Song,2011-11-14 The Christian Bible is fundamentally a story Writers painters sculptors artists and indeed people of all walks of life live by the telling of their stories Stories are the most basic mode of human communication Thus it is vital to ask why Christians and above all Christian theologians so often

fail to express their faith in terms of story The vast majority of the Hebrew Scriptures for example consist of stories Jesus proclaimed and taught about the Reign of God through stories and parables At the heart of the Christian faith are stories not concepts propositions or ideas Given the deep rootedness of the Christian faith in storytelling this book seeks to address the fact that Christian theology has too often taken the form of concepts ideas and systems This book is an attempt to speak of Christian faith and theology in stories rather than systems Through stories both biblical and non biblical this book shows how we might reimagine the task of Christian theology in the life of faith today At its heart is the conviction that in the beginning there were stories and that in the end and indeed beyond the end are stories not texts ideas and concepts

PREWORD

The founder of this school of thought and the first to create the concept and to create the philosophical view that transforms the UNCERTAINTY field formed by Metaphysical and Noetic Noos inner cycle structures which form both the perspectives and determine the boundaries of an intellectual school through this concept into a certain field is Mustafa Karnas The NONT ONALIST school of thought considers itself necessary as a counter stance to the formalist viewpoint which is shaped by many co ordinated concepts and eliminates the real and spiritual reason for existence of being NONT ONALIST thought positions itself on a CREATIONIST thought and belief However since each of them is within a formalist structure it does not see any of the religious concepts as something to be positioned on or as one of the fundamental pillars of the NONT ONALIST thought structure NONT ONALIST MANIFESTO It exhibits a stance against religious concepts that are defined shaped and shaped by rituals traditions and rules and looks at them critically While suggesting that the relationship of belief is in a completely personal and mental flow it thinks that this flow does not remain fixed in any formal structure and that despite the changes in the structure of belief positions in the processes one should fundamentally remain loyal to the belief in CREATION This philosophy which positions itself on the concept of NON does not at the same time bind itself to a formal dimension through the idea of NON because NON knows that it is actually the fundamental entity itself and that all other flows are indexed only in the dimension of TEMPORARY PERCEPTION and accepts this indexing as only a FICTIONAL database Thus the actual

being NON accepts that all other beings NON are mere manifestations of temporary connections established by the mind through NON as formal structures Accordingly NONT ONALIST philosophy does not accept any reference or NORMS as a basis For NONT ONALIST philosophy it claims that NORMS and REFERENCES emerge only as a result of instant CORRELATIONS or COMBINATIONS produced depending on the current CONDITIONS over the DATABASE it inherits from its previous logical creation When we create a new FORM and follow this database backwards we see that the only thing left behind or the only thing that exists is NON NONT ONALIST PHILOSOPHY AND THE CONCEPT OF NOTHINGNESS NONT ONALIST philosophy does not accept the concept called NOTHINGNESS because NOTHINGNESS is an already defined area and cannot define itself through NON since it defines itself through BEING NONT ONALIST philosophy basically describes itself through CONTAMINATION SITUATIONS and sees that the cosmic future is increasingly producing itself in this direction CONTAMINATION while mentally describing a person s self through what is CONTAMINATED to him her describes the person and the situation of that person who is forced to define himself herself with a formal concept by the one who defines him her even though this CONTAMINATION does not have a certain formal structure that passes from mind to mind from interaction to interaction at the moment NONT ONALIST philosophy claims that based on this mental flow there is no NON It is in a NON state but since NON is connected to this movement initiated somewhere in the past from any point through movement It transforms the movement itself into a MATERIAL entity through various REFLECTIONS or FEEDBACKS is seen as an ASSET by the observer NON because it accepts other similar situations with which it is correlated in the NOW as references
