The Discourse of Reading Groups David Peplow, Joan Swann, Paola Trimarco, Sara Whiteley, 2015-11-19 Of interest in their own terms as a significant cultural practice reading groups also provide a window on the everyday interpretation of literary texts While reading is often considered a solitary process reading groups constitute a form of social reading where interpretations are produced and displayed in discourse The Discourse of Reading Groups is a study of such joint conceptual activity and how this is necessarily embedded in interpersonal activity and the production of reader identities Uniquely in this context it draws on and seeks to integrate ideas from both cognitive and social linguistics The book will be of interest to scholars in literacy studies as well as cultural and literary studies the history of reading applied linguistics and sociolinguistics digital technologies and educational research

Active Learning: Theoretical Perspectives, Empirical Studies and Design Profiles Robert Cassidy, Elizabeth S. Charles, James D. Slotta, Nathaniel Lasry, 2019-07-11 This book represents the emerging efforts of a growing international network of researchers and practitioners to promote the development and uptake of evidence based pedagogies in higher education at something a level approaching large scale impact By offering a communication venue that attracts and enhances much needed partnerships among practitioners and researchers in pedagogical innovation we aim to change the conversation and focus on how we work and learn together i.e. extending the implementation and knowledge of co design methods In this first edition of our Research Topic on Active Learning we highlight two of the three types of publications we wish to promote First are studies aimed at understanding the pedagogical designs developed by practitioners in their own practices by bringing to bear the theoretical lenses developed and tested in the education research community These types of studies constitute the practice pull that we see as a necessary counterbalance to knowledge push in a more productive pedagogical innovation ecosystem based on research practitioner partnerships Second are studies empirically examining the implementations of evidence based designs in naturalistic settings and under naturalistic conditions Interestingly the teams conducting these studies are already exemplars of partnerships between researchers and practitioners who are uniquely positioned as in between straddling the two worlds As a result these publications represent both the rigours of research and the pragmatism of reflective practice In forthcoming editions we will add to this collection a third type of publication design profiles These will present practitioner developed pedagogical designs at varying levels of abstraction to be held to scrutiny amongst practitioners instructional designers and researchers alike We hope by bringing these types of studies together in an open access format that we may contribute to the development of new forms of practitioner researcher interactions that promote co design in pedagogical innovation

Handbook of Research on Integrating Digital Technology With Literacy Pedagogies Sullivan, Pamela M., Lantz, Jessica L., Sullivan, Brian A., 2019-11-22 The allure and marketplace power of digital technologies continues to hold sway over

the field of education with billions spent annually on technology in the United States alone Literacy instruction at all levels is influenced by these evolving and ever changing tools While this opens the door to innovations in literacy curricula it also adds a pedagogical responsibility to operate within a well developed conceptual framework to ensure instruction is complemented or augmented by technology and does not become secondary to it The Handbook of Research on Integrating Digital Technology With Literacy Pedagogies is a comprehensive research publication that considers the integration of digital technologies in all levels of literacy instruction and prepares the reader for inevitable technological advancements and changes Covering a wide range of topics such as augmented reality literacy and online games this book is essential for educators administrators IT specialists curriculum developers instructional designers teaching professionals academicians researchers education stakeholders and students Writing and Reading Connections Zoi A. Philippakos, Steve Graham, 2022-12-21 Writing skills are essential for success in the 21st century school and workplace but most classrooms devote far more time to reading instruction with writing often addressed in isolation or excluded In this insightful professional development resource and text leading researchers discuss why and how to integrate writing and reading instruction in grades K 12 and beyond Contributors explore how to harness writing reading connections to support learning in such areas as phonics and spelling vocabulary understanding genre and text structure and self regulated strategy development as well as across content areas and disciplines Special considerations in teaching emergent bilingual students and struggling literacy learners are described User friendly features include guiding questions classroom examples and action questions that help teachers translate the research and concepts into practice An NCTQ Exemplary Text for Reading Instruction **Handbook of Research on Reading Comprehension, Second Edition** Susan E. Israel, 2017-01-02 This edition provides a transformative snapshot of reading comprehension as a field of study at a seminal moment It maintains the same high level of standards with respect to 1 historical perspectives useful for laying the foundation of study on reading comprehension 2 theoretical perspectives that allow the reader to consider different views on how specific areas have evolved since the first edition 3 excellent chapters on various elements of reading comprehension including major research studies in assessment cultural impacts of reading comprehension issues affecting English language learners and consideration of international populations and 4 identification of future research needs to help raise important questions and stimulate possible hypotheses for future research **The Administration and Supervision of Literacy Programs** Shelley B. Wepner, Diana J. Quatroche, 2021 Readers gain insight into the research behind these issues and why they are particularly relevant to the 21st century classroom More importantly one sees how these various topics should be operationalized in schools and classrooms always with a good literacy leader guiding the way From the Foreword by Jack Cassidy past president International Literacy Association The Sixth Edition focuses on providing instruction at all grade levels and for different types of learners within the context of current state and federal mandates It explores specific program elements

