Graf,2017 The figure of the renegade a European Christian or Jew who had converted to Islam and was now serving the Ottoman sultan is omnipresent in all genres produced by those early modern Christian Europeans who wrote about the Ottoman Empire As few contemporaries failed to remark converts were disproportionately represented among those who governed administered and fought for the sultan Unsurprisingly therefore renegades have attracted considerable attention from historians of Europe as well as students of European literature Until very recently however Ottomanists have been surprisingly silent on the presence of Christian European converts in the Ottoman military administrative elite *The Sultan's Renegades* inserts these foreign converts into the context of Ottoman elite life to reorient the discussion of these individuals away from the present focus on their exceptionality towards a qualified appreciation of their place in the Ottoman imperial enterprise and the Empire's relations

with its neighbours in Christian Europe Drawing heavily on Central European sources this study highlights the deep political religious and cultural entanglements between the Ottoman Empire and Christian Europe beyond the Mediterranean Basin as the shared world par excellence The existence of such trans imperial subjects is not only symptomatic of the Empire s ability to attract and integrate people of a great diversity of backgrounds it also illustrates the extent to which the Ottomans participated in processes of religious polarization usually considered typical of Christian Europe in this period Nevertheless Christian Europeans remained ambivalent about those they dismissed as apostates and traitors frequently relying on them for support in the pursuit of familial and political interests
