The Super Natural Whitley Strieber, Jeffrey J. Kripal, 2016-02-02 Two of today's maverick authors on anomalous experience present a perception altering and intellectually thrilling analysis of why the paranormal is real but radically different from what is conventionally understood Whitley Strieber *Communion* and Jeffrey J Kripal J Newton Rayzor professor of religion at Rice University team up on this unprecedented and intellectually vibrant new framing of inexplicable events and experiences Rather than merely document the anomalous these authors one the man who popularized alien abduction and the other a renowned scholar and renegade advocate for including the paranormal in religious studies *The New York Times* deliver a fast paced and exhilarating study of why the supernatural is neither fantasy nor fiction but a vital and authentic aspect of life Their suggestion That all kinds of impossible things from extra dimensional beings to bilocation to bumps in the night are not impossible at all rather they are a

part of our natural world But this natural world is immeasurably more weird more wonderful and probably more populated than we have so far imagined with our current categories and cultures which are what really make these things seem impossible The Super Natural considers that the natural world is actually a super natural world and all we have to do to see this is to change the lenses through which we are looking at it and the languages through which we are presently limiting it In short The extraordinary exists if we know how to look at and think about it **Opening The Doors of Perception**

Anthony Peake,2016-09-13 An eye opening response to Aldous Huxley s widely influential work on psychedelics physical reality and consciousness What exactly are hallucinations Are they actually doors to another reality Anthony Peake thinks so In this stunning book he takes Aldous Huxley s *The Doors of Perception* and updates it using the latest information from quantum mechanics neurochemistry and consciousness studies Most human beings perceive the doors of perception as being securely closed But here Peake analyzes the concept of the scale of transcendence and suggests there is a scale of perceptions whereby the doors are slowly opened bit by bit to reveal the true nature of reality For normal people glimpses of this reality what the Gnostics called The Pleroma are experienced during noetic experiences However for others the doors are prized open by certain neurological processes starting with migraine and progressing through various altered states such as temporal lobe epilepsy bipolar syndrome autism and schizophrenia A pioneering work on the relationship between physical reality and consciousness *Opening the Doors of Perception* suggests that man can indeed perceive reality in its true glory *Jacob Boehme and the Spiritual Roots of Psychotherapy* Glenn J. McCullough,2025-04-14 Jacob Boehme 1574 1624

was a wildly creative mystical writer whose extraordinary revelations of God the soul and the universe have been consigned to obscurity In this original book Glenn J McCullough argues that Boehme is the ultimate source of a key modern movement psychotherapy Bringing clarity to Boehme s revelations McCullough shows how he anticipates the pioneering concepts of Sigmund Freud and C G Jung including their ideas of the unconscious mind and its remarkable potentials At the centre of Boehme s thought is the figure of Sophia divine Wisdom and her seven drives which guide the soul on a journey of expanded awareness and rebirth While Boehme has been dismissed as an esoteric outsider McCullough situates him in the mainstream Western tradition of Augustine and Luther while highlighting his unique approach to the ecstatic dream world of Wisdom

esoterism and occultism millennialism and popular culture **The UFO Paradox** Keith Thompson, 2024-07-16 Looks at witnesses reports as well as the theories of skeptics revealing how UFOs represent a call from the cosmos to expand our understanding of reality Explores UFO encounters against the backdrop of visionary experience angelic visitations near death experiences shamanic journeys and religious miracles Shares the author's UFO discussions with late Harvard psychiatrist John Mack philanthropist Laurance S Rockefeller and astronaut Edgar Mitchell In case after case related to UFO encounters and other unknown aerial phenomena UAP the same impasse is reached testimony from witnesses on one side dismissive responses from the authorities on the other In the fertile void of this deadlock however lie extraordinary possibilities about the nature of mind and matter spirit and soul transforming the UFO into a celestial metaphysical event Focusing on the possibilities found by exploring both sides of the UFO debate veteran UFO observer and reporter Keith Thompson shares profound insights and experiences from his several decades of research revealing that the UFO phenomenon is decidedly real yet perhaps not what either side of the debate expects He looks at UFOs as a genuine unknown from outer space or manifesting from hidden dimensions as well as the theories of skeptics and debunkers who insist that UFOs can be explained as hoaxes hallucinations or misidentified phenomena He explores the modern flying saucer era against the backdrop of visionary experience angelic visitations near death experiences shamanic journeys religious miracles and fairy tales and shows how UFOs are simultaneously physical and spiritual presenting a form of intelligence capable of altering the perceptions of witnesses Chronicling his own investigations into the UFO mystery the author details how he introduced the late Harvard psychiatrist John Mack to accounts of alien abduction and how he was invited by philanthropist Laurance S Rockefeller to lobby then president Bill Clinton to disclose government held UFO information Sharing stories from his friendship with astronaut Edgar D Mitchell among others the author recounts discussions on how best to interpret UFOs and non ordinary phenomena of various kinds Thompson reveals how the UFO phenomenon ultimately represents a call from the cosmos for humanity to open to greater dimensions of reality and recognize that our understanding of the universe is still far from complete Mind over Magick Richard Kaczynski, 2025-10-07 Draws on peer reviewed research in psychology and cognitive neuroscience such as real time brain imaging to examine the effects of mystical states and magical practice Shows how being in the zone as described by athletes and performers is consistent with the ritualist's state of mind when working magic Suggests rituals and routines to strengthen one's practice of magic witchcraft meditation and yoga with empirically proven tools By looking through the lens of psychology cognitive neuroscience and real time brain imaging Mind over Magick shows how and why ritual magical practice can produce profound experiences with tangible benefits Richard Kaczynski draws on a wealth of peer reviewed research to shed new light on magic He uses psychological studies including the infamous Stanford Prison Experiment in which subjects role played as prisoners and guards to reveal the power of magical vestments and personas and the effects they have on ritual practitioners He shows how being in the zone as

