

The background of the cover is a fluorescence microscopy image. It shows a dense network of green, thread-like structures, likely representing the cytoskeleton (microtubules or actin filaments) of cells. Interspersed among these green structures are several bright blue and purple spots, which represent the nuclei of the cells, stained with a fluorescent dye like DAPI. The overall image has a dark, almost black background, making the green and blue/purple colors stand out prominently.
