Interests And Integration Market Liberalization Public Opinion And European Union:

Interests and Integration Matthew Joseph Gabel, 2009-12-10 Explains differences in public support for integration in Europe *Interests and Integration*, 2009 Integration in Europe has been a slow incremental process focusing largely on economic matters Policy makers have tried to develop greater support for the European Union by such steps as creating pan European political institutions Yet significant opposition remains to policies such as the creation of a single currency What explains continued support for the European Union as well as opposition among some to the loss of national control on some questions Has the incremental process of integration and the development of institutions and symbols of a united Europe transformed public attitudes towards the European Union In this book Matthew Gabel probes the attitudes of the citizens of Europe toward the European Union He argues that differences in attitudes toward integration are grounded in the different perceptions of how economic integration will affect individuals economic welfare and how perceptions of economic welfare effect political attitudes Basing his argument on Easton's idea that where affective support for institutions is low citizens will base their support for institutions on their utilitarian appraisal of how well the institutions work for them Gabel contends that in the European Union citizens appraisal of the impact of the Union on their individual welfare is crucial because their affective support is quite low This book will be of interest to scholars studying European integration as well as scholars interested in the impact of public opinion on economic policymaking Matthew Gabel is Assistant Professor of Political Science University of Kentucky *Identity, Interests and Attitudes to European Integration* L. McLaren, 2005-12-16 With growing levels of Euroscepticism across EU member states grasping the roots of opposition to European integration has become more important than ever This book charts public perceptions of the European Union in both the EU 15 and the new member states and introduces an identity based model to explain mass Euroscepticism **Social Networks and Public Support for the European Union** Elizabeth Radziszewski, 2013-11-26 Although political conversations on European integration are common they are not part of existing explanations for attitude formation on the EU This book examines the impact of social interactions specifically interpersonal and informal discussions on shaping individuals views on European integration Looking at opinion formation through the lens of social networks the author develops an innovative argument about the role that social networks play in delivering information and moulding individuals identities Including original survey data and an extended case study on Poland the book identifies three processes through which informal discussions could affect views on integration and shows that differences in discussion dynamics explain why some people change their opinions while others remain loyal to their views It shows that well connected leaders in small communities can use informal talks to ensure the spread of local ideas such as opposition to the EU even when such ideas are unpopular at the national level This book demonstrates that people who engage in informal talks about politics behave differently than those who are excluded from such interactions *Social Networks and Public Support for the European Union* will be of interest to students and scholars of

European Union politics public opinion social networks political marketing deliberation Eastern Europe and comparative politics *The European Union: Integration and Enlargement* R. Daniel Kelemen, Anand Menon, Jonathan Slapin, 2016-04-14 This book explores one of the central challenges facing the EU today how to reconcile enlargement with the pursuit of a stronger and more effective European Union While the relationship between widening and deepening has been recognized for years as one of the big questions in the field of European integration existing theoretical and empirical analyses of this relationship suffer from a variety of shortcomings This book brings together a group of EU scholars who significantly advance our understanding of the relationship between widening and deepening The contributors challenge a variety of common wisdoms concerning the relationship between widening and deepening and offer nuanced theoretical and empirical analysis of the relationship between these two vital dimensions of European integration Collectively the contributors to this volume offer the most comprehensive picture available to date of the multi faceted relationship between widening and deepening This book was published as a special issue of the Journal of European Public Policy *Representing Religion in the European Union* Lucian Leuştean, 2013 Religious actors are becoming part of the EU bureaucratic system and their mobilisation in Brussels and Strasbourg in the last decade has increased dramatically This book explores the mechanism and impact of religious representation by examining relations between religious practitioners and politicians in the European Union from the Second World War until today This book seeks to answer the following questions How do trans national religious groups enter into contact with European institutions What are the rationale and the mechanisms of religious representation in the European Union How are religious values transposed into political strategies What impact has relations between religious practitioners EU officials and politicians on the construction of the European Union Examining religious representation at the state transnational and institutional levels this volume demonstrates that faith is becoming an increasingly important element of the decision making process It includes chapters written by both academics and religious practitioners in dialogue with European institutions and will be of great interest to students and scholars of European politics history sociology of religion law and international relations **The Oxford Handbook of the European Union** Erik Jones, Anand Menon, Stephen Weatherill, 2012-08-30 The Oxford Handbook of the European Union brings together numerous acknowledged specialists in their field to provide a comprehensive and clear assessment of the nature evolution workings and impact of European integration European Union Politics Michelle Cini, 2007 With its established authority and reputation the new edition is an invaluable resource Michelle Cini has brought together a team of international contributors each specialising in a different field of EU politics The book is divided into five parts and deals with the history of the European integration process theories of European integration the European institutions a select number of European policy areas and issues of relevance to the study of EU politics The second edition has been updated throughout to reflect recent developments and there are four new chapters on the constitutional treaty CFSP and ESDP the single market and public

