African Cinema in a Global Age Kenneth W. Harrow, 2023-09-19 This book traces the developments in African films that were made from the 1990s to the present within the evolving frame of what came to be called World Cinema and eventually Global Cinema Kenneth W Harrow explores how from the time video and then digital technologies were introduced in the 1990s and then again when streaming platforms assumed major roles in producing and distributing film between the 2010s and 2020s African cinema underwent enormous changes He highlights how the introduction of the continent's first successful commercial cinema Nollywood shifted the focus from engag films with social or political messages to entertainment movies but also auteur cinema Harrow explores how this transformation liberated African filmmakers and resulted in an incredible enduring flow of creative inventive and thoughtful filmmaking This book presents a number of those critical films that mark that trajectory projecting a new sense of African film spaces and temporalities while also highlighting how African films continue to find independent pathways This book will be of interest to students and scholars of African cinema and world cinema as well as researchers specifically examining African cinemas and their relationship to globalization

Proceedings of the 10th Focus Conference (TFC 2023) Manyane Makua, Mariam Akinlolu, Mashango Sithole, Phiwayinkosi Gumede, Cebo Nyondo, Ntombikhona Khuzwayo, Mandlenkosi Mhlono, 2023-11-03 This is an open access book The 2023 Focus Conference will focus on Goal Four Quality Education of the United Nations UN Sustainable Development Goals SGD Goal Four is seized with providing equal access for all women and men to affordable and quality technical vocational and tertiary education including university Quality education in this context means the ability to function provide and derive value in society The theme of the conference is therefore coined as The Role of Higher Education in the Attainment of Sustainable Quality Education Through this theme the conference will provide a space for participants to share practical knowledge experiences and possible

solutions to the myriad of problems that confront the higher education sector Universities are often thought of as ivory towers far removed from the realities that confront global societies To compound this higher education is increasingly being questioned for its relevance in providing practical and innovative solutions to existing societal problems Such questions often navigate around the relevance of the academic programmes being offered curriculum the capacity of staff employability of graduates and generally the ability of these institutions to understand why they exist Indeed higher education s role in creating a sustainable future will presumably take on greater importance as the world continues to become increasingly globalised and interdependent

Black 1968 Timothy H. Parsons,2025-02-25 Initially the 1960s was a time of understandable optimism The civil rights movement and the legislation it inspired suggested an end to institutionalized racism in the United States while in the Global South the emergence of independent states anticipated political liberation and increased prosperity So when racial discrimination entrenched privilege cold war politics and fiscal reality dashed these hopes later in the decade the world experienced a wave of protests Conventional narratives of 1968 focus on student strikes revolutions and coups

