

Declaration of Independence

Name: _____ Date: _____

	Quote	Explanation
Independence	When in the Course of human events, it becomes necessary for one people to dissolve the political bonds which have connected them with another, and to assume among the powers of the earth, a separate and equal station to which the laws of Nature and of Nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.	The Colonists are no longer connected with Great Britain but instead an independent nation.
Natural Rights	We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness.	-All men are equal and have the right to life, liberty and the pursuit of Happiness. - These rights cannot be taken away - This idea comes from John Locke
Purpose of Government	That to secure these rights, Governments are instituted among Men	The purpose of government is to protect natural rights
Social Contract	That whenever any Form of Government becomes destructive of these ends, it is the right of the People to alter or to abolish it, and to institute new Government...	If a government becomes destructive, the people have the right to overthrow it and create a new government
Power of Government	deriving their just powers from the consent of the governed	Government's power comes from the people
Colonial Grievances	-For Quartering large bodies of armed troops among us -For imposing Taxes on us without our Consent -For depriving us in many cases, of the benefits of Trial by Jury	- The King quartered or forced the colonists to house British troops -No taxation without representation - The colonists were denied the right of trial by jury