 Ireneusz Paweł Karolewski, Victoria Kaina, 2012 This book shines new light on the political system of the European Union EU
 by focusing on civic resources as a keystone of the EU's ability to sustain Less tangible resources such as trust solidarity
 mutual recognition and citizens social and political participation have been until now largely ignored in the research on
 European integration Due to the fundamental changes to the EU in recent years and the challenges ahead European citizens
 have become increasingly critical of a long lasting unification process in Europe This volume theoretically and empirically
 examines how the European citizens themselves may contribute to the long term effectiveness legitimacy and endurance of
 the EU This book aims to examine the issues associated with the utilization of civic resources by the EU and the ability of
 European citizens to develop transnational civic resources Expert contributors in the field develop a framework to
 understand and explore the potential of citizens in the uncertain future of the EU Civic Resources and the Future of the
 European Union will be of interest to students and scholars of European Politics and European Union Studies **Cultural**
Diversity, European Identity and the Legitimacy of the EU Dieter Fuchs, Hans-Dieter Klingemann, 2011 As a
 consequence of various rounds of EU enlargements the degree of cultural diversity in Europe has intensified a phenomenon
 which is increasingly perceived as problematic by many EU citizens This fascinating book not only empirically explores the
 current state of the identity and the legitimacy of the EU as viewed by its citizens but also evaluates their attitudes towards it
 The expert contributors show that the development of a European identity and a common European culture is a prerequisite
 for European integration that European identity and a common political culture will not develop rapidly but emerge slowly
 and that the beginnings of a European identity and a common European culture are currently emerging The roles of civil
 society organizations and political parties are examined within this context and an explanatory model with subjective
 predictors of the attitudes towards the EU is tested The empirical analysis is underpinned by a theoretical framework
 incorporating operational definitions and conceptual discussion of legitimacy and identity This intriguing and thought
 provoking book will be of great interest to academics researchers and students focusing on political science and international
 relations Europe's Contending Identities Andrew C. Gould, Anthony M. Messina, 2014-02-17 This volume interrogates the
 implications of the persistence of nationalisms and newer ethnic religious identities for the emergence of a robust European
 identity The collected essays intersect and are informed by the streams of scholarship on contemporary ethnonationalism the
 challenges associated with immigrant particularly Muslim immigrant incorporation and the so called new nationalism
 including the illiberal ideas and policies promoted by extreme right political parties and groups **Euroscepticism as a**

Transnational and Pan-European Phenomenon John FitzGibbon, Benjamin Leruth, Nick Startin, 2016-08-19 As the EU enters an increasingly uncertain phase after the 2016 Brexit referendum Euroscepticism continues to become an increasingly embedded phenomenon within party systems non party groups and within the media Yet academic literature has paid little attention to the emergence of and increased development of transnational and pan European networks of EU opposition As the gap between Europe s mainstream political elites and an increasingly sceptical public has widened pan European spheres of opposition towards the EU have developed and evolved The volume sets out to explain how such an innately contradictory phenomenon as transnational Euroscepticism has emerged It draws on a variety of perspectives and case studies in a number of spheres the European Parliament political parties the media civil society and public opinion Examining to what extent the pan European dimension of Euroscepticism is becoming increasingly influential it argues that opposition to European integration has for too long been viewed somewhat narrowly through the paradigm of national party politics This text will be of key interest to scholars students and professionals in EU politics European studies political parties and more broadly to comparative politics and international relations

Reinventing Britain Andrew McDonald, 2007-10-30 Contrary to popular myth Britain does have a constitution one that is uncoded and commanded little political interest for most of the twentieth century In the late 1990s Tony Blair s New Labour Government launched a program of reform that was striking in its ambition Reinventing Britain tells the story of Britain s constitutional reform and weighs its long term significance with essays both by officials who worked on the reforms and by other leading commentators and academics from Britain and North America Contributors Mark Bevir Jack Citrin Joseph Fletcher Robert Hazell Ailsa Henderson Kate Malleson Craig Parsons Kenneth MacKenzie Peter Riddell

Dynamics of National Identity Jürgen Grimm, Leonie Huddy, Peter Schmidt, Josef Seethaler, 2016-02-12 Globalization immigration and economic crisis challenge the conceptions of nations trans national institutions and post ethnic societies which are central topics in social sciences discourses This book examines in an interdisciplinary and international comparative way structures of national identity which are in conflict with or supporting multi ethnic diversity and trans national connectivity The book s first section seeks to clarify the concepts of national identity nationalism patriotism and cosmopolitanism and to operationalize them consistently The next section regards the diversity within national states and the consequences for the management of identity and intra national integration The third section focuses on external integration between different nations by searching for the squaring of the circle between the bonding with co patriots and the critical reflection of one s own national perspective in relation to others The last section explores to what extent and in which ways media use shapes collective identity