assassinations and the reactionary backlash that they inspired The chapters of Black 1968 reveal the imperfectly documented and heretofore unrecognized bonds that led peoples of African descent around the world to articulate new global conceptions of Blackness as a way to mount local challenges to racism segregation colonialism economic exploitation generational authority and cultural chauvinism This book will be of interest to general readers interested in the global 1968 as well as scholars of Blackness and global history Church We Want Orobator, Agbonkhianmeghe E.,2016-08-18 Featuring essays from a broad range of contributors this book is a treasure for anyone interested in theological reflection from an African perspective and is a necessary resource for theologians and scholars working in a church that is steadily moving its center to the Global South **Getting to God** Joni S. Sancken,Luke A. Powery,John Rottman,2023-02-14 During times of deep trouble God generates new and creative ways to break through the fear and pain to get to us even as we seek to get to God Recent crises are unparalleled and world changing Life is a terminal condition What we say on Sunday morning matters Nothing is more important than communicating the power and presence of the living God who for us and our broken dying world is strength hope healing and salvation And yet the age old challenge of how to name God in our world looms large Amidst the immense challenges of preaching today three preachers and teachers of preaching show a way forward by walking readers through a sermon creation process for specific challenging circumstances that gets to God This book demonstrates how preachers can proclaim God's grace in our world today by building on the theological grammar and preaching method proposed by Paul Scott Wilson Sancken Powery and Rottman lead by example showing preachers how to contextualize a theologically rich approach to preaching expand the horizon of ministry and equip preachers with a vital practice that of learning to look for and name God's active presence in our world **Servanthood of Song** Stanley R. McDaniel,2024-05-23 Servanthood of Song is a history of American church music from the colonial era to the present Its focus is on the institutional and societal pressures that have shaped church song and have led us directly to where we are today The gulf which separates advocates of traditional and contemporary worship Black and White Protestant and Catholic is not new History repeatedly shows us that ministry to be effective must meet the needs of the entire worshiping community not just one segment age group or class Servanthood of Song provides a historical context for trends in contemporary worship in the United States and suggests that the current polemical divisions between advocates of contemporary and traditional classically oriented church music are both unnecessary and counterproductive It also draws from history to show that to be the powerful component of worship it can be music whatever the genre must be viewed as a ministry with training appropriate to that Servanthood of Song provides a critical resource for anyone considering a career in either musical or pastoral ministries in the American church as well as all who care passionately about vital and authentic worship for the church of today *Exporting Global Jihad* Tom Smith,Hussein Solomon,2020-07-09 This timely 2 volume edited collection looks at the extent and nature of global jihad focusing on the often exoticised hinterlands of jihad beyond the traditionally

viewed Middle Eastern centre As ISIS loses its footing in Syria and Iraq and al Qaeda regroups this comprehensive account will be a key work in the on going battle to better understand the dynamics of the jihads global reality Critically examining the global reach of the jihad in these peripheries has the potential to tell us much about patterns of both local mobilisation and local rejection of a grander centrally themed and administered jihad Has the periphery been receptive to an exported jihad from the centre or does the local rooted cosmopolitanism of the jihad in the periphery suggest a more complex glocal relationship These questions and challenges are more pertinent than ever as the likes of ISIS and many commentators attempt to globally rebrand the jihad and as the centre reasserts its claims to the exotic periphery Edited by Tom Smith Portsmouth Kirsten E Schulze LSE and Hussein Solomon UFS the two volumes critically examine the various claims of connections between jihadist terrorism in the periphery remote Islamist insurgencies of the periphery and the global jihad Each volume draws on experts in each of the geographies in question The global nature of the jihad is too often taken for granted yet the extent of the glocal connections deserve focused investigation Without such inquiry we risk a reductive understanding of the global jihad further fostering Orientalist and Eurocentric attitudes towards local conflicts and remote violence in the periphery This book will therefore draw attention to those who overlook and undermine the distinct and rich particularities of the often contradictory and cosmopolitan global jihad In many of the peripheries particularly those with intensive large scale insurgencies there is extensive international military alliance The Bush doctrine to fight them over there so we don t have to fight them over here certainly looks to be alive and well in places like Somalia the Philippines and Niger amongst many others Crucially we must ask is such reasoning sound is the threat global and if so in what way Furthermore is action in the peripheries under the guise of combating the global jihad overlooking the local issues and threatening to make a wider threat where it was otherwise contained Diagnosing nations or regions as breeding grounds or sanctuaries of global jihad carries the spectre of having to chose sides in a battle of civilisations which looms over a number of developing nations reliant on good western relations

INK! Yvonne Singh, 2025-10-16 Before social media much less BLM journalists of colour were putting hot metal to paper to declare that Black lives matter Central to these newspapers were driven often heroic individuals passionate about the need to address global racial injustice and whose publications acted as a catalyst raising the consciousness of Black and minority ethnic communities in the UK The work of Samuel Jules Celestine Edwards Dus Mohamed Ali Claude McKay George Padmore Una Marson Claudia Jones and Darcus Howe had a formidable role to play in the birthing pains of multicultural Britain When overt colour bars were operating in much of the Western world and the injustices of empire loomed large it was the newspapers of these journalists that highlighted these atrocities to a wider audience fomenting the movement for change Their combined story arc covers a transformative period from when Britain s empire spanned nearly a quarter of the globe to the heady start of the 1980s when the Black British and Asian communities were asserting their voices INK reveals a fascinating history a story of how the sacrifices and struggles of the past have

shaped Britain's present and ultimately laid the blueprint for a progressive future

