Official Documents, Comprising the Department and Other Reports Made to the Governor, Senate, and House of Representatives of Pennsylvania Pennsylvania,1894 *How the Victorians Took Us to the Moon* Iwan Rhys Morus,2022-11-03 An insightful analysis of 19th century futurism Morus s account is as much a cautionary tale as a flag waving celebration DUNCAN BELL NEW STATESMAN How the Victorians Took Us to the Moon rattles thrillingly through such developments as the Transatlantic telegraph cable the steam locomotive and electric power and recalls the excitable predictions of the fiction of the time KATY GUEST THE GUARDIAN Excellent A terrific insight into why the Victorian era was a golden age of engineering NICK SMITH ENGINEERING AND TECHNOLOGY MAGAZINE By the end of the Victorian era the world had changed irrevocably The speed of the technological development brought about between 1800 and 1900 was completely unprecedented in human history And as the Victorians looked to the skies and beyond as the next frontier to be explored and conquered they were inventing shaping and moulding the very idea of the future To get us to this future the Victorians created a new way of ordering and transforming nature built on grand designs and the mass mobilisation of the resources of Empire and they revolutionised science in the process In this rich and absorbing book distinguished historian of science Iwan Rhys Morus tells the story of how this future was made From Charles Babbage s dream of mechanising

mathematics to Isambard Kingdom Brunel's tunnel beneath the Thames from George Cayley's fantasies of powered flight to Nikola Tesla's visions of an electrical world this is a story of towering personalities clashing ambitions furious rivalries and conflicting cultures a vibrant tapestry of remarkable lives that transformed the world and ultimately took us to the Moon

Spectacular Flops Michael Brian Schiffer, 2018-12-31 Many technologies begin life as someone's vision of an ambitious perhaps audacious technology that is expected to have a revolutionary impact on consumers whether families companies or societies However if this highly touted technology fails prematurely at some point in its life history it becomes a spectacular flop Employing a behavioral perspective this book presents a sample of twelve spectacular flops encompassing the past three centuries ranging from the world's first automobile to the nuclear powered bomber Because technologies may fail from many different causes spectacular flops pose a special challenge to the author's long term project of furnishing generalizations about technological change Instead of constructing generalizations that apply to all spectacular flops this book provides limited generalizations that pertain to particular groups of technologies bounded by parameters such as long term development projects and one off projects The reader need have no prior familiarity with the technologies because basic principles are introduced as needed

Puzzles David Platt, 2007-07-18 Steam Trains and Jigsaw Puzzles strikes most people as an intriguing title The origin is simple however my trainspotting youth has been synchronized with a later interest in jigsaw puzzles The result is expensive I have a collection of over 250 jigsaws depicting British steam railways The conclusion is impossible there are over 500 steam railway jigsaw puzzles to collect and they are being supplemented annually The Liverpool Manchester Railway marked the arrival of the true passenger railway service in 1830 and presented jigsaw manufacturers with another subject on which to focus Prior to this date the jigsaw experience started by John Spilsbury in c1760 was restricted to subjects such as religion geography history monarchs the alphabet and art Many characteristics combine to form the basis of nostalgic images buried indelibly in the minds of people who travelled in the steam railway age Manufacturers have not been slow to tap into this nostalgia and produce jigsaws aimed at stirring those memories and inviting people to reflect on past experiences good bad or indifferent Chad Valley Victory Good Companion Falcon Waddingtons and Arrow are just a few manufacturers who produced steam railway jigsaws in the past Most of these companies are now a distant memory while others are in foreign ownership Equally famous names such as Wentworth Ravensburger Germany House of Puzzles Gibsons JR Puzzles and King Puzzles Holland continue the manufacturing tradition Output is generally superb thanks to the efforts of fine railway artists such as Terence Cuneo George Heiron T E North Don Breckon John Austin Barry Freeman and Malcolm Root The book is

aimed at anyone with an interest in jigsaw puzzles and at those enthusiasts and aficionados who refuse to allow those evocative memories of the Golden Age of Steam to die **A History of the Trade and Manufactures of the Tyne, Wear, and Tees** British Association for the Advancement of Science, 1863