When Politics Meets Religion Marko Veković, Miroljub Jevtić, 2024-08-05 When Politics Meets Religion presents a fresh exploration of the relationship between religion and politics worldwide The volume includes topics covering Europe such as the European far right the contours of European identity and how religious cleavages affect value orientation of Europeans It also covers country focused issues and

events such as the influence of Orthodox Christianity in Russia Christian nationalism in the United States the influence of religion on Turkish foreign policy the political role of the Catholic Church in the Philippines Chinese attitudes towards religious deprivatization and how liberation theology found its way from Latin America to the Holy Land The volume is supplemented with several analyses on the intersection between law society and religion It deals with religious mediation and political conflicts how the current religious governance in France affects the Orthodox Jewish community as well as how taxing the church's economic activities can be a contributor to the common good and why Muslims should treat Sharia law as only a moral code in the context of the Universal Declaration of Human Rights Through rigorous research case studies and critical analysis this volume explains how religion and politics mix in different settings and why it is important for us to study this complex relationship The volume will appeal to scholars and graduate students of political science and religious studies as well as interested professionals working for non governmental organizations NGOs or governments

Between Two Unions Paolo Dardanelli, 2006-01-12 This book is the first in depth comparative study of Scottish devolution and the first to analyse the impact of the European dimension With focus on the periods leading up to the referendums in 1979 and 1997 it investigates positions and strategies of political parties and interest groups and how these influenced constitutional preferences at mass level and ultimately the referendum results Based on rigorous analysis of an extensive body of quantitative and qualitative sources it builds a ground breaking argument that challenges the widespread thesis that support for devolution was a consequence of Conservative rule between 1979 and 1997 It shows that the decisive factors were changing attitudes to independence and the role of the European dimension in shaping them The book is essential reading for students and scholars of British European and comparative politics from 3rd year courses upwards and will also appeal to lay readers interested in contemporary affairs

Expanded EU: from Autonomy to Alliance Nejat Dogan, 2008-01-01 This book is a selection of the scholarly works presented at the 2nd International Redefining Europe Conference in Prague 2005 as a part of the Ashburn Institute's analogous initiative the goal of which is to advance people's understanding of the future of European civilisation and to explore the varying dynamics of transatlantic relations This volume is a 2nd publication in the Redefining Europe Conference Series The third manuscript will appear in print following the Renewing the Transatlantic Relationship Prospects for Europe and the United States in an Emerging Multipolar World Conference held in Norman OK November 2008 This book is targeted at scholars and students in political science and related disciplines

Europe - Space for Transcultural Existence? Martin Tamcke, Janny de Jong, Lars Klein, Margriet van der Waal, 2013 Europe Space for Transcultural Existence is the first volume of the new series Studies in Euroculture published by Gttingen University Press The series derives its name from the Erasmus Mundus Master of Excellence Euroculture Europe in the Wider World a two year programme offered by a consortium of eight European universities in collaboration with four partner universities outside Europe This master highlights regional national and supranational dimensions of the European democratic

development mobility migration and inter multi and transculturality The impact of culture is understood as an element of political and social development within Europe The articles published here explore the field of Euroculture in its different elements it includes topics such as cosmopolitanism cultural memory and traumatic past s colonial heritage democratization and Europeanization as well as the concept of European identity in various disciplinary contexts such as law and the social sciences In which way have Europeanization and Globalization influenced life in Europe more specifically To what extent have people in Europe turned transcultural The trans is understood as indicator of an overlapping mix of cultures that does not allow for the construction of sharp differentiations It is explored in topics such as im migration and integration as well as cultural products and lifestyle The present economic crisis and debt crisis have led as side result to a public attack on the open cosmopolitan outlook of Europe The values of the multicultural and civil society and the idea of a people s Europe have become debatable This volume offers food for thought and critical reflection

Shifting Solidarities Ine Van
Hoyweghen,Valeria Pulignano,Gert Meyers,2020-06-23 Shifting Solidarities offers a comprehensive analysis of solidarity at a time when major social transformations have penetrated the heart of European societies disrupting markets and labour relations transforming social practices and affecting the moral infrastructure of European welfare states Factors such as the economic crisis migration digitalisation and climate change all contribute to a sense of emergency This volume considers how in times of crisis there are calls for solidarity by various new social and political actors and movements The contributions present a broad array of empirical work and critical scholarship zooming in on shifting solidarities in various domains of social life including work social policy health care religion family gender and migration This compelling volume provides a unique resource for understanding solidarity in contemporary Europe and will be a vital text for students and scholars across sociology social policy cultural studies employment labour markets and organisation studies migration studies and European studies

Globalization and Self-Determination David R. Cameron,Gustav Ranis,Annalisa Zinn,2006-04-12 Is the nation state under siege A common answer is that globalization poses two fundamental threats to state sovereignty The first concerns the unleashing of centrifugal and centripetal forces such as increasing market integration and the activities of institutions like the IMF World Bank and WTO that imperil state sovereignty from outside the nation state The second threat emanates from self determination movements that jeopardize state sovereignty from inside Rigorously analyzing popular hypotheses on globalization s effect on state sovereignty from a broad social sciences perspective the authors use empirical evidence to suggest that globalization s multilevel threats to state sovereignty have been overestimated In most instances globalization is likely to generate pressure for increased government spending while only one form of market integration foreign direct investment by multinational enterprises appears to increase any feeling of economic insecurity This volume will be invaluable to course instructors at both graduate and undergraduate levels policy makers and members of the general public who are concerned about the effects of globalization on the nation state
