----- **Fashion and Jazz** Alphonso McClendon, 2015-01-29 Born in the late 19th century jazz gained mainstream popularity during a volatile period of racial segregation and gender inequality. It was in these adverse conditions that jazz performers discovered the power of dress as a visual tool used to defy mainstream societal constructs, shaping a new fashion and style aesthetic. *Fashion and Jazz* is the first study to identify the behaviours, signs, and meanings that defined this newly evolving subculture. Drawing on fashion studies and cultural theory, the book provides an in-depth analysis of the social and political entanglements of jazz and dress, with individual chapters exploring key themes such as race, class, and gender. Including a wide variety of case studies ranging from Billie Holiday and Ella Fitzgerald to Louis Armstrong and Chet Baker, it presents a critical and cultural analysis of jazz performers as modern icons of fashion and popular style. Addressing a number of previously underexplored areas of jazz culture such as modern dandyism and the link between drug use and glamorous dress, *Fashion and Jazz* provides a fascinating history of fashion's dialogue with African American art and style. It is essential reading for students of fashion, cultural studies, African American studies, and history. **Youth, Class and Everyday**

Struggles Steven Threadgold, 2017-09-13 The concept of everyday struggles can enliven our understanding of the lives of young people and how social class is made and remade. This book invokes a Bourdieusian spirit to think about the ways young people are pushed and pulled by the normative demands directed at them from an early age, whilst they reflexively understand that allegedly available incentives for making the right choices and working hard, financial and familial security, social status, and job satisfaction are a declining prospect. In *Youth, Class and Everyday Struggles*, the figures of those classed as hipsters and bogans are used to analyse how representation works to form a symbolic and moral economy that produces and polices fuzzy class boundaries. Further to this, the practices of young people around DIY cultures are analysed to illustrate struggles to create a satisfying and meaningful existence while negotiating between study, work, and creative passions. By thinking through different modalities of struggles which revolve around meaning-making and identity, creativity, and authenticity, Threadgold brings Bourdieu's sociological practice together with theories of affect, emotion, morals, and values to broaden our understanding of how young people make choices, adapt, strategise, succeed, fail, and make do. *Youth, Class and Everyday Struggles* will appeal to undergraduate and postgraduate students as well as postdoctoral researchers of fields including Youth Studies, Class and Inequality, Work and Careers, Subcultures, Media, and Creative Industries, Social Theory, and Bourdieusian Theory.
