Fetal Alcohol Abuse Syndrome:

Fetal Alcohol Abuse Syndrome Ernest L. Abel, 2013-03-09 My initial purpose in writing this book was to offer readers an update of my book *Fetal Alcohol Syndrome and Fetal Alcohol Effects* Plenum 1984 which contained a broad overview of the history actually the absence of any history of the awareness of alcohol's teratogenic potential a review of alcohol's pharmacology especially with respect to pregnancy a survey of the physical and behavioral effects of prenatal alcohol exposure and an overview of the mechanisms suspected of being responsible for those effects I have omitted most of the previously examined historical and pharmacological information because not much of what was previously discussed needed revision On the other hand because much more has been learned about the consequences of prenatal alcohol exposure and its potential mechanisms of action I have considerably expanded my discussion of these topics In doing so I have attempted to include as much new material as possible without I hope being overly pedantic and thereby losing the proverbial forest for the trees No book is ever entirely neutral in the topics it discusses the issues it raises or in its conclusions In sifting through hundreds and oftentimes thousands of articles writers have to choose which facts to emphasize and which to ignore Every idea cannot be chronicled and every article cannot and should not be cited In going about the business of picking and choosing however a writer has an obligation to present the arguments for and against a particular conclusion

Fetal Alcohol Syndrome Committee to Study Fetal Alcohol Syndrome, Institute of Medicine, 1996-04-15 It sounds simple Women who drink while pregnant may give birth to children with defects so women should not drink during pregnancy Yet in the 20 years since it was first described in the medical literature fetal alcohol syndrome FAS has proved to be a stubborn problem with consequences as serious as those of the more widely publicized crack babies This volume discusses FAS and other possibly alcohol related effects from two broad perspectives diagnosis and surveillance and prevention and treatment In addition it includes several real life vignettes of FAS children The committee examines fundamental concepts for setting diagnostic criteria in general reviews and updates the diagnostic criteria for FAS and related conditions and explores current research findings and problems associated with FAS epidemiology and surveillance In addition the book describes an integrated multidisciplinary approach to research on the prevention and treatment of FAS The committee Discusses levels of preventive intervention Reviews available data about women and alcohol abuse and treatment among pregnant women Explores the psychological and behavioral consequences of FAS at different ages Examines the current state of knowledge about medical and therapeutic interventions education efforts and family support programs This volume will be of special interest to physicians nurses mental health practitioners school and public health officials policymakers researchers educators and anyone else involved in serving families and children especially in high risk populations

Morbidity and Mortality Weekly Report, 2005-10 **Diversity Issues in Substance Abuse Treatment and Research** Sana Loue, 2007-06-02 lthough the term diversity is widely used there is often no agree A ment as to its meaning or how attention to diversity should be erationalized within the context of programming or research This text provides a foundation for the examination of such issues with sugg tions for the integration of various approaches into substance use tre ment programs and research The impetus for this work derived from multiple interactions over a period of several years with colleagues s dents research participants and community based providers who noted the frequent inattention paid to such concerns in the context of treatment and research often despite an acknowledgment of a group s particular historical legacy in the United States and the impact of that history on the

initiation and prolongation of substance use within a specific community or the barriers to treatment that may have resulted

Chapter 1 defines what is meant by diversity through an examination of related terms such as culture ethnicity race sex gender and sexual orientation Clearly this discussion does not and cannot reflect all possible permutations of human existence that reflect diversity For instance although the text does make mention of considerations related to religious differences and cognitive capacity neither is highlighted as a separate topic Additionally the emphasis on specific groups is not meant to imply that other groups such as Euro Americans or heterosexual men do not have concerns that may differ from those of other communities and that deserve consideration in the development and implementation of programs and research endeavors However trite it may seem one text cannot do it all

ADHD and Fetal Alcohol Spectrum Disorders (FASD) Kieran D. O'Malley, 2007 This multi author book will discuss the history and clinical presentation of Foetal Alcohol Spectrum Disorders FASD i e Fetal Alcohol Syndrome FAS and Alcohol Related Neurodevelopmental Disorder ARND These developmental neuropsychiatric disorders result from prenatal exposure to alcohol during any gestational period of pregnancy The book will particularly address the co occurring presence of ADHD in patients with FASD ADHD is the most frequent neuropsychiatric presentation of FASD throughout the lifespan and it is particularly difficult to manage because the underlying pathophysiology is related to prenatal neurotoxic brain injury Although prenatal alcohol exposure and the resulting FASD is recognised as the commonest preventable cause of intellectual disability many clinicians and educators are not aware that 75 to 80% of the patients with FASD have I Q s over 70 Thus the neuropsychiatric presentation of FASD can often be unrecognised or misunderstood FASD are the true clinical masqueraders and ADHD is their most likely disguise The authors are all experienced professionals from a wide range of disciplines working throughout the USA and Canada They have been involved in the diagnosis research and management of FASD for many years and this book will bring their collective knowledge regarding management from infancy to adulthood to an inter professional audience
