A Rhetoric of Remnants Zosha Stuckey, 2014-10-07 In the nineteenth century language rather than biology created what we think of as disability Much of the rhetorical nature of idiocy and even intelligence itself can be traced to the period when the New York State Asylum for Idiots in Syracuse first opened in 1854 memorialized today as the first public school for people considered feeble minded or idiotic The asylum school pupil is a monumental example of how education attempts to mold and rehabilitate one s being Zosha Stuckey demonstrates how all education is in some way complicit in the urge to normalize The broad unstable and cross cultural category of people with disabilities endures an interesting relationship with rhetoric education speaking and writing Stuckey demystifies some of that relationship which requires new modes of inquiry and new ways of thinking and she calls into question many of the assumptions about embodied differences as they relate to pedagogy history and public participation

Handbook of Popular Culture and Biomedicine Arno Görgen, German Alfonso Nunez, Heiner Fangerau, 2018-09-10 This handbook explores the ways biomedicine and pop culture interact while simultaneously introducing the reader with the tools and ideas behind this new field of enquiry From comic books to health professionals from the arts to genetics from sci fi to medical education from TV series to ethics it offers different entry points to an exciting and central aspect of contemporary culture how and what we learn about and from scientific knowledge and its representation in pop culture Divided into three sections the handbook surveys the basics the micro and the macroaspects of this interaction between specialized knowledge and cultural production After the introduction of basic concepts of and approaches to the topic from a variety of disciplines the respective theories and methods are applied in specific case studies The final section is concerned with larger social and historical trends of the use of biomedical knowledge in popular culture Presenting over twenty five original articles from international scholars with different disciplinary backgrounds this handbook introduces the topic of pop culture and biomedicine to both new and mature researchers alike The articles all complete with a rich source of further references are aimed at being a sincere entry point to researchers and academic educators interested in this somewhat unexplored field of culture and biomedicine

Disability Rhetoric Jay Timothy Dolmage, 2014-01-22 Disability Rhetoric is the first book to view rhetorical theory and history through the lens of disability studies Traditionally the body has been seen as at best a rhetorical distraction at worst those whose bodies do not conform to a narrow range of norms are disqualified from speaking Yet Dolmage argues that communication has always been obsessed with the meaning of the body and that bodily difference is always highly rhetorical Following from this rewriting of rhetorical history he outlines the development of a new theory affirming the ideas that all communication is embodied that the body plays a central role in all expression and that greater attention to a range of bodies is therefore essential to a better understanding of rhetorical histories theories and possibilities

Development, Education and Learning Disability in India Maya Kalyanpur, 2021-12-13 This book uses qualitative research methods to examine why

students in an Indian context are being identified as having learning disabilities on criteria that are largely drawn from the context of the Global North It explores the push towards English language instruction as a possible factor that affects poor academic outcomes for students from low income backgrounds who may be first generation learners or English language learners The book contrasts the different outcomes and supports for academically struggling students across low income and middle income backgrounds with evidence to suggest that despite the inclusionary principles of Education For All this label is creating a marginalized group of students

Crippling Intersex Celeste E. Orr, 2022-10-22 Intersex and as is with disability The connections between intersex and disability deserve nuanced attention if we are to strengthen intersex human rights claims and understand the experiences of intersex people living with the disabling consequences of medical intervention Crippling Intersex examines three key themes the medical management of people with intersex characteristics the mainstream fascination with sport sex testing policies and procedures and the eugenic implications of preimplantation genetic diagnosis Celeste E Orr investigates how intersex and interphobia intersect with disability and ableism to propose a new approach to intersex studies and activism The integration of feminist disability studies with intersex studies provides tools to break down the traditional sex dyad and the entrenched cultural mandate against intersex traits This necessary work offers a radical new understanding of intersex with disability pushing analyses of intersex histories experience and embodiment further than feminist or queer theory can do alone

