeller family s utopian dream of a perfect world will have serious consequences for the survival of the human species and life as we know it The Rockefeller Foundation s stated mission to promote the well being of humanity throughout the world has a dark flipside as Nordang rd will prove the Rockefeller family s long standing battle against climate change contains elements of sophisticated propaganda techniques futurism and New Age philosophy aiming at a complete transformation of the whole earth system including economy ecology culture and even humanity itself