Ong'wen: Stronger than Faith, 2023-06-27 Few events in Kenya's recent history have captured the imagination of the nation as those of the period from the late 1970s Between the pages of this memoir is a history of that period which is hardly taught in our schools and is fast receding into the holes of the insignificant as a younger generation takes over The history of that era like that of all the eras that have made this country needs to be preserved by those who witnessed and participated in it In Stronger Than Faith Oduor Ong'wen adds clarity to the politics of an important but dark era of our history It adds clarity to why that era is not entirely gone

The Obama Administration Rachel Pistol, Dawn-Marie Gibson, 2024-12-12 This collection offers a detailed assessment of the varied ways in which President Barack Obama was received by audiences beyond America's borders and assesses what effect this had on his foreign policy initiatives The book approaches international perceptions of President Obama through specific case study examinations of his most significant state visits offering original insights into Obama's reception in Europe the Middle East East Asia the Caribbean and Africa Chapters on Europe explore the complex relationship that Obama shared with both British Prime Minister David Cameron and Northern Ireland's fragile executive The papal visit is also examined as well as Obama's image in Russia which explores the varied ways in which state controlled media attempted to portray Obama as an enemy of Russia Chapters on the Middle East address the various shifts that occurred in America's relationship with Iran under Obama Israeli hostilities towards Obama and Turkey's more assertive foreign policy Other contributions include analysis of Obama's visits to Ghana and Kenya providing important insights into US Africa relations under his administration and Obama's historic visit to the Hiroshima Peace Memorial in Japan Together these essays provide a detailed and comprehensive assessment of Obama's state visits with much needed insight into how the perceptions of Obama formed by these visits affected the US diplomatic and foreign policy initiatives under his administration

Street Players Kinohi Nishikawa, 2019-01-11 The uncontested center of the black pulp fiction universe for more than four decades was the Los Angeles publisher Holloway House From the late 1960s until it closed in 2008 Holloway House specialized in cheap paperbacks with page turning narratives featuring black protagonists in crime stories conspiracy thrillers prison novels and Westerns From Iceberg Slim's Pimp to Donald Goines's Never Die Alone the thread that tied all of these books together and made them distinct from the majority of American pulp was an unfailing veneration of black masculinity Zeroing in on Holloway House Street Players explores how this world of black pulp fiction was produced received and recreated over time and across different communities of readers Kinohi Nishikawa contends that black pulp fiction was built on white readers' fears of the

feminization of society and the appeal of black masculinity as a way to counter it In essence it was the original form of blaxploitation a strategy of mass marketing race to suit the reactionary fantasies of a white audience But while chauvinism and misogyny remained troubling yet constitutive aspects of this literature from 1973 onward Holloway House moved away from publishing sleaze for a white audience to publishing solely for black readers The standard account of this literary phenomenon is based almost entirely on where this literature ended up in the hands of black male working class readers When it closed Holloway House was synonymous with genre fiction written by black authors for black readers a field of cultural production that Nishikawa terms the black literary underground But as *Street Players* demonstrates this cultural authenticity had to be created promoted and in some cases made up and there is a story of exploitation at the heart of black pulp fiction s origins that cannot be ignored *Africa and the Shaping of International Human Rights* Derrick M. Nault,2020 Africa throughout its postcolonial history has been plagued by human rights abuses ranging from intolerance of political dissent to heinous crimes such as genocide Yet this book argues that the continent has also been pivotal in helping shape contemporary human rights norms and practices