described by athletes and performers is consistent with the ritualist's state of mind when working magic. He also reveals what neurological processes are involved when one encounters and works with spirits. *Mind over Magick* includes empirically proven rituals to strengthen one's practice of magic, witchcraft, yoga and meditation. Readers can then apply the scientific method to evaluate their own spiritual praxis and determine what works best for them. For solitary practitioners and group participants alike, the author shares what happens both on a psychological and neurological level when they enter sacred spaces and use ritual implements as well as enter deep meditative states. He also details the importance of initiation as a rite of passage and transformative method of instruction. By approaching the art of practicing magic as a science, readers are encouraged to hone a more effective and empirically grounded practice.

Alien World Order Len Kasten, 2017-02-16 Shares new documents to expose the sinister alien influence in world governments, financial systems and scientific institutions throughout history. Shows how Eisenhower's treaty with the Greys signed at Holloman Air Force Base in 1954 gave the aliens authority to abduct humans for research. Reveals how Reptilian influenced ex-Nazis infiltrated the U.S. government. Explains how the Reptilians have created alien-human hybrids under their control to replace the human population. Long ago the Galactic Federation sent the Atlans, a fierce group of humans from the Pleiades, to Earth to confront the newest colony of the combative ever-spreading alien race known as the Reptilians. The ensuing battle sank the continent of Lemuria and drove the Reptilians underground beneath the Indian subcontinent as well as to Antarctica. Able to shapeshift to appear human, the Reptilians then infiltrated the Atlantean civilization, abducting humans and creating Reptilian hybrids. As Len Kasten shows, this technique of infiltration and hybridization prior to an all-out attack has been the hallmark of Reptilian conquest throughout the galaxy. Chronicling the history of the Reptilian Empire's influence on Earth and their conquest of 21 star systems, Kasten reveals how the human race is enmeshed in a skillfully concealed plot to enslave humanity and exploit our planet's physical and biological resources. Revealing Hitler's pact with extraterrestrials and the Reptilian influence on the Nazi state, he shares new documents that disclose the rescue and rehabilitation of Nazi war criminals to assist in the Cold War, which then corrupted many U.S. government institutions. Focusing on crucial events in the decade after World War II, he examines the Reptilians' human allies, the Illuminati, who

control the levers of financial technological and military power throughout the world through various secret societies He shows how Eisenhower's treaty with the Greys signed at Holloman Air Force Base in 1954 gave the aliens permission to take humans up to their spaceships ostensibly for genetic study in return for alien technology and how these abductions led to the creation of a hybrid race under Reptilian mind control He also explains how Kennedy was assassinated by the CIA because of his plans to rout out this Nazi Reptilian presence Contrasting the Reptilians with the benevolent Ebens the aliens from Zeta Reticuli who crashed at Roswell Kasten exposes the stealthy tactics of the Reptilians their relationship with the Greys and their advanced genetic bio technology and teleportation abilities as well as what we need to do to defeat their plans

The Supernatural in Modern English Fiction Dorothy Scarborough, 2019-01-03 subject of the supernatural in modern English fiction has been found difficult to deal with because of its wealth of material While there has been no previous book on the topic and none related to it save Mr C E Whitmore s work on *The Supernatural in Tragedy* the mass of fiction itself introducing ghostly or psychic motifs is simply enormous It is manifestly impossible to discuss or even to mention all of it Even in my bibliography which numbers over three thousand titles I have made no effort to list all the available examples of the type The bibliography which I at first intended to publish in connection with this volume is far too voluminous to be included here so will probably be brought out later by itself

Magic Jamie Sutcliffe, 2021-12-14 The first accessible reader on magic s generative relationship with contemporary art practice From the hexing of presidents to a renewed interest in herbalism and atavistic forms of self care magic has furnished the contemporary imagination with mysterious and often disorienting bodies of arcane thought and practice This volume brings together writings by artists magicians historians and theorists that illuminate the vibrant correspondences animating contemporary

art's varied encounters with magical culture inspiring a reconsideration of the relationship between the symbolic and the pragmatic. Dispensing with simple narratives of re-enchantment, Magic illustrates the intricate ways in which we have to some extent always been captivated by the allure of the numinous. It demonstrates how magical culture's tendencies toward secrecy, occlusion, and encryption might provide contemporary artists with strategies of remedial communality, a renewed faith in the invocational power of personal testimony, and a poetics of practice that could boldly question our political circumstances, from the crisis of climate collapse to the strictures of socially sanctioned techniques of medical and psychiatric care. Tracing its various emergences through the shadows of modernity, the circuitries of ritual, media, and declarations of psychic self-defence, Magic deciphers the evolution of a magical critical thinking that productively complicates, contradicts, and expands the boundaries of our increasingly weird present.