World Yearbook of Education 2017 Julie Allan, Alfredo J. Artiles, 2016-12-01 This latest volume in the World Yearbook of Education series

examines the relationship between assessment systems and efforts to advance equity in education at a time of growing inequalities. It focuses on the political motives behind the expansion of an assessment industry, the associated expansion of an SEN industry and a growth in consequential accountability systems. Split into three key sections, the first part is concerned with the assessment industry and considers the purpose and function of assessment in policy and politics and the political context in which particular assessment practices have emerged. Part II of the book on assessing deviance explores those assessment and identification practices that seek to classify different categories of learners including children with Limited English Proficiency with special needs and disabilities and with behavioural problems. The final part of the book considers the consequences of assessment and the possibility of fairer and more equitable alternatives, examining the production of inequalities within assessment in relation to race, class, gender and disability. Discussing in detail the complex historical intersections of assessment and educational equity with particular attention to the implications for marginalised populations of students and their families, this volume seeks to provide reframings and reconceptualisations of assessment and identification by offering new insights into economic and cultural trends influencing them. Co-edited by two internationally renowned scholars, Julie Allan and Alfredo J. Artiles, *World Yearbook of Education 2017* will be a valuable resource for researchers, graduates and policy makers who are interested in the economic trends of global education assessment.

Foundations of Disability Studies M. Wappett, K. Arndt, 2013-11-11. A collection of eight essays by scholars who have published extensively within the disability studies literature and who have helped build the field to its current state. Includes contributions from Robert Bogdan, Doug Biklen, Susan Schweik and more. *The Cambridge Companion to American Literature and the Body* Travis M. Foster, 2022-06-30. This volume offers a rigorous yet accessible overview of the key questions and intersectional approaches pertaining to American literature and the body. The chapters have been written in an accessible style, making them useful for undergraduates as well as for more experienced researchers. *Disability in the Global South* Shaun Grech, Karen Soldatic, 2016-11-08. This first of its kind volume spans the breadth of disability research and practice, specifically focusing on the global South. Established and emerging scholars alongside advocates adopt a critical and interdisciplinary stance to probe, challenge and shift common held social understandings of disability in established discourses, epistemologies and practices, including those in prominent areas such as global health, disability studies and international development. Motivated by decolonizing approaches, contributors carefully weave the lived and embodied experiences of disabled people, families and communities through contextual, cultural, spatial, racial, economic, identity and geopolitical complexities and heterogeneities. Dispatches from Ghana, Lebanon, Sri Lanka, Cambodia, Venezuela among many others spotlight the complex uncertainties of modern geopolitics, of coloniality, emergent forms of governance including neoliberal globalization, war and conflicts, the interstices of gender, race, ethnicity, space and religion, structural barriers to redistribution and realization of rights and processes of disability representation. This handbook examines in rigorous depth

established practices and discourses in disability including those on development rights policies and practices opening a space for critical debate on hegemonic and often unquestioned terrains Highlights of the coverage include Critical issues in conceptualizing disability across cultures time and space The challenges of disability models metrics and statistics Disability poverty and livelihoods in urban and rural contexts Disability interstices with migration race ethnicity gender and sexuality Disability religion and customary societies and practice The UNCRPD disability rights orientations and instrumentalities Redistributive systems including budgeting cash transfer systems and programming Global South North partnerships intercultural methodologies in disability research This much awaited handbook provides students academics practitioners and policymakers with an authoritative framework for critical thinking and debate about disability while pushing theoretical and practical frontiers in unprecedented ways

Disability, Human Rights and the Limits of Humanitarianism Michael Gill, Cathy J. Schlund-Vials, 2016-05-23 Disability studies scholars and activists have long criticized and critiqued so termed charitable approaches to disability where the capitalization of individual disabled bodies to invoke pity are historically socially and politically circumscribed by paternalism Disabled individuals have long advocated for civil and human rights in various locations throughout the globe yet contemporary human rights discourses problematically co opt disabled bodies as evidence of harms done under capitalism war and other forms of conflict while humanitarian non governmental organizations often use disabled bodies to generate resources for their humanitarian projects It is the connection between civil rights and human rights and this concomitant relationship between national and global which foregrounds this groundbreaking book s contention that disability studies productively challenge such human rights paradigms which troublingly eschew disability rights in favor of exclusionary humanitarianism It relocates disability from the margins to the center of academic and activist debates over the vexed relationship between human rights and humanitarianism These considerations thus productively destabilize able bodied assumptions that undergird definitions of personhood in civil rights and human rights by highlighting intersections between disability race gender ethnicity and sexuality as a way to interrogate the possibilities and limitations of human rights as a politicized regime