Exploring Technology for Writing and Writing Instruction Pytash, Kristine E., 2013-07-31 As digital technologies continue to develop and evolve an understanding of what it means to be technologically literate must also be redefined Students regularly make use of digital technologies to construct written text both in and out of the classroom and for modern writing instruction to be successful educators must adapt to meet this new dichotomy *Exploring Technology for Writing and Writing Instruction* examines the use of writing technologies in early childhood elementary secondary and post secondary classrooms as well as in professional development contexts This book provides researchers scholars students educators and professionals around the world with access to the latest knowledge on writing technology and methods for its use in the classroom

Best Practices in Teaching Digital Literacies Evan Ortlieb, Earl H. Cheek Jr, Peggy Semingson, 2018-08-22 This edited volume provides a practical framework for teacher education programs to develop K 12 students digital literacies It serves as a set of best practices in teaching digital literacies that promotes access to research based pedagogies for immediate implementation in their classrooms

Multiple Perspectives on Difficulties in Learning Literacy and Numeracy Claire Wyatt-Smith, John Elkins, Stephanie Gunn, 2010-10-28 There are many approaches to researching the difficulties in learning that students experience in the key areas of literacy and numeracy This book seeks to advance understanding of these difficulties and the interventions that have been used to improve outcomes The book addresses the sometimes complementary and sometimes contradictory results and generates new approaches to understanding and serving students with difficulties in literacy and numeracy The book represents a departure from conventional wisdom as most scholars and graduate students draw upon ideas from only one of the three domains focal in the book and usually from one single or dominant theoretical frame Typically readers will affiliate with reading education mathematics education or learning disabilities and belong to one of the corresponding professional associations such as IRA NCTM or CLD This book s scope will open a scholarly forum for engaging readers with a familiarity with one of these domains while providing insight into the others on offer in the book

Literacy Assessment and Instructional Strategies Kathy B. Grant, Sandra E. Golden, Sandra Golden, Nance S. Wilson, 2014-09-03 This is a core textbook designed to prepare literacy educators to conduct reading and writing assessment and to help them develop appropriate corrective literacy strategies for use with their students

Handbook of Individual Differences in Reading Peter Afflerbach, 2015-08-11 The central unifying theme of this state of the art contribution to research on literacy is its rethinking and reconceptualization of individual differences in reading Previous research focused on cognitive components of reading

signaled the need for ongoing work to identify relevant individual differences in reading to determine the relationships of individual differences to reading development and to account for interactions among individual differences. Addressing developments in each of these areas, this volume also describes affective individual differences and the environments in which individual differences in reading may emerge, operate, interact, and change. The scant comprehensive accounting of individual differences in reading is reflected in the nature of reading instruction programs today: the outcomes that are expected from successful teaching and learning and the manner in which reading development is assessed. An important contribution of this volume is to provide prima facie evidence of the benefits of broad conceptualization of the ways in which readers differ. The Handbook of Individual Differences in Reading moves the field forward by encompassing cognitive, non-cognitive, contextual, and methodological concerns. Its breadth of coverage serves as both a useful summary of the current state of knowledge and a guide for future work in this area.
