**Afro-Caribbean Immigrants and the Politics of Incorporation** Reuel R. Rogers, 2006-04-24 This book examines the political behavior of Afro Caribbean immigrants in New York City to answer a familiar but nagging question about American democracy: Does racism still complicate or limit the political integration patterns of racial minorities in the United States? With the arrival of unprecedented numbers of immigrants from Asia, Latin America and the Caribbean over the last several decades, there is reason once again to consider this question. The country is confronting the challenge of incorporating a steady, substantial stream of non-white, non-European voluntary immigrants into the political system. Will racism make this process as difficult for these newcomers as it did for African Americans? The book concludes that discrimination does interfere with the immigrants' adjustment to American political life. But their political options and strategic choices in the face of this challenge are unexpected ones, not anticipated by standard accounts in the political science literature.

**Caribbean Crossing** Sara Fanning, 2015-01-02 Reader's Digest Endowed Book Fund

[In Search of a Better Life](#) Ransford Palmer, 1990-05-21 This volume examines the phenomenon of mass population migration from the Caribbean to North America and the United Kingdom and the social, cultural and economic adaptation of the immigrants to their new environments. A central theme of this volume is that twentieth century Caribbean migration is more than the migration of labor in search of jobs; it is also a movement of households and thus affects not only the well-being of family members but also their social relationships. The contributors provide new analytical perspectives on the factors that motivate this movement and the social, cultural and economic impact of the movement on the household itself. The volume is divided into three parts. Part I examines the historical movement to the United States and the United Kingdom. The chapters in this section explore the relationship between the character of Caribbean development and the factors motivating the migration of households. The nineteenth century beginnings of twentieth century mass Caribbean migration and the social and economic experiences of the post-World War II Caribbean immigrants in Britain. Part II looks at the problems of settlement and adaptation in the major urban centers where Caribbean immigrants have tended to concentrate, giving special attention to the status of Caribbean women in the United States and the role of social networks in helping immigrants to adapt to their new surroundings. The final section looks at the problem of illegal migration from the Caribbean to the United States, drawing on data from the annual reports of the Immigration and Naturalization Service. Students, researchers and policy makers will find *In Search of a Better Life* an important contribution to the understanding of the total migration process.

**Crossing Waters** Marisel C. Moreno,2022-07-26 2023 Honorable Mention Isis Duarte Book Prize Haiti Dominican Republic section LASA 2023 Winner Gordon K and Sybil Lewis Book Award Caribbean Studies Association An innovative study of the artistic representations of undocumented migration within the Hispanophone Caribbean Debates over the undocumented migration of Latin Americans invariably focus on the southern US border but most migrants never cross that arbitrary line Instead many travel via water among the Caribbean islands The first study to

examine literary and artistic representations of undocumented migration within the Hispanophone Caribbean Crossing Waters relates a journey that remains silenced and largely unknown Analyzing works by novelists short story writers poets and visual artists replete with references to drowning and echoes of the Middle Passage Marisel Moreno shines a spotlight on the plight that these migrants face In some cases Puerto Rico takes on a new role as a stepping stone to the continental United States and the society migrants will join there Meanwhile the land border between Haiti and the Dominican Republic the only terrestrial border in the Hispanophone Caribbean emerges as a complex space within this cartography of borders And while the Border Patrol occupies US headlines the Coast Guard occupies the nightmares of refugees An untold story filled with beauty possibility and sorrow Crossing Waters encourages us to rethink the geography and experience of undocumented migration and the role that the Caribbean archipelago plays as a border zone

**Creolizing the Metropole** H. Adlai Murdoch, 2012-06-08 A study of how Caribbean immigrants to France and the UK from 1948 1998 and their descendants portray their metropolitan identities in literature and film Creolizing the Metropole is a comparative study of postwar West Indian migration to the former colonial capitals of Paris and London It studies the effects of this population shift on national and cultural identity and traces the postcolonial Caribbean experience through analyses of the concepts of identity and diaspora Through close readings of selected literary works and film H Adlai Murdoch explores the ways in which these immigrants and their descendants represented their metropolitan identities Though British immigrants

were colonial subjects and later residents of British Commonwealth nations and the French arrivals from the overseas departments were citizens of France by law both groups became subject to otherness and exclusion stemming from their ethnicities Murdoch examines this phenomenon and the questions it raises about borders and boundaries nationality and belonging An outstanding contribution to scholarship Theoretically grounded and meticulously researched it examines the complexities inherent in constructing new diaspora identities that are at once ethnic national and fluid Ren e Larrier Rutgers University In these expansive fresh adroit interpretations of Maryse Condé Gis le Pineau Zadie Smith White and Andrea Levy the author exposes the stark reality that race and the prejudices attached to it is a barrier to unequivocal assimilation This study affirms that a diasporic duality persists as creolization slowly alters the metropole Overall an interesting read Choice This book provides an extremely valuable contribution to the fields of postcolonial studies and European literary and film studies in at least three ways it theoretically refines the concept of creolization it contributes to much needed redefinitions of France and the United Kingdom as multicultural and it foregrounds the aesthetic qualities of the works under study Research in African Literatures *Black Like Them?* Reuel Reuben Rogers, Research Institute for the Study of Man, 1999
